AVIXA CTS-I Exam Syllabus Topics:

Topic	Details

Topic 1	<ul style="list-style-type: none"> • Conduct Post Project Activities (e.g., support, warranties, maintenance): This domain addresses responsibilities that extend beyond project handover, including routine maintenance of AV systems and equipment, as well as diagnosing and repairing faults, handling warranty claims, and troubleshooting system issues after installation.
Topic 2	<ul style="list-style-type: none"> • Perform AV Systems Closeout: This domain covers the final steps needed to formally complete an AV project, including demonstrating system performance to the client, providing user training, and finalizing all project documentation such as as-built drawings, punch lists, and programming files.
Topic 3	<ul style="list-style-type: none"> • Install AV Systems: This is the largest and most heavily weighted domain, covering the complete hands-on installation process — assembling and wiring AV racks, placing and mounting equipment, terminating cables, configuring network and device settings, and finishing with system testing and calibration to ensure proper operation.
Topic 4	<ul style="list-style-type: none"> • Practice Ongoing Project Responsibilities: This domain focuses on day-to-day project management tasks during the installation phase, such as completing field reports, coordinating with other trades (electrical, construction, IT), and identifying and resolving field-level changes or conflicts that arise on site.
