What's more, part of that Real4dumps C_ACDET_2506 dumps now are free: https://drive.google.com/open?id=1iDdIuWET3AOAcNKVPjFxV8JKfNYBkCzm

To some extent, to pass the C_ACDET_2506 exam means that you can get a good job. The C_ACDET_2506 exam materials you master will be applied to your job. The possibility to enter in big and famous companies is also raised because they need outstanding talents to serve for them. Our C_ACDET_2506 Test Prep is compiled elaborately and will help the client a lot. To get a better and full understanding of our C_ACDET_2506 quiz torrent, please read the introduction of the features and the advantages of our product as follow.

SAP C_ACDET_2506 Exam Syllabus Topics:

Topic	Details
Topic 1	• Field Configuration: This domain evaluates the knowledge of an SAP Deployment Specialist and focuses on customizing and configuring business fields in the SAP system according to client-specific needs. This includes adjusting system settings for master data, transaction data, and other essential field-level controls to support business processes effectively. The section tests the candidate's ability to use configuration tools, apply SAP standard templates, and ensure that the field configurations align with the desired operational workflows of the business. It also touches upon validation, testing, and documenting the configuration changes made during the implementation.
Topic 2	• Project Overview, Roles and Responsibilities: This section of the exam measures the skills of an SAP Cloud Consultant and covers the fundamental understanding of SAP Activate methodology within the context of a cloud implementation project. Candidates are expected to be familiar with the project lifecycle, including phases such as Prepare, Explore, Realize, Deploy, and Run. This part also focuses on identifying key roles and responsibilities within a cloud project team, ensuring clarity in collaboration between consultants, clients, and SAP. It checks whether the consultant understands governance, stakeholder management, and the high-level structure of cloud deployment using SAP best practices.

Topic 3	• Deploy and Migration: This part of the exam assesses the expertise of an SAP Deployment Specialist and focuses on the final deployment of the configured solution and the data migration process. Candidates should demonstrate a solid grasp of how to move configurations from a testing environment into production while minimizing disruption. It also includes knowledge of tools and strategies used for data extraction.

Our C_ACDET_2506 Learning Materials are carefully compiled over many years of practical effort and are adaptable to the needs of the C_ACDET_2506 exam. We firmly believe that you cannot be an exception.

SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite Sample Questions (Q26-Q31):

NEW QUESTION # 26
While working on editing a field for a customer, you notice that "Editable in full Contract Amendment" is not an option available in the advanced tab of field configuration. What is likely the cause for this behavior?
(Select 2 correct answers)

- A. A customization is in flight and needs to be cleared and reset prior to making this change.
- B. The field you are customizing is not in the contract workspace or request classes.
- C. The field you are customizing is standard and therefore cannot be changed.
- D. The contract must be in an amendment state for this option to be visible in customizing.

Answer: B,D

Explanation:
The "Editable in full Contract Amendment" option in SAP Ariba is available only when the contract is in an amendment status, meaning this option appears contextually when the contract supports amendment workflows. If the contract is not in amendment state, the option remains hidden (A).
Additionally, this option is only relevant for fields that belong to the Contract Workspace or Request field classes; fields outside these classes will not show amendment-specific editability options (C).
The presence or absence of this option is not related to ongoing customizations needing reset (B), nor is it restricted solely to custom or standard fields (D), as standard fields can also have this option if class- applicable.

NEW QUESTION # 27
A customer has requested that a Contracts field be added to an export event. After creating the field, assigning the appropriate checkbox in the advanced section, and publishing, this field still cannot be found in the export.
What can be done to rectify this? (Select 2 correct answers)

- A. A custom visibility expression needs to be added stating isVisibleInExport == true
- B. The data definition needs to be refreshed
- C. Custom fields cannot be added to import/exports
- D. The field must be accepted and published in the data definition

Answer: B,D

Explanation:
To ensure a custom Contracts field appears in export events, it must be accepted and published in the Data Definition within the Integration Manager, which formally exposes it for integrations (B). Also, the Data Definition should be refreshed (D) so that the export metadata is updated. A custom visibility expression is unnecessary, and custom fields can be added to import/export when

configured correctly.

NEW QUESTION # 28

The customer wants to have a field to hold Contract Storage Locations and the address. Those locations are loaded from an external system, and the user should be able to search for storage locations.

What should be used to hold the valid storage locations?

- A. You should create a new Fl ex Master Data (FMD) Template with appropriate attributes and call it Storage Location. Once the template is published and sample data loaded, you can create a custom field and select the type Storage Location
- B. Create a new field of type Text, with a custom Validation where the available Storage Locations are listed.
- C. You should load a new Enumeration Type and call it Storage Location and load the location addresses. Create a new field of type Enumeration with a custom filter to only Enumerations of type show Storage Locations.
- D. Create a new field of type Date, where each date entry is tied to a unique Storage Location and its corresponding address, allowing users to select locations based on historical data entries.

Answer: A

NEW QUESTION # 29

While working on a customer project, the customer asks if specific details can be captured and made available in reporting for a sourcing project or contract that doesn't fit the standard fields. What is the recommended way to handle this scenario?

- A. Suggest the customer put a Word document on the template and capture all information in that document.
- B. Create a dynamic form (dform) where common data can be synced with the project header through customization.
- C. Create a Microsoft Form from the Actions menu for managing all the requirements.
- D. Configure as many custom fields as possible for data capture purposes.

Answer: D

Explanation:

The recommended approach is to configure custom fields for capturing non-standard data in sourcing projects or contracts. Custom fields allow structured data capture directly within SAP Ariba, which can then be fully included in reporting and analytics. Documents like Word files (A) are unstructured and not reportable. Dynamic forms synced with project headers (B) are not supported as standard functionality. External tools like Microsoft Forms (C) do not integrate with SAP Ariba's reporting capabilities. Custom fields can include picklists, validation rules, translations, and help tips, enabling flexible, maintainable data collection aligned with reporting and compliance needs.

NEW QUESTION # 30

During which SAP Activate Methodology phase do you migrate the configuration to Production?

- A. Migrate
- B. Deploy
- C. Push
- D. Move

Answer: B

Explanation:

The Deploy phase is when final cutover activities take place, including migrating configurations and master data to production, running final system tests, and performing the go-live. The other options are not standard SAP Activate phases for Ariba.

NEW QUESTION # 31

......

We guarantee that you can enjoy the premier certificate learning experience under our help with our C_ACDET_2506 prep guide since we put a high value on the sustainable relationship with our customers. First of all we have fast delivery after your payment in 5-10 minutes, and we will transfer C_ACDET_2506 guide torrent to you online, which mean that you are able to study as soon as

possible to avoid a waste of time.
