

# Examcollection HPE7-A06 Dumps & HPE7-A06 Sample Questions Answers

2025 Latest DumpsQuestion HPE7-A06 PDF Dumps and HPE7-A06 Exam Engine Free Share: [https://drive.google.com/open?id=1OA0gWfbwZ2xXCY6X\\_CYD4zgRE1s\\_nEuz](https://drive.google.com/open?id=1OA0gWfbwZ2xXCY6X_CYD4zgRE1s_nEuz)

The HP job market has become so competitive and challenging. To stay competitive in the market as an experienced IT professional you have to upgrade your skills and knowledge with the HPE Campus Access Switching Expert Written Exam (HPE7-A06) certification exam. With the HPE7-A06 exam dumps you can easily prove your skills and upgrade your knowledge. To do this you just need to enroll in the HPE Campus Access Switching Expert Written Exam (HPE7-A06) certification exam and put all your efforts to pass this challenging HP HPE7-A06 exam with good scores.

Our HPE7-A06 training materials are famous for high-quality, and we have a professional team to collect the first hand information for the exam. HPE7-A06 learning materials of us also have high accurate, since we have the professionals check the exam dumps at times. We are strict with the answers and quality, we can ensure you that the HPE7-A06 Learning Materials you get are the latest one we have. Moreover, we offer you free update for one year and the update version for the HPE7-A06 exam dumps will be sent to your email automatically.

**HPE7-A06 Sample Questions Answers | Valid HPE7-A06 Practice Questions**

Are you preparing for the HPE7-A06 exam certification recently? Do you want to get a high score in the HPE7-A06 actual test? DumpsQuestion HPE7-A06 practice test may be the right study material for you. When you choose HP HPE7-A06 pdf dumps, you can download it and install it on your phone or i-pad, thus you can make full use of your spare time, such as, take the subway or wait for the bus. Besides, if you are tired of the electronic screen, you can print the HPE7-A06 Pdf Dumps into papers, which is convenient to make notes.

## **HPE Campus Access Switching Expert Written Exam Sample Questions (Q123-Q128):**

### **NEW QUESTION # 123**

A pair of CX 8325 series switches is configured in a VSX cluster. Which function is executed on both VSX members during normal operation?

- A. routes PIM and PIM-DR
- B. replies to ARP requests with the cluster vMAC
- C. periodically sends gratuitous ARP and broadcast hello packets
- D. relays DHCP requests or servers DHCP offer

**Answer: A**

Explanation:

In an AOS-CX VSX cluster, both members act as independent routing and multicast-capable devices. Each VSX node maintains its own control plane, so both members can independently perform functions like routing, running PIM, and acting as PIM Designated Router (PIM-DR).

Other functions, such as ARP replies with the cluster vMAC or gratuitous ARPs, are handled by the active gateway only, not both switches.

### **NEW QUESTION # 124**

You are about to deploy a gateway that is on factory default. ZTP cannot be used for different reasons, but you are searching for valid alternatives. What are two valid alternatives for ZTP?

(Choose two.)

- A. Use OTP by connecting to console port, and use terminal software provisioning. "Static-Activate" should be used.
- B. Use OTP by connecting to port 0/0/0, and use a Web browser to complete provisioning.
- C. Use OTP by connecting to port 0/0/1 with a static IP, and use a Web browser to complete provisioning.
- D. Use OTP by connecting to port 0/0/1, and use a Web browser to complete provisioning.
- E. Use OTP by connecting to console port, and use terminal software to complete provisioning. "Full- Setup" should be used.

**Answer: B,E**

Explanation:

Correct - You can connect to port 0/0/0 with a web browser and complete provisioning using One-Touch Provisioning (OTP).

Correct - You can connect via the console port and use terminal software with the "full-setup" option to complete OTP provisioning.

### **NEW QUESTION # 125**

What is the best practice for using Dynamic Segmentation?

- A. Use LUR to assign roles to devices based on their location and DUR to assign roles to devices based on their user identity.
- B. Use a combination of role-based access and overlay technologies to create a layered security approach.
- C. Use UBT to create isolated networks for specific types of devices.
- D. Use Dynamic Segmentation only on devices that are connected to the network via Wi-Fi.

**Answer: B**

Explanation:

The question asks for the best practice for using Dynamic Segmentation.

\* Dynamic Segmentation Overview: It's an architecture that provides unified policy and segmentation for wired and wireless clients by combining role-based access control, traffic tunneling (like UBT), and overlay technologies (like VXLAN/GRE). Policies are

enforced centrally, typically at an Aruba Gateway.

\* Analysis of Options:

- \* A: UBT is a component, but Dynamic Segmentation encompasses more than just creating isolated networks with UBT.
- \* B: Correctly describes the core principle: using a combination of role-based access (for defining who gets what policy) and overlay technologies (for transporting traffic to the policy enforcement point and providing segmentation). This creates a layered security approach.
- \* C: Incorrect. A key benefit is unified policy across both wired and wireless access.
- \* D: LUR and DUR are role types, but how they are assigned isn't the fundamental description of Dynamic Segmentation itself.

\* Conclusion: Option B accurately captures the essence of Dynamic Segmentation as a best practice approach, integrating role-based policies with overlay networking for secure, unified access control.

References: Aruba Dynamic Segmentation Solution Guides, Whitepapers, and Configuration Examples. This relates to "Security" (10%), "Authentication/Authorization" (9%), and "Connectivity" (9%).

## NEW QUESTION # 126

Refer to the exhibit.

```
sw-agg1(config)# show vsx status
VSX Operational State
-----
ISL channel      : In-Sync
ISL mgmt channel : operational
Config Sync Status : sw_image_version_mismatch_error
NAE             : sw_image_version_mismatch_error
HTTPS Server    : sw_image_version_mismatch_error

Attribute       Local             Peer
-----
ISL link        lag256          lag256
ISL version     2                2
System MAC      02:00:00:00:00:B1 02:00:00:00:00:01
Platform         8325            8325
Software Version GL.10.09.0010 GL.10.11.1021
Device Role     primary          secondary
```

Based on the screenshot, what is required to bring the secondary switch MCLAO interfaces online?

- A. Use the same ServiceOS version as on the primary.
- B. Update the MAE agents on the secondary.
- C. Use the same CX OS version as on the primary.
- D. Use vsx-software-upgrade on the secondary.

### Answer: C

Explanation:

The exhibit shows the output of `show vsx status` on `sw-agg1`. Key information includes:

- \* Config Sync Status : `sw_image_version_mismatch_error`
- \* NAE : `sw_image_version_mismatch_error`
- \* HTTPS Server : `sw_image_version_mismatch_error`
- \* Primary Software Version: GL.10.09.0010
- \* Secondary Software Version: GL.10.11.1021

These errors clearly indicate that the primary and secondary VSX switches are running different AOS-CX software versions. For VSX to operate correctly, including configuration synchronization and enabling features like MC-LAG interfaces, both switches in the pair must run the exact same software version.

\* Analysis of Options:

- \* A: `vsx-software-upgrade` is used for upgrades but doesn't resolve the current mismatch requirement.
- \* B: NAE errors are a symptom of the underlying version mismatch.
- \* C: Using the same CX OS version on both primary and secondary switches is the fundamental requirement to clear the mismatch errors and achieve a stable VSX operational state.
- \* D: While ServiceOS is part of the system, the primary requirement and error message relate to the main AOS-CX software version.

References: AOS-CX VSX Guide (Chapter on VSX Requirements, Troubleshooting, Software Updates). This relates to "Network Resiliency and virtualization" (8%) and "Troubleshooting" (10%) objectives.

## NEW QUESTION # 127

Refer to the exhibit.

XYZ Company has deployed a multi-area OSPF AS where all the routers are operating an AOS- CX switches. Engineers want to join their proposed Area 3 to their existing backbone through ABR1 as per the exhibit.

Which script would help facilitate this solution?

ABR3(config)# router ospf 1

- A. ABR3(config-ospf 1)# area 3 virtual-link 10.255.0.1  
ABR1(config)# router ospf 1  
ABR1 (config-ospf-1)# area 1 virtual-link 10.255.0.3  
ABR3(config)# router ospf 1
- B. **ABR3(config-ospf-1)# area 1 virtual-link 10.255.0.1  
ABR1(config)# router ospf 1  
ABR1(config-ospf-1)# area 1 virtual-link 10.255.0.3  
ABR3(config)# router ospf 1**
- C. ABR3(config-ospf-1)# area 3 virtual-link 10.0.0.0/16 10.255.0.1  
ABR1(config)# router ospf 1  
ABR1(config-ospf-1)# area 1 virtual-link 10.1.128.0/17 10.255.0.3

**Answer: B**

Explanation:

An OSPF virtual link must be configured in the common transit area between the two ABRs - in this case, area 1 - pointing to the peer's router ID on each ABR (area 1 virtual-link 10.255.0.1 on ABR3 and area 1 virtual-link 10.255.0.3 on ABR1).

## NEW QUESTION # 128

.....

The client only needs 20-30 hours to learn our HPE7-A06 learning questions and then they can attend the test. Most people may devote their main energy and time to their jobs, learning or other important things and can't spare much time to prepare for the test. But if clients buy our HPE7-A06 Training Materials they can not only do their jobs or learning well but also pass the test smoothly and easily because they only need to spare little time to learn and prepare for the HPE7-A06 test.

**HPE7-A06 Sample Questions Answers:** <https://www.dumpsquestion.com/HPE7-A06-exam-dumps-collection.html>

HP Examcollection HPE7-A06 Dumps Good decision is of great significance if you want to pass the exam for the first time, HP Examcollection HPE7-A06 Dumps Or if you have other schedules about exam, we can change the materials for you for free, Yes, our demo questions are part of the complete HPE7-A06 exam material, you can free download to have a try, HP Examcollection HPE7-A06 Dumps What's more important, it is easy to carry and has less restriction.

The study material was patterned into easy to remember questions and answers, Examcollection HPE7-A06 Dumps Deliverables play an important role in the success of the project, helping you to communicate key concepts and the project's direction.

## Excellent Examcollection HPE7-A06 Dumps - Trustworthy & Valuable HPE7-A06 Materials Free Download for HP HPE7-A06 Exam

Good decision is of great significance if you want to pass HPE7-A06 the exam for the first time, Or if you have other schedules about exam, we can change the materials for you for free.

Yes, our demo questions are part of the complete HPE7-A06 exam material, you can free download to have a try, What's more important, it is easy to carry and has less restriction.

But the matter is that passing the HPE7-A06 dumps actual test is not a simple thing.
