NCLEX-RN V12.35 NATIONAL COUNCIL LICENSURE  
EXAMINATION 2022/2023/2024

**Exam** : NCLEX-RN

**Title** : National Council Licensure  
Examination(NCLEX-RN)

**Vendor** : NCLEX

**Version** : V12.35

NO.1 A depressed client is seen at the mental health center for follow-up after an attempted suicide 1 week ago. She has taken phenelzine sulfate (Nardil), a monoamine oxidase (MAO) inhibitor, for 7 straight days. She states that she is not feeling any better. The nurse explains that the drug must accumulate to an effective level before symptoms are totally relieved. Symptom relief is expected to occur within:

- A. 10 days
- B. 2-4 weeks
- C. 2 months
- D. 3 months

**Answer:** B

**Explanation:**

- (A) This answer is incorrect. It can take up to 1 month for therapeutic effect of the medication.
- (B) This answer is correct. Because MAO inhibitors are slow to act, it takes 2-4 weeks before improvement of symptoms is noted.
- (C) This answer is incorrect. It can take up to 1 month for therapeutic effect of the medication.
- (D) This answer is incorrect. Therapeutic effects of the medication are noted within 1 month of drug therapy.

NO.2 Cystic fibrosis is transmitted as an autosomal recessive trait. This means that:

For example, the software version can simulate the real exam environment. If you buy our NCLEX-RN study questions, you can enjoy the similar real exam environment. So do not hesitate and buy our NCLEX-RN preparation exam, you will benefit a lot from our products.

## NCLEX National Council Licensure Examination(NCLEX-RN) Sample Questions (Q363-Q368):

### NEW QUESTION # 363

Often children are monitored with pulse oximeter. The pulse oximeter measures the:

- A. O<sub>2</sub> content of the blood
- B. PO<sub>2</sub>
- C. Affinity of hemoglobin for O<sub>2</sub>
- D. Oxygen saturation of arterial blood

**Answer: D**

Explanation:

Explanation/Reference:

Explanation:

(A) The O<sub>2</sub> content of whole blood is determined by the partial pressure of oxygen (PO<sub>2</sub>) and the oxygen saturation. The pulse oximeter does not measure the PO<sub>2</sub>. (B) The pulse oximeter is a noninvasive method of measuring the arterial oxygen saturation. (C) The PO<sub>2</sub> is the amount of O<sub>2</sub> dissolved in plasma, which the pulse oximeter does not measure. (D) The affinity of hemoglobin for O<sub>2</sub> is the relationship between oxygen saturation and PO<sub>2</sub> and is not measured by the pulse oximeter.

### NEW QUESTION # 364

A client with bipolar disorder taking lithium tells the nurse that he has ringing in his ears, blurred vision, and diarrhea. The nurse notices a slight tremor in his left hand and a slurring pattern to his speech. Which of the following actions by the nurse is appropriate?

- A. Recognize this as an expected response to lithium.
- B. Request an order for a stat blood lithium level.
- C. Administer a stat dose of lithium as necessary.
- D. Give an oral dose of lithium antidote.

**Answer: B**

Explanation:

Explanation/Reference:

Explanation:

(A) These symptoms are indicative of lithium toxicity. A stat dose of lithium could be fatal. (B) These are toxic effects of lithium therapy. (C) The client is exhibiting symptoms of lithium toxicity, which may be validated by lab studies. (D) There is no known lithium antidote.

### NEW QUESTION # 365

A hyperactive client is experiencing flight of ideas. The most therapeutic activity for him would be:

- A. Doing crafts in occupational therapy
- B. Playing bridge with three other clients
- C. Working a 1000-piece puzzle
- D. Playing basketball in the gym

**Answer: D**

Explanation:

Explanation/Reference:

Explanation:

(A) This activity requires motor skills and therefore would be difficult for a hyperactive client. (B) This activity would take too long and the client would have difficulty concentrating owing to a limited attention span. (C) This client would not be able to concentrate

enough to play card games. He would respond to all the stimuli in the area, become distracted, and leave the table. (D) This activity would allow the client to channel his energy in a positive way.

#### NEW QUESTION # 366

The most important reason to closely assess circumferential burns at least every hour is that they may result in:

- A. Ventricular arrhythmias
- B. Hypovolemia
- C. Renal damage
- D. Loss of peripheral pulses

**Answer: D**

Explanation:

Explanation/Reference:

Explanation:

(A) Hypovolemia could be a result of fluid loss from thermal injury, but not as a result of the circumferential injury. (B) Renal damage is typically seen because of prolonged hypovolemia or myoglobinuria. (C) Electrical injuries and electrolyte changes typically cause arrhythmias in the burn client. (D) Full-thickness circumferential burns are nonelastic and result in an internal tourniquet effect that compromises distal blood flow when the area involved is an extremity. Circumferential full-thickness torso burns compromise respiratory motion and, when extreme, cardiac return.

#### NEW QUESTION # 367

In acute episodes of mania, lithium is effective in 1-2 weeks, but it may take up to 4 weeks, or even a few months, to treat symptoms fully. Sometimes an antipsychotic agent is prescribed during the first few days or weeks of an acute episode to manage severe behavioral excitement and acute psychotic symptoms. In addition to the lithium, which one of the following medications might the physician prescribe?

- A. Sertraline (Zoloft)
- B. Haloperidol (Haldol)
- C. Alprazolam (Xanax)
- D. Diazepam (Valium)

**Answer: B**

Explanation:

Explanation/Reference:

Explanation:

(A) Diazepam is an antianxiety medication and is not designed to reduce psychotic symptoms. (B) Haloperidol is an antipsychotic medication and may be used until the lithium takes effect. (C) Sertraline is an antidepressant and is used primarily to reduce symptoms of depression. (D) Alprazolam is an antianxiety medication and is not designed to reduce psychotic symptoms.

#### NEW QUESTION # 368

.....

We are engaging in this line to provide efficient reliable NCLEX-RN practice materials which is to help you candidates who are headache for their NCLEX-RN exams. They spend a lot of time and spirits on this exam but waste too much exam cost. Our NCLEX-RN quiz question torrent can help you half work with double results. Sometimes choice is more important than choice. After purchasing our exam NCLEX-RN Training Materials, you will have right ways to master the key knowledge soon and prepare for NCLEX-RN exam easily, you will find clearing NCLEX-RN exam seems a really easily thing.
