

# Microsoft DP-700 Test Lab Questions & DP-700 Authentic Exam Questions

P.S. Free 2026 Microsoft DP-700 dumps are available on Google Drive shared by DumpsFree: <https://drive.google.com/open?id=13CuIyh5DNbDlMfkjTYMcDeD87VSmlxr>

Our company has forged a group of professional experts with the excelsior craftsmanship and a mature service system. The quality of our DP-700 latest question is high because our expert team organizes and compiles them according to the real exam's needs and has extracted the essence of all of the information about the test. So our DP-700 Certification tool is the boutique among the same kinds of the study materials. Our assiduous pursuit for high quality of our DP-700 exam prep creates our top-ranking DP-700 test guide and constantly increasing sales volume.

In order to cater to meet different needs of our customers, three versions of DP-700 exam bootcamp are available. Each version has its own advantages, and you can choose the most suitable one in accordance with your needs. Furthermore, DP-700 exam bootcamp is compiled by outstanding experts, therefore the quality and the accuracy can be guaranteed. Besides, we have the professional technicians to examine the website on a regular basis, hence a clean and safe shopping environment will be provided to you. You just need to buy the DP-700 Exam Dumps with ease.

## Microsoft DP-700 Authentic Exam Questions & DP-700 Valid Test Vce

If you really intend to pass the DP-700 exam, our software will provide you the fast and convenient learning and you will get the best study materials and get a very good preparation for the exam. The content of the DP-700 guide torrent is easy to be mastered and has simplified the important information. What's more, our DP-700 prep torrent conveys more important information with less questions and answers. The learning is relaxed and highly efficiently.

## Microsoft DP-700 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>Monitor and optimize an analytics solution: This section of the exam measures the skills of Data Analysts in monitoring various components of analytics solutions in Microsoft Fabric. It focuses on tracking data ingestion, transformation processes, and semantic model refreshes while configuring alerts for error resolution. One skill to be measured is identifying performance bottlenecks in analytics workflows.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>Ingest and transform data: This section of the exam measures the skills of Data Engineers that cover designing and implementing data loading patterns. It emphasizes preparing data for loading into dimensional models, handling batch and streaming data ingestion, and transforming data using various methods. A skill to be measured is applying appropriate transformation techniques to ensure data quality.</li></ul>

Topic 3	<ul style="list-style-type: none"> <li>Implement and manage an analytics solution: This section of the exam measures the skills of Microsoft Data Analysts regarding configuring various workspace settings in Microsoft Fabric. It focuses on setting up Microsoft Fabric workspaces, including Spark and domain workspace configurations, as well as implementing lifecycle management and version control. One skill to be measured is creating deployment pipelines for analytics solutions.</li> </ul>

## Microsoft Implementing Data Engineering Solutions Using Microsoft Fabric Sample Questions (Q89-Q94):

### NEW QUESTION # 89

You need to create the product dimension.

How should you complete the Apache Spark SQL code? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

☐

**Answer:**

Explanation:

☐

Explanation:

A screenshot of a computer Description automatically generated

☐

Join between Products and ProductSubCategories:

Use an INNER JOIN.

The goal is to include only products that are assigned to a subcategory. An INNER JOIN ensures that only matching records (i.e., products with a valid subcategory) are included.

Join between ProductSubCategories and ProductCategories:

Use an INNER JOIN.

Similar to the above logic, we want to include only subcategories assigned to a valid product category. An INNER JOIN ensures this condition is met.

WHERE Clause

Condition: IsActive = 1

Only active products (where IsActive equals 1) should be included in the gold layer. This filters out inactive products.

### NEW QUESTION # 90

You are implementing the following data entities in a Fabric environment:

Entity1: Available in a lakehouse and contains data that will be used as a core organization entity Entity2: Available in a semantic

model and contains data that meets organizational standards Entity3: Available in a Microsoft Power BI report and contains data that is ready for sharing and reuse Entity4: Available in a Power BI dashboard and contains approved data for executive-level decision making Your company requires that specific governance processes be implemented for the data.

You need to apply endorsement badges to the entities based on each entity's use case.

Which badge should you apply to each entity? To answer, drag the appropriate badges the correct entities. Each badge may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

☐

**Answer:**

Explanation:

☐

### NEW QUESTION # 91

You have a Fabric workspace named Workspace1 that contains an Apache Spark job definition named Job1.

You have an Azure SQL database named Source1 that has public internet access disabled.

You need to ensure that Job1 can access the data in Source1.

What should you create?

- A. a managed private endpoint
- B. an integration runtime
- C. a data management gateway

- D. an on-premises data gateway

**Answer: A**

Explanation:

To allow Job1 in Workspace1 to access an Azure SQL database (Source1) with public internet access disabled, you need to create a managed private endpoint. A managed private endpoint is a secure, private connection that enables services like Fabric (or other Azure services) to access resources such as databases, storage accounts, or other services within a virtual network (VNet) without requiring public internet access.

This approach maintains the security and integrity of your data while enabling access to the Azure SQL database.

### NEW QUESTION # 92

You have a Fabric workspace that contains an eventstream named Eventstream1. Eventstream1 processes data from a thermal sensor by using event stream processing, and then stores the data in a lakehouse.

You need to modify Eventstream1 to include the standard deviation of the temperature.

Which transform operator should you include in the Eventstream1 logic?

- A. Expand
- B. Aggregate
- **C. Group by**
- D. Union

**Answer: C**

Explanation:

To compute the standard deviation of the temperature from the thermal sensor data, you would use the Aggregate transform operator in Eventstream1. The Aggregate operator allows you to apply functions like sum, average, count, and statistical functions like standard deviation across a group of rows or events. This operator is ideal for operations that require summarizing or computing statistics over a dataset, such as calculating the standard deviation.

### NEW QUESTION # 93

You are implementing the following data entities in a Fabric environment:

Entity1: Available in a lakehouse and contains data that will be used as a core organization entity  
Entity2: Available in a semantic model and contains data that meets organizational standards  
Entity3: Available in a Microsoft Power BI report and contains data that is ready for sharing and reuse  
Entity4: Available in a Power BI dashboard and contains approved data for executive-level decision making  
Your company requires that specific governance processes be implemented for the data.

You need to apply endorsement badges to the entities based on each entity's use case.

Which badge should you apply to each entity? To answer, drag the appropriate badges to the correct entities.

Each badge may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

Explanation:

### NEW QUESTION # 94

.....

Once you learn all DP-700 questions and answers in the study guide, try DumpsFree's innovative testing engine for exam like DP-700 practice tests. These tests are made on the pattern of the DP-700 real exam and thus remain helpful not only for the purpose of revision but also to know the real exam scenario. To ensure excellent score in the exam, DP-700 Braindumps are the real feast for all exam candidates. They contain questions and answers on all the core points of your exam syllabus. Most of these questions are likely to appear in the DP-700 real exam.
