Preparation Process

You can ace this certification test at the first attempt by studying the appropriate resources. The good news is that Microsoft offers extensive materials to help the candidates prepare for this exam. Thus, pay attention to some of the following study options to prepare for Microsoft AZ-104 like a pro:

- **Free Online Training**

Microsoft also offers free learning paths to help the individuals gain the competence required to achieve success in the certification exam. There are a total of six learning paths with varying modules. Those who prefer the self-paced preparation method will do well with these resources.

- **Official Practice Test**

The students can also take advantage of the official practice test available on the Microsoft website to evaluate their skills and knowledge of topics before attempting the actual exam. They can measure their readiness by working through the questions

and understanding the right answers.

- **Instructor-Led Training**

Microsoft recommends two instructor-led training courses to prepare for this exam. The first course is Microsoft Azure Administrator. It focuses on how to manage Azure subscriptions, administer infrastructures, secure identities, connect on-premises and Azure sites, configure VN, implement storage solutions, and manage network traffic, among others. The second instructor-led training, known as Azure Administration for AWS SysOps, is a two-day course. It is created to equip the learners with an understanding of the differences between AWS and Azure and how to administer Azure. It covers different topics, ranging from Azure Administration and Azure Compute to Azure Networking, Azure Governance, and Azure Storage.
