Quiz 2026 ServiceNow CIS-HAM: The Best Practice Certified Implementation Specialist - Hardware Asset Management Exam Fee

Different from the common question bank on the market, CIS-HAM exam guide is a scientific and efficient learning system that is recognized by many industry experts. In normal times, you may take months or even a year to review a professional exam, but with

CIS-HAM exam guide you only need to spend 20-30 hours to review before the exam. And with CIS-HAM learning question, you will no longer need any other review materials, because our study materials already contain all the important test sites. At the same time, CIS-HAM Test Prep helps you to master the knowledge in the course of the practice. And at the same time, there are many incomprehensible knowledge points and boring descriptions in the book, so that many people feel a headache and sleepy when reading books. But with CIS-HAM learning question, you will no longer have these troubles.

ServiceNow Certified Implementation Specialist - Hardware Asset Management Sample Questions (Q51-Q56):

NEW QUESTION # 51

Baseline ITSM Asset Management provides which features? (Choose three.)

- A. Mobile My Assets
- B. Hardware Manufacturer Lifecycle Dates
- C. Hardware Model Normalization
- D. Hardware Asset Dashboard
- E. Stockrooms
- F. Mobile Asset Receiving
- G. Asset Inventory Audit

Answer: A,E,F

NEW QUESTION # 52

By default, what Quick links are available on the Hardware asset overview view? (Choose three.)

- A. Asset count by model category
- B. Model normalization
- C. Transfer orders
- D. Asset count by lifecycle state
- E. Assets eligible for refresh by model category
- F. Asset requests

Answer: A,D,E

Explanation:

Explanation

According to the ServiceNow Hardware Asset Management overview document¹, the Hardware asset overview view is a dashboard that provides a summary of the hardware assets in your organization, such as asset count, asset value, asset age, and asset refresh¹.

The Hardware asset overview view has several Quick links that allow you to access different reports and modules related to hardware asset management¹.

By default, the Quick links that are available on the Hardware asset overview view are¹:

Assets eligible for refresh by model category: This report shows the number of assets that are eligible for refresh based on their model category and age. You can use this report to plan and budget for asset replacement or upgrade.

Asset count by model category: This report shows the number of assets grouped by their model category, such as computer, network, or printer. You can use this report to view the distribution and composition of your asset portfolio.

Asset count by lifecycle state: This report shows the number of assets grouped by their lifecycle state, such as in use, in stock, or retired. You can use this report to view the status and utilization of your assets.

The other options are not Quick links that are available on the Hardware asset overview view by default. Transfer orders, asset requests, and model normalization are modules that you can access from the Hardware Asset Management application menu, but they are not Quick links on the dashboard¹.

NEW QUESTION # 53

A blind inventory audit is typically initiated via which interface?

- A. Now Agent Mobile app

- B. Now Inventory app
- C. Third-party API
- D. Now Mobile app

Answer: A

Explanation:

- * According to the Audit your inventory document, a blind inventory audit is a type of audit that hides the expected asset list from the auditor, so that the auditor has to physically scan each asset in the location and compare it with the actual asset list¹.
- * A blind inventory audit helps ensure data integrity and accuracy, as it prevents the auditor from "cheating on the test" by relying on the expected asset list¹.
- * A blind inventory audit is typically initiated via the Now Agent Mobile app, which is a mobile application that enables users to perform various tasks related to hardware asset management, such as scanning assets, creating audits, and viewing audit results¹.
- * The Now Agent Mobile app allows users to create an audit on the mobile device, select the location and type of audit, and scan the assets using the device camera or a Bluetooth scanner¹.
- * Therefore, the correct answer is option C, Now Agent Mobile app, as it is the interface that is typically used to initiate a blind inventory audit. References:
- * Audit your inventory

NEW QUESTION # 54

How can you automate the replenishment of stock levels?

- A. Stock Filters
- B. Transfer Orders
- C. Transfer Rules
- **D. Stock Rules**

Answer: D

Explanation:

- Stock rules are a feature of ServiceNow Hardware Asset Management that allow you to automate the replenishment of stock levels in your stockrooms¹.
- Stock rules define the minimum and maximum quantities of a specific model that you want to keep in a stockroom, as well as the reorder point and quantity¹.
- When the stock level of a model falls below the reorder point, a stock order is automatically generated to replenish the stockroom to the maximum quantity¹.
- You can create and manage stock rules by navigating to Hardware Asset Management > Model Management > Stock Rules¹.
- Reference:
- 1: Stock rules - ServiceNow Docs.

NEW QUESTION # 55

A given collection of methodologies, assets, and templates within Now Create is referred to as what?

- A. Methodology pack
- B. Now Create pack
- **C. Success pack**
- D. Project pack
- E. Asset pack

Answer: C

Explanation:

- * Now Create is a solution that provides step-by-step delivery guidance based on real-world experiences and proven leading practices, to perform digital transformations using ServiceNow products¹².
- * A success pack is a collection of processes and assets that, when executed by qualified ServiceNow practitioners, will deliver successful outcomes for your project¹³.
- * A process is a set of tasks that guides you through the implementation or upgrade of a ServiceNow product or feature¹.
- * An asset is an input to the methodology and can be product specific leading practice detailed instructions related to the success

pack or other product agnostic project templates and accelerators1.

* A success pack can be exported into ServiceNow SPM (and other project execution tools) to accelerate project start-up and provide easy links back to Now Create throughout the project execution1.

* The other options are not correct terms used in Now Create. There is no such thing as a Now Create pack, a project pack, a methodology pack, or an asset pack.
