## Biology Exam Test Questions

### Introduction to Biology:

1. A scientific hypothesis must be proposed in a way that:  
(a) ensures that the experiment will be proven true (b) ensures that the experiment will work  
(c) enables the hypothesis to be proven or disproven (d) doesn't interfere with a previous hypothesis.
2. This part of the experiment serves as a basis of comparison. The one variable that is being tested has been left out. This is called the: (a) control (b) experimental (c) qualitative data  
(d) dependent variable.
3. A possible explanation for a set of observations is called a(n):  
(a) theory (b) hypothesis (c) variable (d) control (e) experiment.
4. The variable that is deliberately changed in an experiment is called the:  
(a) control (b) dependent variable (c) experimental group (d) independent variable.
5. When graphing the data obtained from an experiment, the dependent variable is always placed on which axis of the graph?  
(a) the x-axis (b) the y-axis (c) the z-axis (d) either axis is fine.
6. Data that is numerical and is obtained by counting or measuring is called:  
(a) qualitative (b) scientific (c) quantitative (d) variable.
7. This type of organism consists of a group of cells, but there is no specialized relationship between the cells.  
(a) unicellular (b) multicellular (c) colonial (d) specialized.
8. Prior to the 17<sup>th</sup> century, some scientists believed that life could arise from non-living objects. This was known as:  
(a) asexual reproduction (b) biogenesis (c) differentiation (d) spontaneous generation.
9. Which of the following scientists disproved spontaneous generation by boiling the broth in an open goose-neck flask? (a) Redi (b) Spallanzani (c) Needham (d) Pasteur (e) Calvin.
10. The disadvantage of cell specialization is that:  
(a) The cells have too many jobs to do and cannot do any of them very well.  
(b) The cells are not specialized and have no relationship to each other.  
(c) The cells are so highly specialized that if one group of cells fails to do its job, all other cells will perish.  
(d) It is too hard to maintain homeostasis if the cells are specialized.
11. The stable internal environment maintained by living things is called:  
(a) homeostasis (b) differentiation (c) adaptation (d) interdependence.

TestKingIT.com won a good reputation by these candidates that have passed WGU Introduction-to-Biology certification exam. TestKingIT gets approve from the people with its powerful exam dumps. As long as you choose our dumps as review tool before the exam, you will have a happy result in Introduction-to-Biology Exam, which is perfectly obvious. Now hurry to download free demo, you will believe your choice can't be wrong.

In order to meet the requirements of our customers, Our Introduction-to-Biology test questions carefully designed the automatic correcting system for customers. It is known to us that practicing the incorrect questions is very important for everyone, so our Introduction-to-Biology exam question provide the automatic correcting system to help customers understand and correct the errors. Our Introduction-to-Biology Guide Torrent will help you establish the error sets. We believe that it must be very useful for you to take your Introduction-to-Biology exam, and it is necessary for you to use our Introduction-to-Biology test questions.

## Introduction-to-Biology Exam Braindumps Materials are the Most Excellent Path for You to pass Introduction-to-Biology Exam - TestKingIT

We have three versions of our Introduction-to-Biology study materials, and they are PDF version, software version and online version. With the PDF version, you can print our materials onto paper and learn our Introduction-to-Biology study materials in a more handy way as you can take notes whenever you want to, and you can mark out whatever you need to review later. With the software version, you are allowed to install our Introduction-to-Biology study materials in all computers that operate in windows system. Besides, the software version can simulate the real test environment, which is favorable for people to better adapt to the

examination atmosphere. With the online version, you can study the Introduction-to-Biology Study Materials wherever you like, and you still have access to the materials even if there is no internet available on the premise that you have studied the Introduction-to-Biology study materials online once before.

## WGU Introduction to Biology (KBC1, C190) Exam Sample Questions (Q31-Q36):

### NEW QUESTION # 31

Which organisms are four-limbed, produce shelled eggs, and lack feathers?

- A. Crocodilians
- B. Rodents and rabbits
- C. Sharks and rays
- D. Amphibians

**Answer: A**

### NEW QUESTION # 32

Chocolate is produced when yeasts, bacteria, and molds break down sugars in cacao beans without oxygen, yielding alcohols/acids and a small amount of ATP. Which metabolic process is occurring?

- A. Aerobic respiration
- B. Fermentation
- C. Photosynthesis
- D. Cellular respiration

**Answer: B**

### NEW QUESTION # 33

Mangroves shelter many species. Pelicans and herons both feed on small invertebrates and fish. What type of interaction do pelicans and herons share?

- A. Herbivory
- B. Competition
- C. Predation
- D. Mutualism

**Answer: B**

### NEW QUESTION # 34

The Boreal forest includes trees (pine, spruce) and animals (lynx, elk) harvested for energy, food, or trade. Which activity would negatively impact biodiversity there?

- A. Increasing use of renewable (instead of nonrenewable) energy
- B. Decreasing logging throughout the Boreal forest
- C. Increasing human population
- D. Decreasing human population

**Answer: C**

### NEW QUESTION # 35

A cell is bounded by a cell wall and has an organelle that performs photosynthesis. Which type of eukaryotic cell and organelle are described?

- A. Animal; ribosome

- B. Animal; Golgi apparatus
- C. Both plant and animal; mitochondria
- **D. Plant; chloroplast**

**Answer: D**

## NEW QUESTION # 36

.....

Our WGU Introduction-to-Biology study guide in order to allow the user to form a complete system of knowledge structure, the qualification examination of test interpretation and supporting course practice organic reasonable arrangement together, the Introduction-to-Biology simulating materials let the user after learning the section, and each section between cohesion and is closely linked, for users who use the WGU Introduction to Biology (KBC1, C190) Exam Introduction-to-Biology training quiz to build a knowledge of logical framework to create a good condition.
