P.S. Free & New 300-540 dumps are available on Google Drive shared by PDFVCE: [https://drive.google.com/open?id=1q8tdnzms2gByfXsmn-FMqvoZISE\\_9fh](https://drive.google.com/open?id=1q8tdnzms2gByfXsmn-FMqvoZISE_9fh)

We provide a guarantee on all of our 300-540 test products, and you will be able to get your money back if we fail to deliver the results as advertised. We provide 100% money back guarantee for all of us 300-540 test questions products, and we are always available to provide you top notch support and new 300-540 Questions. If you are facing issues in downloading the 300-540 study guides, then all you have to do is to contact our support professional, and they will be able to help you out with 300-540 answers.

We can make sure that if you purchase our 300-540 exam questions, you will have the right to enjoy our perfect after sale service and the high quality products. So do not hesitate and buy our 300-540 study guide, we believe you will find surprise from our exam products. And not only you can enjoy the service before you pay for our 300-540 learning guide, you can also have the right to have free updates for one year after your purchase.

## 300-540 Reliable Test Sample | 300-540 Practice Mock

Cisco 300-540 certification exam is a very difficult test. Even if the exam is very hard, many people still choose to sign up for the exam. As to the cause, 300-540 exam is a very important test. For IT staff, not having got the certificate has a bad effect on their job. Cisco 300-540 certificate will bring you many good helps and also help you get promoted. In a word, this is a test that will bring great influence on your career. Such important exam, you also want to attend the exam.

### Cisco 300-540 Exam Syllabus Topics:

Topic	Details

Topic 1	<ul style="list-style-type: none"> <li>Virtualized Architecture: This section of the exam measures the skills of Cloud Network Engineers and covers the foundational concepts of virtualized infrastructures used in modern service provider and cloud environments. Candidates are expected to understand constraints in IaaS designs, determine appropriate cloud service models, and demonstrate awareness of container orchestration compared to traditional virtual machines. The exam also evaluates the ability to implement key virtualization functions such as NFV, VNF, NSO, and virtualized Cisco platforms. Learners must be able to deploy NFV with automation tools, manage VNF onboarding, work with NSO-driven orchestration, and use protocols like NETCONF, RESTCONF, REST APIs, and gNMI within automated cloud ecosystems. A general understanding of supporting platforms such as OpenStack also forms part of the required knowledge in this domain.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>Security: This section of the exam measures the skills of Network Security Engineers and covers the implementation of infrastructure-level protection in cloud and NFVI ecosystems. It includes topics such as ACLs, uRPF, RTBH, router hardening, BGP flowspec, TACACS, and MACSEC. Candidates should understand DoS mitigation methods and apply security practices within NFVI, focusing on API protection, securing the control and management plane, and segmentation strategies in service provider cloud environments. The domain also evaluates basic knowledge of TLS, mTLS, and general cloud security solutions related to DNS protection, zero-day defenses, and malware detection.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>High Availability: This section of the exam measures the skills of Cloud Infrastructure Architects and covers the design and implementation of redundancy and resiliency mechanisms in virtualized network functions and distributed cloud platforms. It includes data plane redundancy for VNFs, high availability within a single VIM control plane, and resilient compute, vNIC, and top-of-rack switching. The exam requires an understanding of multi-homing, EVLAG configurations, virtual private cloud deployment, and ECMP strategies for NFVI integrations with physical routing protocols such as BGP, OSPF, and IS-IS. Candidates must also recommend suitable high-availability models involving DNS, routing, and load balancing.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>Cloud Interconnect: This section of the exam measures the skills of Service Provider Network Engineers and covers how large networks interconnect with cloud platforms and carrier-neutral facilities. Candidates are expected to understand various connectivity options to cloud providers, customer sites, and other neutral facilities, as well as evaluate WAN connectivity models such as direct connect, MPLS or segment routing, and IPsec VPN links. The domain also includes the ability to troubleshoot advanced data center interconnect solutions, including EVPN VXLAN, EVPN over SR</li> <li>MPLS, ACI-based connectivity, and pseudowire architectures supporting cloud-to-cloud and cloud-to-edge communication.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>Service Assurance and Optimization: This section of the exam measures the skills of Cloud Operations Engineers and covers assurance mechanisms used to maintain performance, stability, and visibility across NFVI environments. It includes network assurance concepts such as MANO frameworks, VNF workload monitoring, VIM control plane KPIs, and streaming telemetry with gRPC and gNMI. Candidates must understand cloud infrastructure performance monitoring tools, including SR-PM, NetFlow, IPFIX, syslog, SNMP traps, RMON, cloud agents, and automated fault management systems. The domain also touches on diagnosing NFVI-related errors and optimizing VNFs using techniques such as SR-IOV and software-accelerated virtual switching technologies like DPDK and VPP.</li> </ul>

## Cisco Designing and Implementing Cisco Service Provider Cloud Network Infrastructure Sample Questions (Q21-Q26):

### NEW QUESTION # 21

The primary use of SR-PM in cloud infrastructure is for:

- A. Segment routing path monitoring
- B. Performance management in software development
- C. Reducing security protocols
- D. Managing storage replication

**Answer: A**

### NEW QUESTION # 22

To ensure control plane high availability, deploying \_\_\_\_\_ instances across different physical servers is recommended.

- A. duplicated
- B. isolated
- C. single
- D. multiple

Answer: D

### NEW QUESTION # 23

ACI's approach to data center management is unique because it:

- A. Requires manual configuration for all network devices
- B. Is application-centric, not just network-centric
- C. Ignores the need for automation
- D. Focuses on physical infrastructure over software

Answer: B

### NEW QUESTION # 24

Refer to the exhibit. An engineer is troubleshooting a physical configuration issue in Cisco NFVI. Which two observations should be made? (Choose two.)

- A. One RAID 1 disk failed.
- B. The node is no longer functional.
- C. Two RAID 1 disks failed.
- D. The node allows two disks to fail.
- E. The node is still functional.

Answer: A,E

Explanation:

From the RAID controller output:

\* The RAID1 virtual drive is shown as "Dgrd" (degraded) with a note: "RAID 1 in degraded state."

\* In the PD LIST, one disk (slot 2) is marked "UGood - active disk in slot 2 disconnected from drive group 0", while the other (slot 3) is "Onln 0" (online and part of drive group 0).

This means:

\* In a RAID 1 mirror, only one disk may fail while the array remains available.

\* Here, one disk has failed/disconnected, the other is still online # the array is degraded but operational.

Therefore:

\* B. One RAID 1 disk failed- correct.

\* C. The node is still functional- correct; RAID1 can tolerate a single disk failure.

The other options are incorrect:

\* A and E suggest two disk failures, which is not indicated.

\* D would be true only if both disks failed; with one disk still online, the node continues to function, though in a degraded state.

### NEW QUESTION # 25

Which protocol is used for device authentication, authorization, and accounting?

- A. uRPF
- **B. TACACS**
- C. ACL
- D. MACSEC

**Answer: B**

### NEW QUESTION # 26

.....

Free demos of PDFVCE 300-540 exam questions are available which you can download easily.
