### Google Cloud Certified - Professional Google Workspace Administrator Sample Questions (Q10-Q15):

#### NEW QUESTION # 10

Your organization is in the process of deploying Google Drive for desktop so that your users can access Drive files directly from their desktops. For security reasons, you want to restrict Drive for desktop to only company-owned devices. What two steps should you take from the admin panel to restrict Drive for desktop to only company-owned devices?  
Choose 2 answers

- A. Devices > Endpoints > Add a filter-> Management Type > Drive for desktop > Apply
- B. Create a company-owned device inventory using an asset tag.
- C. Create a company-owned device inventory using serial numbers of devices.
- **D. Install the Google Endpoint Verification extension on machines using Drive for Desktop.**
- **E. Apps > Google Workspace > Drive and Docs > Features and Applications > Google Drive for Desktop > Only Allow Google Drive for desktop on authorized devices**

**Answer: D,E**

Explanation:

To restrict Drive for desktop to only company-owned devices, you should:

- \* Go to Apps > Google Workspace > Drive and Docs > Features and Applications > Google Drive for Desktop and select Only Allow Google Drive for desktop on authorized devices. This setting ensures that only authorized devices can use Drive for desktop.
- \* Install the Google Endpoint Verification extension on machines using Drive for Desktop. This extension helps manage and verify devices, ensuring that only company-owned devices are allowed access.

#### NEW QUESTION # 11

Your company has just acquired a new group of users. They have been provisioned into the Google Workspace environment with your primary domain as their primary email address. These new users still need to receive emails from their previous domain. What is the best way to achieve this for these new users, without updating the information of preexisting users?

- A. Add the acquired domain as an alias to the primary Google Workspace domain.
- B. Update the Google-provided test domain to be the domain of the acquired company, and then update the email information of all new users with alias emails.
- C. Without adding a domain, update each user's email information with the previous domain.
- **D. Add the acquired domain as a secondary domain to the primary Google Workspace domain, and then update the email information of all new users with alias emails.**

**Answer: D**

Explanation:

<https://support.google.com/a/answer/7502379?hl=en>

### NEW QUESTION # 12

Your company has received help desk calls from users about a new interface in Gmail that they had not seen before. They determined that it was a new feature that Google released recently. In the future, you'll need time to review the new features so you can properly train employees before they see changes. What action should you take?

- A. Company Profile > Profile > New User Features > Enable "Rapid Release"
- B. Device Management > Chrome > Device Settings > Stop auto-updates
- C. Apps > Google Workspace > Gmail > Uncheck "Enable Gmail Labs for my users"
- **D. Company Profile > Profile > New User Features > Enable "Scheduled Release"**

**Answer: D**

### NEW QUESTION # 13

Users in your organization are routinely complaining that they receive messages containing words of profanity they find inappropriate in a professional setting. As the administrator what steps should you take to prevent the messages from being delivered to users mailboxes?

- A. Set up a Gmail DLP policy.
- B. Enable optical character recognition (OCR)
- **C. Configure an objectionable content rule**
- D. Configure an attachment compliance rule

**Answer: C**

Explanation:

To prevent messages containing profanity from being delivered to users' mailboxes, follow these steps:

Sign in to the Google Admin console: Use an account with super administrator privileges.

Navigate to the Gmail settings: Go to Apps > Google Workspace > Gmail > Manage settings.

Create a new content compliance rule:

Click on "Compliance" and then "Content compliance."

Click on "Add another rule."

Provide a name for the rule, such as "Profanity Filter."

Set the conditions for the rule:

In the "Add setting" section, choose "If ANY of the following match the message." Select "Metadata match" or "Advanced content match." For "Advanced content match," use predefined content filters or add custom words that are considered profane.

Configure the actions:

Set the action to "Reject message" or "Quarantine message."

Optionally, you can notify an administrator or sender about the rejection or quarantine.

Save the rule: Click on "Save" to activate the rule.

### NEW QUESTION # 14

A user does not follow their sign-in pattern and signs in from an unusual location. As an admin, what should you do in response to this alert for this user during this investigation?

- **A. Investigate the account for unauthorized activity in the Login and Security Audit Log**
- B. First suspend the account and then investigate
- C. Add Two Factor Authentication to the Domain
- D. Enhance your security alerts for tracking sign-in patterns

**Answer: A**

Explanation:

Access Admin Console: Go to admin.google.com and sign in with your admin account.

Navigate to Reports: In the Admin console, go to Reports > Audit > Login.

Review Login Activity: Look for any unusual or suspicious login attempts, such as logins from unknown IP addresses or locations.

Investigate Further:

Check the user's activity for any signs of unauthorized access or unusual behavior.

Use the Security Audit Log to find more details about the login attempts and other security events.

Take Appropriate Actions:

If unauthorized activity is confirmed, consider resetting the user's password and enabling two-factor authentication (2FA).

Notify the user and possibly suspend the account if the threat level is high until the issue is resolved.

By investigating the login and security logs, you can identify and mitigate potential security threats effectively.
