質問 # 32

Which job template can you use for automated invoice settlement when you schedule supplier invoice jobs?

- A. Schedule Supplier Invoice Output
- B. Consignment and Pipeline Settlement
- **C. Evaluated Receipt Settlement**
- D. Automatic Delivery Cost Settlement

正解: C

解説:

When scheduling supplier invoice jobs for automated invoice settlement in SAP S/4HANA Cloud Public Edition, the Evaluated Receipt Settlement (ERS) job template is used. ERS automates the settlement process based on goods receipts and purchase orders, eliminating the need for manual invoice entry.

* Evaluated Receipt Settlement (Option B): ERS is a feature that automatically generates invoices based on the goods receipt and purchase order data. This ensures timely and accurate settlement of supplier invoices. The SAP Invoice Management Guide confirms that ERS is the appropriate job template for automated invoice settlement.

* A. Schedule Supplier Invoice Output: This job template is used for generating and sending supplier invoice outputs, not for automated settlement.

* C. Consignment and Pipeline Settlement: This template is used for settling consignment and pipeline stock, which involves different processes than standard supplier invoices.

* D. Automatic Delivery Cost Settlement: This template is used for settling delivery costs, not for supplier invoices.

* SAP Invoice Management Guide: Explains the functionality of Evaluated Receipt Settlement and its role in automating supplier invoice processing. <https://help.sap.com>

* SAP S/4HANA Cloud Accounts Payable Guide: Provides details on supplier invoice processing and automation options.
