SAP Certified Associate - SAP S/4HANA Cloud Private Edition, Financial Accounting Sample Questions (Q74-Q79):

NEW QUESTION # 74

Which component of the Intelligent Enterprise allows customers to discover and deploy vertical solutions from SAP and partners?

- A. Experience Management
- B. Intelligent Suite
- C. Business Network
- D. Industry Cloud

Answer: D

NEW QUESTION # 75

Which component of the Intelligent Enterprise allows customers to discover and deploy vertical solutions from SAP and partners?

- A. Experience Management
- B. Intelligent Suite
- C. Business Network
- D. Industry Cloud

Answer: D

Explanation:

The Intelligent Enterprise framework from SAP is designed to help businesses achieve digital transformation by leveraging advanced technologies such as artificial intelligence, machine learning, and cloud computing. One of its key components is the Industry Cloud, which focuses on providing industry-specific solutions. Let's analyze each option to determine the correct answer.

Explanation of Each Option:

A. Industry Cloud

* Correct : The Industry Cloud is a component of the Intelligent Enterprise that allows customers to discover and deploy vertical solutions tailored to specific industries. These solutions are developed by SAP and its partners to address unique industry challenges and requirements. Examples include solutions for manufacturing, retail, healthcare, and utilities.

* Reference : According to SAP documentation, the Industry Cloud provides a marketplace for industry-specific applications that extend the capabilities of SAP's core solutions, enabling customers to innovate and meet their unique business needs.

B. Intelligent Suite

* Incorrect : The Intelligent Suite refers to SAP's integrated suite of applications (e.g., SAP S/4HANA, SAP SuccessFactors, SAP Ariba) that provide end-to-end business processes across finance, human resources, procurement, and other functions. While it supports cross-industry processes, it does not focus on vertical solutions or industry-specific applications.

* Reference : The Intelligent Suite is about integrating core business processes, not deploying industry-specific solutions.

C. Experience Management

* Incorrect : Experience Management focuses on understanding and improving customer and employee experiences through feedback and data-driven insights. It includes tools like SAP Qualtrics to measure and act on experience data. This component is unrelated to discovering or deploying vertical solutions.

* Reference : Experience Management is about enhancing user experiences, not providing industry- specific applications.

D. Business Network

* Incorrect : The Business Network enables collaboration between businesses, suppliers, and customers through platforms like SAP Ariba, SAP Business Technology Platform (BTP), and SAP Logistics Business Network. While it facilitates connectivity and collaboration, it does not focus on deploying vertical solutions for specific industries.

* Reference : The Business Network is about fostering partnerships and collaboration, not delivering industry-specific applications.

Key References to SAP Documentation:

* SAP Industry Cloud Overview : Explains how the Industry Cloud provides vertical solutions tailored to specific industries.

* SAP Help Portal - Intelligent Enterprise Framework : Describes the components of the Intelligent Enterprise and their roles in digital transformation.

* SAP Partner Solutions : Highlights how SAP and its partners develop industry-specific applications for the Industry Cloud.

* SAP Business Technology Platform (BTP) : Discusses the role of BTP in supporting industry-specific innovations.

NEW QUESTION # 76

What are the consequences of the activation of segment reporting in Asset Accounting? Note:

There are 2 correct answers to this question.

- A. The segment appears in the additional account assignment configuration.
- B. The segment activation can be reversed.
- C. The segment appears in the screen layout for asset master data.
