- B. Assigning points for each user story
- C. Accepting completed work

Answer: D

Explanation:

A key responsibility of the Scrum Master/Team Coach (SM/TC) in SAFe is to support Iteration Execution. This involves ensuring that the team adheres to Agile principles, manages dependencies, removes impediments, and maintains focus on achieving iteration goals.

The Scrum Master facilitates team events, promotes collaboration, and helps the team continuously improve. They also assist in managing scope and ensuring transparency by tracking progress through iteration burndowns, Kanban boards, or burn-up charts. From SAFe guidance:
