Google Cloud Certified - Professional Google Workspace Administrator Sample Questions (Q37-Q42):

NEW QUESTION # 37

Your-company.com recently started using Google Workspace. The CIO is happy with the deployment, but received notifications that some employees have issues with consumer Google accounts (conflict accounts). You want to put a plan in place to address this concern.

What should you do?

- A. Use the conflict account remove tool to remove the accounts from Google Workspace.
- B. Rename the accounts to temp@your-company.com, and recreate the accounts.
- **C. Use the Transfer tool for unmanaged users to find the conflict accounts.**
- D. Ask users to request a new Google Workspace account from your local admin.

Answer: C

NEW QUESTION # 38

Your company has sales offices in Madrid, Tokyo, London, and New York. The outbound email for those offices needs to include the sales person's signature and a compliance footer. The compliance footer needs to say "Should you no longer wish to receive emails about this offer, please reply with UNSUBSCRIBE." You are responsible for making sure that users cannot remove the footer.

What should you do?

- **A. Ensure that each sales team is in their own OU, and configure the Append Footer with footer content.**
- B. Ensure that each sales team is in their own OU, and configure the Append Footer with the signature and footer content translated for each locale.
- C. Ensure that each sales team is in their own OU, and configure the Append Footer with the footer content translated for each locale.
- D. Send an email to each sales person with the instructions on how to add the footer to their Signature.

Answer: A

Explanation:

Google Workspace has no way to translate for each region for the footer. <https://support.google.com/a/answer/2364576?hl=en>

NEW QUESTION # 39

Your corporate LDAP contains the email addresses of several hundred non-employee business partners. You want to sync these contacts to Google Workspace so they appear in Gmail's address autocomplete for all users in the domain.

What are two options to meet this requirement? (Choose two.)

- A. Use the People API to upload a .csv file containing the contacts.
- **B. Develop a custom application to call the Domain Shared Contacts API.**
- C. Use the Directory API to upload a .csv file containing the contacts.
- D. Configure GCDS to populate a Group with external members.
- **E. Configure GCDS to synchronize shared contacts.**

Answer: B,E

Explanation:

* Develop Custom Application:

* Use the Domain Shared Contacts API to create a custom application.

* The application should read the contacts from your corporate LDAP and upload them to Google Workspace.

* This will ensure that these contacts appear in the address autocomplete for all users.

* Configure Google Cloud Directory Sync (GCDS):

* Install and configure GCDS on a supported server.

* Set up synchronization to include shared contacts from your LDAP directory.

* This will automatically keep the contacts updated and available in Gmail's address autocomplete.

NEW QUESTION # 40

A subset of users from the finance and human resources (HR) teams need to share documents with an external vendor. However, external content sharing is prohibited for the entire finance team. What would be the most secure method to enable external sharing for this set of users?

- A. Create a group with the finance and HR users who need to share externally.
- B. Download and attach the documents to a Gmail message, and send them to the external vendor.
- C. Enable 'Visitor Sharing' for the entire finance org unit.
- D. Move all users from the finance org unit to the HR org unit.

Answer: A

Explanation:

Create a Group: In the Google Admin console, navigate to Groups and create a new group for the specific users who need to share documents externally.

Add Members: Add the necessary users from the finance and HR teams to this group.

Set Group Sharing Settings: Configure the group's sharing settings to allow external sharing while keeping the broader organizational settings intact.

Educate Users: Inform the group members about the new sharing permissions and how to securely share documents with the external vendor.

Monitor Sharing Activity: Regularly monitor the group's sharing activity to ensure compliance with organizational policies.
