## NSE8\_812 exam dumps & NSE8\_812 torrent vce & NSE8\_812 study pdf

Nothing venture, nothing have. Many people know Fortinet certification will be a big effect for their career, but IT exams are difficult to pass as everyone knows. I want to introduce you our best products NSE8\_812 latest exam cram file which is famous for its 100% pass-rate. Candidates from all over the world choose us and clear their exams certainly with only little cost fee and 15-30 hours preparation before the exam. NSE8\_812 Latest Exam Cram file is useful and valid.

## Fortinet NSE 8 - Written Exam (NSE8\_812) Sample Questions (Q97-Q102):

### NEW QUESTION # 97

An administrator has configured a FortiGate device to authenticate SSL VPN users using digital certificates. A FortiAuthenticator is the certificate authority (CA) and the Online Certificate Status Protocol (OCSP) server. Part of the FortiGate configuration is shown below:

Based on this configuration, which two statements are true? (Choose two.)

- A. OCSP checks will always go to the configured FortiAuthenticator
- B. The OCSP check of the certificate can be combined with a certificate revocation list.
- C. If the OCSP server is unreachable, authentication will succeed if the certificate matches the CA.
- D. OCSP certificate responses are never cached by the FortiGate.

**Answer: A,B**

Explanation:

References:

- \* Configuring SSL VPN authentication using digital certificates | FortiGate / FortiOS 7.2.0 - Fortinet Document Library
- \* Online Certificate Status Protocol (OCSP) | FortiGate / FortiOS 7.2.0 - Fortinet Document Library
- \* Certificate Revocation Lists (CRLs) | FortiGate / FortiOS 7.2.0 - Fortinet Document Library

#### NEW QUESTION # 98

Refer to the exhibit.

The Company Corp administrator has enabled Workflow mode in FortiManager and has assigned approval roles to the current administrators. However, workflow approval does not function as expected. The CTO is currently unable to approve submitted changes.

Given the exhibit, which two possible solutions will resolve the workflow approval problems with the Workflow\_72 ADOM? (Choose two.)

- A. The CTO and CISO need to swap Approval Groups so that the highest authority is in Group #1.
- B. The CISO must have a higher access level than "Read\_Only\_User" in FortiManager.
- C. The CTO needs to be added to "Email Notification" in the Workflow\_72 ADOM.
- **D. The CTO must have Standard access level or higher for FortiManager.**
- **E. The CTO must have a defined email address for their admin user account.**

**Answer: D,E**

#### NEW QUESTION # 99

An administrator discovers that CPU utilization of a FortiGate-200F is high and determines that no traffic is being accelerated by hardware.

Why is no traffic being accelerated by hardware?

- A. Oper-session-accounting is enabled under np6x-lite config.
- B. delay-tcp-npu-session is enabled under the firewall policy.
- **C. check-protocol-header is set to strict in the global config.**
- D. strict-dirty-session-check is enabled in global config.

**Answer: C**

#### NEW QUESTION # 100

Refer to the exhibit showing a FortiSOAR playbook.

You are investigating a suspicious e-mail alert on FortiSOAR, and after reviewing the executed playbook, you can see that it requires intervention.

What should be your next step?

- A. Reply to the e-mail with the requested Playbook action
- B. Click on the notification icon on FortiSOAR GUI and run the pending input action
- C. Run the Mark Drive by Download playbook action
- **D. Go to the Incident Response tasks dashboard and run the pending actions**

**Answer: D**

Explanation:

The exhibited playbook requires intervention, which means that the playbook has reached a point where it needs a human operator to take action. The next step should be to go to the Incident Response tasks dashboard and run the pending actions. This will allow you to see the pending actions that need to be taken and to take those actions.

The other options are not correct. Option B will only show you the notification icon, but it will not allow you to run the pending input action. Option C will run the Mark Drive by Download playbook action, but this is not the correct action to take in this case. Option D is not a valid option.

Here are some additional details about pending actions in FortiSOAR:

- \* Pending actions are actions that need to be taken by a human operator.
- \* Pending actions are displayed in the Incident Response tasks dashboard.
- \* Pending actions can be run by clicking on the action in the dashboard.

### NEW QUESTION # 101

Refer to the exhibit showing an SD-WAN configuration.

□ According to the exhibit, if an internal user pings 10.1.100.2 and 10.1.100.22 from subnet 172.16.205.0/24, which outgoing interfaces will be used?

- A. port1 and port1
- B. port1 and port15
- C. port16 and port15
- **D. port16 and port1**

**Answer: D**

Explanation:

According to the exhibit, the SD-WAN configuration has two rules: one for traffic to 10.1.100.0/24 subnet, and one for traffic to 10.1.100.16/28 subnet. The first rule uses the best quality strategy, which selects the SD-WAN member with the best measured quality based on performance SLA metrics. The second rule uses the manual strategy, which specifies port1 as the SD-WAN member to select. Therefore, if an internal user pings 10.1.100.2 and 10.1.100.22 from subnet 172.16.205.0/24, the outgoing interfaces will be port16 and port1 respectively, assuming that port16 has the best quality among the SD-WAN members.
