VCE CMMC-CCP Dumps - CMMC-CCP Visual Cert Test

Nowadays, a certificate is not only an affirmation of your ablity but also help you enter a better company. CMMC-CCP learning materials will offer you an opportunity to get the certificate successfully. We have a professional team to search for the information about the exam, therefore CMMC-CCP Exam Dumps of us are high-quality. We also pass guarantee and money back guarantee. Just think that, you just need to spend some money, and you can get a certificate, therefore you can have more competitive force in the job market as well as improve your salary.

Cyber AB CMMC-CCP Exam Syllabus Topics:

Topic	Details
Topic 1	• CMMC Assessment Process (CAP): This section of the exam measures the planning and execution skills of audit and assessment professionals, covering the end-to-end CMMC Assessment Process. This includes planning, executing, documenting, reporting assessments, and managing Plans of Action and Milestones (POA&M) in alignment with DoD and CMMC-AB methodology.
Topic 2	• CMMC-AB Code of Professional Conduct (Ethics): This section of the exam measures the integrity of cybersecurity professionals by evaluating their understanding of the CMMC-AB Code of Professional Conduct. It emphasizes ethical responsibilities, including confidentiality, objectivity, professionalism, conflict-of-interest avoidance, and respect for intellectual property, ensuring candidates can uphold ethical standards throughout their CMMC-related duties.
Topic 3	• CMMC Governance and Source Documents: This section of the exam measures the capabilities of legal or compliance advisors, covering key regulatory frameworks that govern cybersecurity compliance. Topics include Federal Contract Information, Controlled Unclassified Information, the role of NIST SP 800-171, DFARS, FAR, and the structure and requirements of CMMC v2.0, including self-assessments and certification levels.
Topic 4	• Scoping: This section of the exam measures the analytical skills of cybersecurity practitioners, highlighting their ability to properly define assessment scope. Candidates must demonstrate knowledge of identifying and classifying Controlled Unclassified Information (CUI) assets, recognizing the difference between in-scope, out-of-scope, and specialized assets, and applying logical and physical separation techniques to determine accurate scoping for assessments

Cyber AB Certified CMMC Professional (CCP) Exam Sample Questions (Q192-Q197):

NEW QUESTION # 192
What are CUI protection responsibilities?

- A. Safeguarding
- B. Governing
- C. Shielding
- D. Correcting

Answer: A

NEW QUESTION # 193
For CMMC Assessments, during Phase 1 of the CMMC Assessment Process, which are responsible for identifying potential conflicts of information?

- A. CMMC-AB and C3PAO
- B. OSC and CMMC-AB
- C. Lead Assessor and Assessment Team Members
- D. C3PAO and OSC

Answer: C

Explanation:

In Phase 1 (Planning) of the CMMC Assessment Process, the Lead Assessor is responsible for managing the team and identifying conflicts of interest. Assessment team members must also disclose potential conflicts.

Supporting Extracts from Official Content:

CAP v2.0, Planning (§2.5-2.8): "The Lead Assessor and Assessment Team Members must identify and disclose any conflicts of interest prior to conducting the assessment." Why Option D is Correct:

Only the Lead Assessor and assessment team are responsible for identifying conflicts of interest during Phase 1.

Options A, B, and C incorrectly assign this role to organizations that do not hold the responsibility.

References (Official CMMC v2.0 Content):

CMMC Assessment Process (CAP) v2.0, Phase 1 Planning responsibilities.

NEW QUESTION # 194

A server is used to store FCI with a cloud provider long-term. What is the server considered?

- A. Out of scope, because the cloud provider stores the FCI data long-term
- B. Out of scope, because encryption is always used when the cloud provider stores the FCI data
- C. In scope, because the cloud provider will be storing the FCI data
- D. In scope, because the cloud provider is required to be CMMC Level 2 certified

Answer: C

Explanation:

Assets that store, process, or transmit FCI or CUI are always in scope for CMMC. If a server with a cloud provider is used for long-term storage of FCI, that server is considered in scope because it directly holds covered data.

Supporting Extracts from Official Content:

CMMC Scoping Guide for Level 1: "Assets that store, process, or transmit FCI are in scope." CMMC Scoping Guide for Level 2: confirms the same rule applies for CUI.

Why Option A is Correct:

The server stores FCI, making it automatically in scope.

Option B is incorrect because long-term storage does not make an asset out of scope.

Option C is incorrect - Level 1 (FCI) does not require a Level 2 certified provider.

Option D is incorrect because encryption does not remove scope requirements.

References (Official CMMC v2.0 Content):

CMMC Scoping Guide, Level 1.

CMMC Model v2.0, Scoping and Implementation guidance.

NEW QUESTION # 195

Which principles are included in defining the CMMC-AB Code of Professional Conduct?

- A. Responsibility, classification, and information accuracy
- B. Responsibility, confidentiality, and information integrity
- C. Objectivity, confidentiality, and information integrity
- D. Objectivity, classification, and information accuracy

Answer: B

Explanation:

Understanding the CMMC-AB Code of Professional ConductTheCybersecurity Maturity Model Certification Accreditation Body (CMMC-AB), now referred to asThe Cyber AB, establishes aCode of Professional Conduct (CoPC)for all individuals involved in CMMC assessments, includingCertified Assessors (CAs), Certified Professionals (CPs), and C3PAOs (Certified Third-Party Assessment Organizations).

Thecore principlesoutlined in theCMMC-AB Code of Professional Conductinclude:

* Responsibility
* CMMC professionals must takefull accountabilityfor their actions, ensuring that assessments are conducted withintegrity and professionalism.
* They mustadhere to all ethical and regulatory requirementsestablished by The Cyber AB and the DoD.
* Confidentiality
* CMMC professionals mustprotect sensitive information, includingControlled Unclassified Information (CUI)andFederal Contract Information (FCI).

* They are required toadhere to non-disclosure agreements (NDAs)and avoid improper information sharing.
* Information Integrity
* All reports, findings, and recommendations in CMMC assessments must beaccurate, unbiased, and truthful.
* Assessors mustavoid conflicts of interestand ensure that all data provided in an assessment isverifiable and free from misrepresentation.
* Answer A (Incorrect): "Classification" is not a primary principle of the CMMC-AB CoPC. The focus is on protectingCUI and FCI, not on classification procedures.
* Answer B (Incorrect): "Objectivity" is important, but it is not explicitly listed as one of the three core principles in theCMMC-AB Code of Professional Conduct.
* Answer C (Incorrect): "Classification" is not a guiding principle in the CoPC.
* Answer D (Correct):The Code of Professional Conduct explicitly emphasizes responsibility, confidentiality, and information integrity.
* The correct answer isD. Responsibility, Confidentiality, and Information Integrity.
* These principlesensure that all CMMC professionals maintain ethical standards and uphold the integrity of the certification process.

NEW QUESTION # 196

In the CMMC Model, how many practices are included in Level 1?

- A. 110 practices
- B. 72 practices
- C. 17 practices
- D. 15 practices

Answer: C

NEW QUESTION # 197

......

Although it is difficult for you to prepare for CMMC-CCP exam, once you obtain the targeted exam certification, you will have a vast development prospects in IT industry. So what we can do is to help you not waste your efforts on the exam preparation. The Reliability and authority of CMMC-CCP Exam software on our BraindumpsVCE has been recognized by majority of our customers, which will be found when you download our free demo. We will try our best to help you pass CMMC-CCP exam successfully.
