## Salesforce Certified Service cloud consultant Sample Questions (Q196-Q201):

### NEW QUESTION # 196

The VP of Services at Universal Containers wants to reduce call center staffing. One of the initiatives is to deflect customer's interaction with a support agent while still providing relevant answers to the customer. How can a consultant automate the use of suggested articles to accomplish this goal?

- A. An email to case inquiry
- B. On-demand email to case
- C. While holding for a support agent
- **D. Web-to-case question**

**Answer: D**

Explanation:

#### Explanation

A web-to-case question is a solution that can automate the use of suggested articles to deflect customer's interaction with a support agent while still providing relevant answers to the customer. It allows customers to submit cases from a company's website and receive suggested articles based on their question before submitting the case. Verified References: :

#### NEW QUESTION # 197

Cloud Kicks is planning to use Case Teams to help swarm on difficult issues. Support agents can use predefined Case Teams to add specialists on a Case. Specialists need to be able to view Cases and add related records to the Case.

What is the recommended level of Case Access for the Case Team Role?

- A. Read Only
- B. Visible in Portal
- C. Read/Write
- D. Private

**Answer: C**

Explanation:

Explanation

Read/Write is the recommended level of Case Access for the Case Team Role. Case Access is a setting that determines what level of access users have to cases that they are added to as case team members. Read/Write access allows users to view and edit cases and related records, such as activities or attachments. Read/Write access can help specialists collaborate on cases and provide solutions. [https://help.salesforce.com/s/articleView?id=sf.case\\_teams\\_access\\_levels.htm&type=5](https://help.salesforce.com/s/articleView?id=sf.case_teams_access_levels.htm&type=5)

#### NEW QUESTION # 198

Cloud Kicks wants to standardize its service KPIs for response time and first case closure rates.

Individual service agents, team leaders, regional directors, and the VP of service should see the same KPIs calculated using only the data the user can access.

What is the recommended running user to meet the requirements?

- A. The dashboard viewer
- B. The user creating the dashboard
- C. The VP of service
- D. Let the dashboard viewers choose

**Answer: A**

Explanation:

Explanation

The dashboard viewer is the recommended running user to meet the requirements of standardizing the service KPIs for response time and first case closure rates. The dashboard viewer is a setting that allows the dashboard to display data according to the security settings of the user who is viewing it. This means that each user will see the same KPIs calculated using only the data they can access. Verified References: :
