

# Online C\_ACDET\_2506 Training Materials - C\_ACDET\_2506 Accurate Test

P.S. Free & New C\_ACDET\_2506 dumps are available on Google Drive shared by ExamcollectionPass:  
<https://drive.google.com/open?id=147fMH4oNq9Yp8uQTs0WwwHNpJdB4Vebp>

our experts have rewritten the textbooks according to the exam outline of C\_ACDET\_2506, and have gathered all the key difficulties and made key notes, so that you can review them in a centralized manner. Experts also conducted authoritative interpretations of all incomprehensible knowledge points through examples and other methods. The expressions used in C\_ACDET\_2506 Learning Materials are very easy to understand. Even if you are an industry rookie, you can understand professional knowledge very easily. The C\_ACDET\_2506 training torrent will be the best study guide for you to obtain your certification.

## SAP C\_ACDET\_2506 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>• Project Overview, Roles and Responsibilities: This section of the exam measures the skills of an SAP Cloud Consultant and covers the fundamental understanding of SAP Activate methodology within the context of a cloud implementation project. Candidates are expected to be familiar with the project lifecycle, including phases such as Prepare, Explore, Realize, Deploy, and Run. This part also focuses on identifying key roles and responsibilities within a cloud project team, ensuring clarity in collaboration between consultants, clients, and SAP. It checks whether the consultant understands governance, stakeholder management, and the high-level structure of cloud deployment using SAP best practices.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>• Deploy and Migration: This part of the exam assesses the expertise of an SAP Deployment Specialist and focuses on the final deployment of the configured solution and the data migration process. Candidates should demonstrate a solid grasp of how to move configurations from a testing environment into production while minimizing disruption. It also includes knowledge of tools and strategies used for data extraction.</li></ul>

Topic 3	<ul style="list-style-type: none"> <li>• <b>Field Configuration:</b> This domain evaluates the knowledge of an SAP Deployment Specialist and focuses on customizing and configuring business fields in the SAP system according to client-specific needs. This includes adjusting system settings for master data, transaction data, and other essential field-level controls to support business processes effectively. The section tests the candidate's ability to use configuration tools, apply SAP standard templates, and ensure that the field configurations align with the desired operational workflows of the business. It also touches upon validation, testing, and documenting the configuration changes made during the implementation.</li> </ul>

## **Updated Online C\_ACDET\_2506 Training Materials - Perfect C\_ACDET\_2506 Exam Tool Guarantee Purchasing Safety**

The SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite (C\_ACDET\_2506) questions have many premium features, so you don't face any hurdles while preparing for C\_ACDET\_2506 exam and pass it with good grades. It will be an easy-to-use learning material so you can pass the SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite (C\_ACDET\_2506) test on your first try. We even offer a full refund guarantee (terms and conditions apply) if you couldn't pass the SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite (C\_ACDET\_2506) exam on the first try with your efforts.

### **SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite Sample Questions (Q22-Q27):**

#### **NEW QUESTION # 22**

Which of the following applies in a greenfield deployment scenario when migrating configurations from your test site?

- **A. You cannot make other configuration updates in ICM when a migration operation is in progress.**
- B. if any configuration type fails during the migration process, you cannot create a new migration request.
- C. You can revert migrated configurations from the target site.
- **D. The status changes to Complete when migration is finished.**

**Answer: A,D**

#### **NEW QUESTION # 23**

What are the key characteristics of a Bluefield deployment scenario? (Select 2 correct answers)

- A. Many team members have a naive perception of deploying software solutions
- **B. The Production site may have live transactions**
- C. The Test site has been configured using the SAP Bluefield template
- **D. The customer already has an SAP Ariba Strategic Sourcing suite solution deployed**

**Answer: B,D**

Explanation:

A Bluefield deployment means the customer already has an SAP Ariba solution deployed (B), and the production system may be live with ongoing transactions (C). This requires careful, incremental migration to avoid disruption. There is no specific "Bluefield template" for test sites (D), and team perceptions (A) are irrelevant.

#### **NEW QUESTION # 24**

When preparing to load legacy contracts during a Bluefield deployment in SAP Ariba Contracts, which of the following actions are required to ensure a successful migration?

- A. Skip the legacy contract upload step if the Production site already contains migrated Flex Master Data Templates.
- B. Create a new customized contract upload process specifically for Bluefield deployments to accommodate differences in

site structure.

- C. Use the exact same process and tools as used in the Greenfield migration scenario to upload legacy contracts.
- D. Manually enter legacy contract data into SAP Ariba Contracts using the application's UI instead of using import tools.

**Answer: C**

Explanation:

In Bluefield deployments, the legacy contract migration process is the same as in Greenfield deployments.

The standard approach uses SAP Ariba's import tools to upload contract data in bulk; no special new processes are needed.

Manual entry via UI is inefficient and error-prone. Also, existing Flex Master Data Templates do not negate the need to migrate legacy contract data.

Following the established Greenfield procedures ensures data consistency and alignment with configured templates and workflows in the target environment. This includes exporting contract data from legacy systems, validating, transforming as needed, and importing through the Production UI under contract management.

This standardization simplifies migrations across different deployment scenarios.

#### NEW QUESTION # 25

Which of the following considerations are important when creating custom fields? (Select 2 correct answers)

- A. When a field has been created and published, that field type has been consumed from the number of available fields on the class
- B. The data type of a field can be dynamically changed, depending on data type availability
- C. There's a limit to the number of fields, by data type, that can be added to a class
- D. Published field changes can be reverted via Un-publish to free up memory

**Answer: A,C**

Explanation:

SAP Ariba allocates a finite number of field "slots" per data type for each class. When a custom field is created and published, it consumes one of these slots. Therefore, there are limits to how many fields of each type you can create per class. The data type cannot be changed after creation, and un-publishing does not reclaim the allocated slot; you must delete the field to free resources. Planning field usage carefully avoids hitting these system limits.

#### NEW QUESTION # 26

Which syntax is used for writing custom Validity Conditions?

- A. Regular expression
- B. XML
- C. Python
- D. Scheme

**Answer: D**

#### NEW QUESTION # 27

.....

SAP exam guide have to admit that the exam of gaining the SAP certification is not easy for a lot of people, especial these people who have no enough time. If you also look forward to change your present boring life, maybe trying your best to have the C\_ACDET\_2506 latest questions are a good choice for you. Now it is time for you to take an exam for getting the certification. If you have any worry about the C\_ACDET\_2506 Exam, do not worry, we are glad to help you. Because the C\_ACDET\_2506 cram simulator from our company are very useful for you to pass the exam and get the certification.
