Any puzzle about our SSM Test Torrent will receive timely and effective response, just leave a message on our official website or send us an e-mail at your convenience.

>> **Training SSM Material** <<

100% Pass 2026 Unparalleled Scrum Training SSM Material

One of the reason for this popularity is our study material are accompanied by high quality and efficient services so that they can solve all your problems. We guarantee that after purchasing our SSM test prep, we will deliver the product to you as soon as possible about 5-10 minutes. So you don't need to wait for a long time or worry about the delivery time has any delay. We will transfer our SSM Test Prep to you online immediately, and this service is also the reason why our SSM study torrent can win people's heart and mind.

Scrum SSM (6.0) - SAFe® Scrum Master Sample Questions (Q49-Q54):

NEW QUESTION # 49

At the end of a two-day planning meeting, a team does not have a committed plan. Do they:

- A. Leave and meet in a day or two
- **B. Stay until they get a committed plan**
- C. Have the RTE assign the a plan
- D. Have an executive assign them a plan

Answer: B

NEW QUESTION # 50

What is one issue that can occur without DevOps?

- A. Challenges between teams that talk with customers daily and those that meet with customers for research
- B. Challenges between teams that design functionality and those that test the functionality

- C. Challenges between teams that deploy products and those that collect customer feedback
- **D. Challenges between teams that build Solutions and those who operate the Solutions**

Answer: D

Explanation:

Without DevOps, organizations often face significant disconnects between development and operations teams. In traditional setups, developers build the software and then "hand it off" to operations teams for deployment and maintenance. This siloed approach creates delays, quality issues, and feedback gaps.

DevOps bridges this divide by integrating development and operations into a continuous delivery pipeline that promotes automation, collaboration, and shared responsibility for outcomes. SAFe emphasizes DevOps as a key enabler of the Continuous Delivery Pipeline, ensuring faster delivery of value, higher quality, and improved customer satisfaction.

From SAFe guidance:

"Without DevOps, organizations experience challenges between teams that build solutions and those who operate them. DevOps practices close this gap, fostering collaboration and accelerating the flow of value." Therefore, the correct answer is B. Challenges between teams that build Solutions and those who operate the Solutions.

NEW QUESTION # 51

The goal of Lean is to deliver the maximum customer value in the shortest sustainable lead time while providing what else?

- **A. The highest possible quality**
- B. Significant team contributions
- C. A Continuous Delivery Pipeline
- D. Improved capacity allocation

Answer: A

NEW QUESTION # 52

What are two reasons the 5 Whys technique is effective? (Choose two.)

- A. It allows problems of a similar nature to be combined into groups
- B. It is an effective way for the team to collaborate
- C. It allows for assumptions and logic traps
- **D. It reveals the nature of the problem through repeating "why" five times**
- **E. It explores the cause and effect relationship underlying a particular problem**

Answer: D,E

NEW QUESTION # 53

What is the intended value of the Team Sync event?

- A. The team is able to prepare requirements for Iteration Planning
- **B. The team aligns on the progress of Iteration Goals**
- C. The team is able to commit to a set of goals to be delivered in the Iteration
- D. The team reviews and improves processes before the next Iteration

Answer: B

Explanation:

The Team Sync (or Daily Stand-up) in SAFe is a short, focused, timeboxed event that allows the team to align on progress toward iteration goals, identify impediments, and plan the next 24 hours.

The meeting promotes transparency and collaboration, ensuring that all team members are aware of progress and issues that could affect delivery. It also reinforces self-management by allowing the team to adapt plans daily based on new information.

From SAFe guidance:

"The Team Sync allows team members to align on progress toward iteration goals, discuss impediments, and adjust their plans to stay on track." Thus, the correct answer is A. The team aligns on the progress of Iteration Goals, as it captures the event's primary intent.
