CompTIA DA0-002 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> Visualization: This section of the exam measures skills of a Data Visualisation Specialist and focuses on turning raw data into clear, visual insights. It teaches how to match visual formats like bar charts, heat maps, and line graphs to specific audiences and needs. Candidates must understand how to create dashboards and reports using proper design elements such as labels, layout, branding, and colour schemes. This section also includes best practices for dashboard development and delivery through various platforms and user access levels.
Topic 2	<ul style="list-style-type: none"> 5.0 Data Governance, Quality, and Controls
Topic 3	<ul style="list-style-type: none"> Data Concepts and Environments: This section of the exam measures the skills of a Junior Data Analyst and focuses on understanding core data concepts such as database types, schema structures, and data formats. It highlights differences between structured and unstructured data, compares file types like CSV, JSON, and XML, and introduces key ideas about data dimensions and slowly changing dimensions. Knowing how data is stored and organized helps professionals better prepare for analysis and reporting tasks.

Valid DA0-002 Test Materials & DA0-002 Certification Test Answers

We can find that the Internet is getting closer and closer to our daily life and daily work. We can hardly leave the Internet now, we usually use computer or iPad to work and learn. Inevitably, we will feel too tired if we worked online too long. You can see our DA0-002 exam materials have three version, including Pdf version, APP version and soft version, the Pdf version support printing. You can free download part of DA0-002 simulation test questions and answers of DA0-002 exam dumps and print it, using it when your eyes are tired. It is more convenient for you to look and read while protect our eye. If you print the DA0-002 exam materials

out, you are easy to carry it with you when you out, it is to say that will be a most right decision to choose the DA0-002, you will never regret it.

CompTIA Data+ Exam (2025) Sample Questions (Q62-Q67):

NEW QUESTION # 62

A data analyst has a dashboard that shows weekly data. For the past few weeks, the data has not updated. Which of the following is the best way to confirm that the data is current?

- A. Setting up a monitoring alert that checks on data freshness
- B. Working with a database administrator on query optimization
- C. Validating that the proper data sources are being used
- D. Removing all filters from the dashboard

Answer: A

NEW QUESTION # 63

A company's entire server environment is located at the company's headquarters. Which of the following describes this type of environment?

- A. Public
- B. On-premises
- C. Cloud
- D. Hybrid

Answer: B

Explanation:

This question pertains to the Data Concepts and Environments domain, focusing on types of server environments. The servers are located at the company's headquarters, indicating a specific deployment model.

* Cloud (Option A): Cloud environments are hosted off-site by third-party providers, not at headquarters.

* On-premises (Option B): On-premises environments are located at the company's physical location (e.g., headquarters), which matches the scenario.

* Public (Option C): Public environments are cloud-based and shared across multiple organizations, not located at headquarters.

* Hybrid (Option D): Hybrid environments combine on-premises and cloud, but the scenario specifies all servers are at headquarters.

The DA0-002 Data Concepts and Environments domain includes understanding "data environments," and on-premises describes a server environment located at the company's site.

NEW QUESTION # 64

A manager wants a report that contains the days off for each direct report. The manager needs this report to always be up-to-date with the latest data. Which of the following describes the refresh frequency that the manager is requesting?

- A. Ad hoc
- B. Snapshot
- C. Real-time
- D. Dynamic

Answer: C

Explanation:

This question pertains to the Visualization and Reporting domain, focusing on report refresh frequencies. The manager needs the report to always be up-to-date, implying continuous data updates.

* Real-time (Option A): Real-time refresh frequency ensures the report reflects the latest data as soon as it changes, which matches the requirement to "always be up-to-date."

* Ad hoc (Option B): Ad hoc reports are generated on-demand, not continuously updated.

* Snapshot (Option C): A snapshot captures data at a specific point in time, not suitable for always being up-to-date.

* Dynamic (Option D): Dynamic reports allow interactivity, but the term doesn't specifically imply real-time updates.

The DA0-002 Visualization and Reporting domain includes "the appropriate visualization in the form of a report" with delivery methods, and real-time refresh frequency ensures the report is always current.

NEW QUESTION # 65

A data analyst needs to join together a table data source and web API data source using Python. Which of the following is the best way to accomplish this task?

- A. Convert the data from the API and database to a TXT format and convert them to pandas DataFrames that are then merged together.
- B. Convert the data from the API and database to a string format and convert them to pandas DataFrames that are then merged together.
- C. Convert the data from the API and database to a JSON format and convert them to pandas DataFrames that are then merged together.
- D. Convert the data from the API and database to a varchar format and convert them to pandas DataFrames that are then merged together.

Answer: C

NEW QUESTION # 66

A data analyst is generating a custom report for a Chief Executive Officer's executive meeting. Later, the analyst learns that other custom reports will be required for future executive meetings. Which of the following delivery methods should the analyst use?

- A. Ad hoc
- B. Self-service
- C. Recurring
- D. Real-time

Answer: C

Explanation:

This question falls under the Visualization and Reporting domain of DA0-002, which involves selecting appropriate delivery methods for reports. The scenario describes a need for custom reports for future executive meetings, implying a scheduled, repeated delivery.

* Ad hoc (Option A): Ad hoc reports are generated on-demand for one-time use, not suitable for ongoing needs.

* Real-time (Option B): Real-time delivery provides live data updates, which isn't necessary for scheduled executive meetings.

* Recurring (Option C): Recurring delivery involves scheduling reports to be generated and delivered at regular intervals (e.g., weekly or monthly), which fits the need for future executive meetings.

* Self-service (Option D): Self-service allows users to generate reports themselves, but the scenario implies the analyst will create the reports.

The DA0-002 Visualization and Reporting domain includes understanding "the appropriate visualization in the form of a report" with delivery methods, and recurring delivery aligns with scheduled reporting needs.
