## Quiz Unparalleled Reliable CIS-SPM Exam Bootcamp - Certified Implementation Specialist - Strategic Portfolio Management Valid Test Questions

There are a lot of excellent experts and professors in our company. The high quality of the CIS-SPM study materials from our company resulted from their constant practice, hard work and their strong team spirit. After a long period of research and development, our CIS-SPM study materials have been the leader study materials in the field. We have taken our customers' suggestions of the CIS-SPM Study Materials seriously, and according to these useful suggestions, we have tried our best to perfect the CIS-SPM study materials from our company just in order to meet the need of these customers well.

### ServiceNow Certified Implementation Specialist - Strategic Portfolio Management Sample Questions (Q26-Q31):

#### NEW QUESTION # 26

What does the project status report allow project managers to do?

Choose 2 answers

- A. Show historical trend of project KPI's
- B. Print as a PDF attachment
- C. View the WBS
- D. View the project Gantt chart

**Answer: A,B**

Explanation:

The project status report allows project managers to do the following:

Show historical trend of project KPI's: The project status report displays the key performance indicators (KPIs) of the project, such as schedule variance, cost variance, and earned value. It also shows the historical trend of these KPIs over time, which helps project managers monitor the progress and performance of the project. You can find more information about the project status report KPIs in the Product Documentation for ServiceNow.

Print as a PDF attachment: The project status report can be printed as a PDF attachment and sent to the stakeholders or sponsors of the project. This helps project managers communicate the status and health of the project in a clear and concise format. You can find more information about the project status report PDF attachment in the Product Documentation for ServiceNow.

#### NEW QUESTION # 27

To set up a group for selection in a resource plan, the group record needs to include which role?

- A. resource\_manager
- B. itil
- C. pps\_resource
- D. it\_project\_user

**Answer: C**

Explanation:

According to the Assigning Resource Roles document, to set up a group for selection in a resource plan, the group record needs to include the pps\_resource role. This role grants access to the Resource Management application and allows the group members to view and update their resource allocations. The other options are not correct, as they are not required for a group to be selected in a resource plan. The it\_project\_user role grants access to the Project Portfolio Management application and allows the user to create and update projects. The itil role grants access to the ITIL application and allows the user to manage incidents, problems, and changes. The resource\_manager role grants access to the Resource Management application and allows the user to manage resource plans and allocations.

#### NEW QUESTION # 28

Where is planned cost calculated from when requesting resources from a group and when resource role is specified?

- A. The task rate cards.
- **B. The hourly rate of the specified role.**
- C. The distribution costs
- D. The CI rate cards.

**Answer: B**

Explanation:

Explanation

According to the ServiceNow documentation<sup>1</sup>, when requesting resources from a group and when resource role is specified, the planned cost is calculated from the hourly rate of the specified role. The system uses the rate card associated with the resource plan to determine the hourly rate for each role. The other options are incorrect because:

A: The distribution costs: The distribution costs are the costs that are distributed across the project tasks based on the resource plan allocation<sup>2</sup>.

B: The task rate cards: The task rate cards are the rate cards that are applied to the project tasks, not the resource plan<sup>3</sup>.

D: The CI rate cards: The CI rate cards are the rate cards that are applied to the configuration items, not the resource plan<sup>4</sup>.

## NEW QUESTION # 29

In which table can you find cost information for a specific fiscal period?

- A. cost\_plan
- **B. cost\_plan\_breakdown**
- C. expense\_line
- D. pm\_project

**Answer: B**

Explanation:

Explanation

According to the ServiceNow documentation<sup>1</sup>, the cost\_plan\_breakdown table stores the cost information for a specific fiscal period. This table contains the fields such as cost plan, fiscal period, amount, and currency.

The other options are incorrect because:

B: pm\_project: The pm\_project table stores the information about projects, such as name, description, state, and status<sup>2</sup>.

C: cost\_plan: The cost\_plan table stores the information about cost plans, such as name, type, and project<sup>3</sup>.

D: expense\_line: The expense\_line table stores the information about expense lines, such as expense type, amount, and date<sup>4</sup>.

## NEW QUESTION # 30

What minimum role is required to assign a time sheet policy to a user?

- A. it\_project\_manager.
- **B. timecard\_admin**.
- C. ppm\_admin.
- D. It is not possible to assign a time sheet policy to a user.

**Answer: B**

Explanation:

## Explanation

According to the web search results1, the timecard\_admin role is the minimum role that is required to assign a time sheet policy to a user. A time sheet policy is a rule that controls the creation and operation of time sheets for resources who log time against work items. The timecard\_admin role can create and modify time sheet policies, time sheet groups, and time sheet periods, as well as approve time sheets or submit time cards on behalf of team members. The other options are incorrect because:

A: ppm\_admin: The ppm\_admin role is a higher-level role that can access all Project and Portfolio Management modules and features, but it is not the minimum role required for assigning a time sheet policy to a user2.

C: it project manager: The it project manager role can create and manage projects, but not assign time sheet policies to users.3.

D: It is not possible to assign a time sheet policy to a user: This is false, as it is possible to assign a time sheet policy to a user by using the Time Sheet Policy field on the User form4.
