BONUS!!! Download part of DumpsReview C\_ACDET\_2506 dumps for free: [https://drive.google.com/open?id=1U8T7bPMcVNoT\\_l7jsKcyDFmoJWvNc-rV](https://drive.google.com/open?id=1U8T7bPMcVNoT_l7jsKcyDFmoJWvNc-rV)

you can stand out in your work and impressed others with professional background certified by C\_ACDET\_2506exam and feel self-fulfillment, get sense of satisfaction in personal perspective, and have stand a better chance of getting better working condition with the C\_ACDET\_2506 Certification. Therefore, our affordable C\_ACDET\_2506 study guide will definitely be gainful opportunity. Come and buy our C\_ACDET\_2506 exam materials, and you will be grateful for your wise decision.

## SAP C\_ACDET\_2506 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>• Deploy and Migration: This part of the exam assesses the expertise of an SAP Deployment Specialist and focuses on the final deployment of the configured solution and the data migration process. Candidates should demonstrate a solid grasp of how to move configurations from a testing environment into production while minimizing disruption. It also includes knowledge of tools and strategies used for data extraction.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>• Field Configuration: This domain evaluates the knowledge of an SAP Deployment Specialist and focuses on customizing and configuring business fields in the SAP system according to client-specific needs. This includes adjusting system settings for master data, transaction data, and other essential field-level controls to support business processes effectively. The section tests the candidate's ability to use configuration tools, apply SAP standard templates, and ensure that the field configurations align with the desired operational workflows of the business. It also touches upon validation, testing, and documenting the configuration changes made during the implementation.</li></ul>

Topic 3	<ul style="list-style-type: none"> <li>• Project Overview, Roles and Responsibilities: This section of the exam measures the skills of an SAP Cloud Consultant and covers the fundamental understanding of SAP Activate methodology within the context of a cloud implementation project. Candidates are expected to be familiar with the project lifecycle, including phases such as Prepare, Explore, Realize, Deploy, and Run. This part also focuses on identifying key roles and responsibilities within a cloud project team, ensuring clarity in collaboration between consultants, clients, and SAP. It checks whether the consultant understands governance, stakeholder management, and the high-level structure of cloud deployment using SAP best practices.</li> </ul>

## **C\_ACDET\_2506 Mock Exam & C\_ACDET\_2506 Reliable Exam Voucher**

We have a lot of regular customers for a long-term cooperation now since they have understood how useful and effective our C\_ACDET\_2506 actual exam is. In order to let you have a general idea about the shining points of our C\_ACDET\_2506 training materials, we provide the free demos on our website for you to free download. You can check the information and test the functions by the three kinds of the free demos according to our three versions of the C\_ACDET\_2506 Exam Questions.

### **SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite Sample Questions (Q54-Q59):**

#### **NEW QUESTION # 54**

During which SAP Activate Methodology phase do you migrate the configuration to Production?

- A. Migrate
- **B. Deploy**
- C. Move
- D. Push

**Answer: B**

Explanation:

The Deploy phase is when final cutover activities take place, including migrating configurations and master data to production, running final system tests, and performing the go-live. The other options are not standard SAP Activate phases for Ariba.

#### **NEW QUESTION # 55**

You have a custom string field with a list of values. The values are represented as an Enumeration. Which of the following applies?

- A. The display order of the values is alphabetical
- B. The user can filter the values using the search box in the chooser
- **C. The display order in the drop down matches the order defined in the enumeration file**
- D. In the enumeration file, the Value column must only contain whole numbers

**Answer: C**

Explanation:

For single-select enumeration fields, the dropdown list order in SAP Ariba exactly follows the order in which values are defined in the enumeration file, not alphabetical. Alphabetical sorting applies only to multi-select chooser fields. The Value column can be text or integers depending on field type, and search/filter boxes are available only on chooser (multi-select) fields, not single-select dropdowns.

#### **NEW QUESTION # 56**

What system is provided by SAP free of charge and provides an outline of how to deploy SAP Ariba solutions with a task list and project management format?

- A. SAP Cloud Application Lifecycle Management

- B. SAP Ariba Enablement Workbook
- C. SAP Cloud Project Studio
- D. SAP for Me

**Answer: B**

Explanation:

The SAP Ariba Enablement Workbook is an Excel-based project management tool provided free by SAP to assist customers and implementation partners in deploying SAP Ariba solutions. It contains detailed task lists, timelines, and activities aligned to the SAP Activate methodology and is designed to guide project teams through deployment steps such as data collection, configuration, and testing. Other options like SAP for Me are customer portals, not deployment tools, and SAP Cloud Application Lifecycle Management is a broader lifecycle tool not focused specifically on Ariba deployments.

**NEW QUESTION # 57**

A customer has requested that a Contracts field be added to an export event. After creating the field, assigning the appropriate check box in the advanced section, and publishing, this field still cannot be found in the export.

What can be done to rectify this? Note: There are 2 correct answers to this question.

- A. The field must be accepted and published in the data definition.
- B. A custom visibility expression needs to be added stating isVisibleInExport == true.
- C. The data definition needs to be refreshed.
- D. Custom fields cannot be added to import/exports.

**Answer: A,C**

**NEW QUESTION # 58**

During which SAP Activate Methodology phase do you define the customer requirements?

- A. Define
- B. Design
- C. Explore
- D. Discover

**Answer: C**

Explanation:

SAP Activate's Explore phase is focused on refining and validating customer requirements through fit-to- standard workshops. During this phase, project teams analyze SAP best practice processes alongside customer business needs, identifying configuration gaps and defining functional requirements.

Design as a distinct phase has been replaced by the more agile Explore phase, focusing on solution validation.

The Discover phase focuses on solution evaluation and strategy alignment, not detailed requirements gathering. The term "Define" is not part of SAP Activate methodology.

Proper requirements definition during Explore ensures that the configurations built in Realize align with business needs, reducing rework and enhancing solution adoption. This methodology reflects SAP's emphasis on agile and iterative project delivery within cloud and hybrid deployments.

**NEW QUESTION # 59**

.....

The SAP C\_ACDET\_2506 exam is necessary for you if you want to improve your professional career. SAP C\_ACDET\_2506 exam questions changes from time to time so, it is important to check for updates regularly otherwise you can miss an important thing in the middle of your SAP C\_ACDET\_2506 Questions preparation. After the purchase, you will get C\_ACDET\_2506 dumps' latest updates for up to 90 days as soon as they are available. If the DumpsReview introduces new updates to C\_ACDET\_2506 study material within 90 days of your purchase then you will get them free of cost.
