

Dump CCDAK Check, Pdf CCDAK Torrent

BONUS!!! Download part of ActualTestsQuiz CCDAK dumps for free: https://drive.google.com/open?id=1uknVlp3bYhkIAdZ_I2G000A0OMp_V0Zy

The experts of our company are checking whether our CCDAK test quiz is updated or not every day. We can guarantee that our CCDAK exam torrent will keep pace with the digitized world by the updating system. We will try our best to help our customers get the latest information about study materials. If you are willing to buy our CCDAK Exam Torrent, there is no doubt that you can have the right to enjoy the updating system. Once our CCDAK exam dumps are updated, you will receive the newest information of our CCDAK test quiz in time. So quickly buy our CCDAK exam prep now!

Our company is open-handed to offer benefits at intervals, with CCDAK learning questions priced with reasonable prices. Almost all kinds of working staffs can afford our price, even the students. And we will give some discounts from time to time. Although our CCDAK practice materials are reasonably available, their value is in-estimate. We offer hearty help for your wish of certificate of the CCDAK exam.

Pdf CCDAK Torrent, Reliable CCDAK Test Labs

You can increase your competitive force in the job market if you have the certificate. CCDAK exam torrent of us will offer an opportunity like this. If you choose us, we will help you pass the exam just one time. CCDAK exam torrent of us is high quality and accuracy, and you can use them at ease. Besides, we offer you free demo to have a try before buying, and we have free update for 365 days after purchasing. The update version for CCDAK Exam Dumps will be sent to your email automatically.

Confluent Certified Developer for Apache Kafka Certification Examination Sample Questions (Q31-Q36):

NEW QUESTION # 31

What is returned by a `producer.send()` call in the Java API?

- A. `Future<RecordMetadata>` object
- B. A Boolean indicating if the call succeeded
- C. `Future<ProducerRecord>` object
- D. Unit

Answer: A

Explanation:

See <https://kafka.apache.org/21/javadoc/org/apache/kafka/clients/producer/KafkaProducer.html>

NEW QUESTION # 32

A topic receives all the orders for the products that are available on a commerce site. Two applications want to process all the messages independently - order fulfilment and monitoring. The topic has 4 partitions, how would you organise the consumers for optimal performance and resource usage?

- A. Create 8 consumers in the same group with 4 consumers for each application
- **B. Create two consumer groups for two applications with 4 consumers in each**
- C. Create four consumers in the same group, one for each partition - two for fulfilment and two for monitoring
- D. Create two consumers groups for two applications with 8 consumers in each

Answer: B

Explanation:

two partitions groups - one for each application so that all messages are delivered to both the application. 4 consumers in each as there are 4 partitions of the topic, and you cannot have more consumers per groups than the number of partitions (otherwise they will be inactive and wasting resources)

NEW QUESTION # 33

(You are implementing a Kafka Streams application to process financial transactions.

Each transaction must be processed exactly once to ensure accuracy.

The application reads from an input topic, performs computations, and writes results to an output topic.

During testing, you notice duplicate entries in the output topic, which violates the exactly-once processing requirement.

You need to ensure exactly-once semantics (EOS) for this Kafka Streams application.

Which step should you take?)

- A. Set `enable.idempotence=true` in the internal producer configuration of the Kafka Streams application.
- **B. Set `processing.guarantee=exactly_once_v2` in the Kafka Streams configuration.**
- C. Set `enable.exactly_once=true` in the Kafka Streams configuration.
- D. Enable compaction on the output topic to handle duplicates.

Answer: B

Explanation:

According to the official Apache Kafka documentation for Kafka Streams, exactly-once semantics (EOS) are controlled using the `processing.guarantee` configuration. To ensure that each input record is processed once and only once, and that the results are written atomically to the output topic, Kafka Streams provides built-in EOS support.

The correct and recommended configuration is `processing.guarantee=exactly_once_v2`, which is the default EOS implementation starting from Kafka 3.0. This mode uses Kafka's transactional APIs to atomically commit consumer offsets and produce output records within a single transaction. As documented, this prevents duplicates even in the presence of failures, retries, or application restarts.

Option A is incorrect because log compaction does not guarantee exactly-once processing; it only retains the latest record per key.

Option B is insufficient because `enable.idempotence` alone does not handle consumer offset commits or state store consistency in Kafka Streams. Option C is invalid because no such configuration exists in Kafka Streams.

Therefore, setting `processing.guarantee=exactly_once_v2` is the only fully correct and officially supported solution for achieving EOS in Kafka Streams applications.

NEW QUESTION # 34

A Zookeeper ensemble contains 5 servers. What is the maximum number of servers that can go missing and the ensemble still run?

- A. 0
- B. 1
- **C. 2**
- D. 3

Answer: C

Explanation:

majority consists of 3 zk nodes for 5 nodes zk cluster, so 2 can fail

NEW QUESTION # 35

If I want to send binary data through the REST proxy to topic "test_binary", it needs to be base64 encoded. A consumer connecting directly into the Kafka topic

- A. avro data
- B. "test_binary" will receive
- C. binary data
- D. json data
- E. base64 encoded data, it will need to decode it

Answer: C

Explanation:

On the producer side, after receiving base64 data, the REST Proxy will convert it into bytes and then send that bytes payload to Kafka. Therefore consumers reading directly from Kafka will receive binary data.

NEW QUESTION # 36

.....

Our CCDAK study dumps are suitable for you whichever level you are in right now. Whether you are in entry-level position or experienced exam candidates who have tried the exam before, this is the perfect chance to give a shot. High quality and high accuracy CCDAK real materials like ours can give you confidence and reliable backup to get the certificate smoothly because our experts have extracted the most frequent-tested points for your reference, because they are proficient in this exam who are dedicated in this area over ten years. If you make up your mind of our CCDAK Exam Questions after browsing the free demos, we will staunchly support your review and give you a comfortable and efficient purchase experience this time.
