Microsoft Endpoint Administrator Sample Questions (Q134-Q139):

NEW QUESTION # 134

Your network contains an Active Directory domain named adatum.com, a workgroup, and computers that run Windows 10. The computers are configured as shown in the following table.

- The local Administrator accounts on Computed, Computed, and Computed have the same user name and password. On Computed. Windows Defender Firewall is configured as shown in the following exhibit.

Answer:

Explanation:

Explanation:

NEW QUESTION # 135

Your network contains an on-premises Active Directory Domain Services (AD DS) domain that syncs with an Azure AD tenant by using Azure AD Connect.

You use Microsoft Intune and Configuration Manager to manage devices.

You need to recommend a deployment plan for new Windows 11 devices. The solution must meet the following requirements:

- * Devices for the marketing department must be joined to the AD DS domain only. The IT department will install complex applications on the devices at build time, before giving the devices to the marketing department users.
- * Devices for The sales department must be Azure AD joined. The devices will be shipped directly from the manufacturer to The homes of the sales department users.
- * Administrative effort must be minimized.

Which deployment method should you recommend for each department? To answer, select the appropriate options in the answer are a. NOTE: Each correct selection is worth one point.

Answer:

Explanation:

NEW QUESTION # 136

You have 100 devices that run Windows 10 and are joined to Microsoft Azure Active Directory (Azure AD).

You need to prevent users from joining their home computer to Azure AD.

What should you do?

- A. From the Device enrollment blade in the Intune admin center, modify the Device enrollment manages settings.
- **B. From the Device enrollment blade in the Intune admin center, modify the Enrollment restriction settings.**
- C. From the Devices blade in the Azure Active Directory admin center, modify the Device settings.
- D. From the Mobility (MDM and MAM) blade in the Azure Active Directory admin center, modify the Microsoft Intune enrollment settings.

Answer: B

Explanation:

As an Intune administrator, you can create and manage enrollment restrictions that define what devices can enroll into management with Intune, including the:

Number of devices.

Operating systems and versions.

You can create multiple restrictions and apply them to different user groups. You can set the priority order for your different restrictions.

Create a device type restriction

1. Sign in to the Microsoft Endpoint Manager admin center > Devices > Enroll Devices > Enrollment restrictions > Create restriction > Device type restriction.

2. Etc.

<https://docs.microsoft.com/en-us/intune/enrollment-restrictions-set>

NEW QUESTION # 137

In Microsoft Intune, you have the device compliance policies shown in the following table.

The Intune compliance policy settings are configured as shown in the following exhibit.

On June 1, you enroll Windows 10 devices in Intune as shown in the following table.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Device 1 is Windows 10 - and policy 1 is for Windows 8. Default compliance for devices without a policy is not compliant so first 2 questions are NO.

Then the third device has 2 policies, the first one is compliant and the second policy is not compliant but the device is not marked as non-compliant due to the fact that mark device as non-compliant is set to 10 days. This means that the machine will be compliant until June 10th.

Source:

Mark device non-compliant: By default, this action is set for each compliance policy and has a schedule of zero (0) days, marking devices as noncompliant immediately.

When you change the default schedule, you provide a grace period in which a user can remediate issues or become compliant without being marked as non-compliant.

This action is supported on all platforms supported by Intune.

NEW QUESTION # 138

You have a Microsoft 365 subscription.

You plan to use Windows Autopilot to provision 25 Windows 11 devices.

You need to configure the Out-of-box experience (OOBE) settings.

What should you create in the Microsoft Intune admin center?

- A. an enrollment status page (ESP)
- B. a configuration profile
- C. a PowerShell script
- D. a compliance policy
- E. a deployment profile

Answer: E

Explanation:
