A lot of professional experts concentrate to making our H19-402_V1.0 practice materials by compiling the content so they have gained reputation in the market for their proficiency and dedication. About some esoteric points, they illustrate with examples for you. Our H19-402_V1.0 practice materials are the accumulation of professional knowledge worthy practicing and remembering, so you will not regret choosing us. The best way to gain success is not cramming, but to master the discipline and regular exam points of question behind the tens of millions of questions. Our H19-402_V1.0 practice materials can remove all your doubts about the exam. If you believe in our products this time, you will enjoy the happiness of success all your life.

Huawei H19-402_V1.0 Certification Exam is an essential certification for professionals who work in the field of data center network planning and design. HCSP-Presales-Data Center Network Planning and Design V1.0 certification validates the skills and knowledge of candidates in data center network planning and design, making them more competitive in the job market. Furthermore, the certification also helps organizations to identify and hire qualified professionals who can design and plan complex data center networks to meet their business needs.

Examcollection H19-402_V1.0 Dumps Torrent, H19-402_V1.0 Exam Score

With our excellent H19-402_V1.0 exam questions, you can get the best chance to obtain the H19-402_V1.0 certification to improve yourself, for better you and the better future. With our H19-402_V1.0 training guide, you are acknowledged in your profession. The H19-402_V1.0 exam braindumps can prove your ability to let more big company to attention you. Then you have more choice to get a better job and going to suitable workplace. Why not have a try on our H19-402_V1.0 Exam Questions, you will be pleasantly surprised our H19-402_V1.0 exam questions are the best preparation material.

Huawei H19-402_V1.0 (HCSP-Presales-Data Center Network Planning and Design V1.0) Exam is a certification exam that tests the knowledge and skills of individuals planning to work in the field of data center network planning and design. H19-402_V1.0 exam is designed to assess a candidate's ability to create and implement a robust network design that meets the requirements of modern data centers. The Huawei H19-402_V1.0 exam is a comprehensive test that covers a range of topics related to data center network planning and design.

Huawei H19-402_V1.0 certification exam is a valuable certification for presales technical support engineers who wish to demonstrate their expertise in data center network planning and design. HCSP-Presales-Data Center Network Planning and Design V1.0 certification provides recognition of the candidate's knowledge and skills by the industry and enhances their career prospects. HCSP-Presales-Data Center Network Planning and Design V1.0 certification also enables the candidate to work with Huawei products and services and participate in Huawei certification programs.

Huawei HCSP-Presales-Data Center Network Planning and Design V1.0 Sample Questions (Q18-Q23):

NEW QUESTION # 18

iBattery intelligent battery management can monitor the parameters of a single battery in detail. What are these parameters? (Multiple choice)

- A. Voltage
- B. Electric current
- C. Temperature
- D. Internal resistance

Answer: A,B,C,D

NEW QUESTION # 19

Huawei 25KW half cabinet variable frequency air-cooled air conditioner, which of the following description is correct? (Multiple choice)

- A. The capacity calculation of a single air conditioner with UPS is $1.251.732$ full load current $380*0.8/0.9$
- B. The UPS capacity requirement for a single air conditioner is 15.8kVA. If UPS5000E is used, at least one 25kVA power module is required.
- C. If a group of air conditioners is connected to a UPS system, then the capacity requirement of a single UPS system should be multiplied by the number of air conditioners running simultaneously. For example, if there is a 5+1 cold backup configuration, the capacity requirement of a single air conditioner UPS system should be
- D. The capacity calculation of a single air conditioner with UPS is $1.21.732$ full load current $3800.8/0.9$
- E. The UPS capacity requirement for a single air conditioner is 79.0kVA. If UPS5000E is used, at least two 40kVA power modules are required.

Answer: B,C,D

NEW QUESTION # 20

UPS system battery intelligent management can fully extend the battery life. Which of the following functions does UPS2000-G-(6K20K) battery management support? (Multiple choice)

- A. Temperature compensation
- B. Smart Sleep
- C. The number of battery cells is adjustable
- D. Automatic floating charge conversion

Answer: A,B,C,D

NEW QUESTION # 21

Huawei Technologies Co., Ltd. is compliant with GB50174-2008 standard () is compliant with GB50174-2017 standard ().

- A. Participating units, participating units
- B. Auditing unit, Auditing unit
- C. Auditing unit, Participating units
- D. Participating units, Auditing unit

Answer: B

NEW QUESTION # 22

Which of the following statements is false about the overlay network or underlay network?

- A. The overlay network has an independent forwarding plane and an independent control protocol, which are VXLAN and BGP EVPN, respectively.
- B. The underlay network is transparent to devices (such as servers, VAS devices, and external routers) that are connected to NVEs.
- C. The overlay network is a logical network that is established over the underlay network through VXLAN.

- D. The overlay network requires bare optical fibers for links.

Answer: D

Explanation:

In Huawei CloudFabric architecture, the underlay network is the physical IP fabric, while the overlay network is a logical network built on top of it using technologies like VXLAN and BGP EVPN .

Option A is false because the overlay network does not require bare optical fibers . It operates independently of the physical medium and can run over any IP-based underlay (Ethernet, optical, etc.). The overlay abstracts the physical infrastructure.

Option B is correct : the underlay network is transparent to endpoints (servers, firewalls, routers). These devices only interact with the overlay and are unaware of the underlying transport.

Option C is correct : the overlay has its own forwarding plane (VXLAN encapsulation) and control plane (BGP EVPN) , enabling scalable and automated network virtualization.

Option D is correct : the overlay is a logical network built over the underlay , providing tenant isolation and flexible service deployment.

Huawei best practices emphasize decoupling overlay from underlay , ensuring flexibility, scalability, and simplified operations. Therefore, the correct answer is A .
