

PEGACPRSA22V1 Free Download Pdf & PEGACPRSA22V1 Exam Study Guide & PEGACPRSA22V1 Exam Targeted Training

What's more, part of that PassReview PEGACPRSA22V1 dumps now are free: https://drive.google.com/open?id=11HJVUZnOGopQt0z0tp_2VL63K88dTbFb

As we will find that, get the test PEGACPRSA22V1 certification, acquire the qualification of as much as possible to our employment effect is significant. But how to get the test PEGACPRSA22V1 certification didn't own a set of methods, and cost a lot of time to do something that has no value. With our PEGACPRSA22V1 Exam Practice, you will feel much relax for the advantages of high-efficiency and accurate positioning on the content and formats according to the candidates' interests and hobbies.

Customers of PassReview will also receive updates for 1 year after purchase. A lot of students have prepared from the for the Certified Pega Robotics System Architect 22 (PEGACPRSA22V1) certification test and passed it in a single try. They have rated the Certified Pega Robotics System Architect 22 (PEGACPRSA22V1) as one of the best in the market to prepare for the PEGACPRSA22V1 exam it in minimum time. Try a free demo now and start your journey towards your dream certification!

Latest PEGACPRSA22V1 Test Objectives & Valid PEGACPRSA22V1 Test Duration

One of the key factors for passing the exam is practice. Candidates must use PEGACPRSA22V1 practice test material to be able to perform at their best on the real exam. This is why PassReview has developed three formats to assist candidates in their Pegasystems PEGACPRSA22V1 Preparation. These formats include desktop-based Pegasystems PEGACPRSA22V1 practice test software, web-based practice test, and a PDF format.

Pegasystems Certified Pega Robotics System Architect 22 Sample Questions (Q12-Q17):

NEW QUESTION # 12

You create a RcboticBanking project containing a BankerInsight application, two automations (AddCustomer and RemoveCustomer), and two BankerInsight's application methods (CustomerSearch and Login). Which option shows the Project explorer with the content defined above?

- A. ☐
- B. ☒
- C. ☐
- D. ☐

Answer: B

Explanation:

In Pega Robot Studio, the Project Explorer provides a structured view of all the components that belong to a project. These include applications, automations, and any methods (application-level procedures) associated with each application. The hierarchy in the Project Explorer reflects the relationship and scope of these components.

According to the Pega Robotics System Design and Implementation Guide (Project Structure and Scoping Rules section):

"Each application added to a Pega Robotics project appears under the 'Globals' node.

Automations are listed as separate automation objects under the application node.

Application methods such as Login or CustomerSearch are defined directly under the application to which they belong, following the hierarchy:

Globals # ApplicationName # Automations # Application Methods."

Based on this structure:

* The Globals node appears at the top.

* The BankerInsight application appears under Globals.

* Within BankerInsight, the two automations - AddCustomer and RemoveCustomer - are listed.

* Under the same application node, the application methods CustomerSearch and Login also appear, showing they belong specifically to the BankerInsight scope.

Option C correctly represents this hierarchy because it shows:

* Globals at the root.

* BankerInsight as the single application node.

* Under BankerInsight, both automations (AddCustomer, RemoveCustomer) and the application methods (CustomerSearch, Login) appear in sequence.

Other options show misplaced or missing elements:

* Option A: Incorrect - does not display both automations and methods under the same hierarchy.

* Option B: Incorrect - application methods are misplaced outside of the BankerInsight node.

* Option D: Incorrect - application methods appear incorrectly scoped under separate folders.

Therefore, Option C aligns perfectly with the standard Pega Robotics Project Explorer hierarchy for the given configuration.

References: Extracted and verified from Pega Robotics System Design and Implementation Guide,

"Project Explorer Hierarchy and Application Scoping" section (Pega Robotics 19.1 and later).

NEW QUESTION # 13

After setting up Start My Day, the end user makes some changes in the Manage Applications window to prioritize and manage the applications configured to launch using the Start My Day functionality.

Which of the following applications does the user see on the desktop after using the Start My Day functionality?

- A. ACMESearchSystem, Notepad++, BankerInsight
- B. CRM, BankerInsight
- C. ACMESearchSystem, CRM, Notepad++, BankerInsight
- D. CRM, Notepad++, BankerInsight

Answer: A

NEW QUESTION # 14

Match the term on the left with its description on the right.

Answer:

Explanation:

□ Explanation:

□ In Pega Platform, different integration points exist to trigger robotic automations (either desktop or unattended) through Pega Robot Studio. Each serves a specific purpose depending on whether the automation retrieves data, runs as part of a user interaction, or executes through background processing.

According to the Pega Robotics System Design and Implementation Guide, section "Integration Points Between Pega Platform and Robotic Automations", the following definitions are provided:

Data Pages:

"A Data Page can be configured with a Robotic Desktop Automation (RDA) data source.

This allows the case to call a robotic automation to retrieve or send data between the Pega Platform and an external system.

The automation runs in the background to provide data enrichment or lookup functions." Flow Actions:

"Flow actions can invoke robotic desktop automations before or after a case step executes.

They enable synchronous automation interaction as part of a user's workflow in Pega Platform." Robot Queues:

"A Robot Queue contains assignments that are sent to unattended robots for background processing.

One or more robots pick assignments from the queue and execute the configured automations associated with those cases." Detailed Reasoning:

* Data Pages # Used to source or update data automatically from external systems by triggering a Robotic Desktop Automation (RDA) or Robotic Process Automation (RPA).

* Hence, it "sources application data from Pega Platform applications by calling automations."

* Flow Action # Used within a case to trigger RDA automations either before or after a step.

* Hence, it "calls automations to run before or after completing a step."

* Robot Queue # Used by unattended robots managed through Robot Manager to fetch assignments and perform automations.

* Hence, it is the process by which "one or more robots access the case assignment to perform the automations." Final Correct Matching Order:

Term

Description

Data pages

Source application data from Pega Platform applications by calling automations.

Flow action

Within the case, it calls automations to run before or after completing a step.

Robot queue

One or more robots access the case assignment to perform the automations.

NEW QUESTION # 15

You have completed your development for the DisputeTransaction.peg file. The enterprise installs the Pega Robot Runtime software on the agent's desktop.

The enterprise is ready to unit test your solution but wants the Runtime executable to automatically launch the new project.

What do you configure to fulfill this request?

- A. Edit the setting in the PegaRuntimeConfig.xml by setting the value to the file location of the .peg file.
- B. Edit the setting in the CommonConfig.xml by setting the value to the file location of the .peg file.
- C. Edit the setting in the PegaStudioConfig.xml by setting the value to the file location of the .peg file.
- D. Edit the setting in the DisputeTransaction.peg by setting the value to the file location of the .peg file.

Answer: A

Explanation:

Comprehensive and Detailed Explanation From Pega Robotics System Exact Extract:

The PegaRuntimeConfig.xml file defines environment-specific configurations for the Pega Robot Runtime application.

To automatically launch a robotic solution (.peg file) when Runtime starts, you must configure the Startup Project path inside this XML file.

According to the Pega Robotics System Design and Implementation Guide, section "Configuring Pega Robot Runtime for Automatic Project Launch":

"To make Pega Robot Runtime automatically load and execute a robotic solution at startup, modify the PegaRuntimeConfig.xml file.

Within this file, specify the absolute path of the solution's .peg file under the <StartupProject> element.

When Pega Robot Runtime is launched, it reads this configuration and automatically opens the specified project." Detailed Reasoning:

Reasoning:

* A. PegaStudioConfig.xml - Incorrect. This file is specific to Robot Studio, not Runtime.

* B. PegaRuntimeConfig.xml - Correct. The StartupProject element in this file defines which project (.pega file) to load automatically when Runtime starts.
 * C. CommonConfig.xml - Incorrect. Used for shared server and connection configurations, not for startup settings.
 * D. DisputeTransaction.peg - Incorrect. This file is a project package and does not contain configuration data.
 Reference: Extracted and verified from Pega Robotics System Design and Implementation Guide, Runtime Configuration and Project Auto-Launch Setup section (Pega Robotics 19.1 and later).

NEW QUESTION # 16

During project testing, an issue requires you to add a diagnostic log component to track the log files to help determine a resolution. After testing, you decide not to remove the diagnostic log component from the automation and decide to simply turn off the log component.

Which diagnostic log component setting allows you to turn the logging component off temporarily?

- A. Setting the Mode to Off
- B. Setting the Category to Off
- C. Setting Type to Off

Answer: A

Explanation:

NEW QUESTION # 17

.....

If candidates need to buy the PEGACPRSA22V1 exam dumps for the exam, they must care for the pass rate. The pass rate of our PEGACPRSA22V1 exam dumps is over 98 , and we can ensure that you can pass it. If you have some questions about the PEGACPRSA22V1 Exam Materials, you can consult us. Furthermore, we have the technicians for our website, and they will check network environment safety at times, we offer you a clean and safety online network environment for you.

Latest PEGACPRSA22V1 Test Objectives: https://www.passreview.com/PEGACPRSA22V1_exam-braindumps.html

Pegasystems PEGACPRSA22V1 Valid Test Prep If you need the guides urgently and can't wait at most 48 hours, please do NOT order, Pegasystems PEGACPRSA22V1 Valid Test Prep Download the latest update for iTunes 3, Pegasystems PEGACPRSA22V1 Valid Test Prep With the wide use of computer more and more people want to enter into this industry, high-salary positions relating computer & network spring up, Safer plus safer.

Suppose you need to create a massive network that links every computer PEGACPRSA22V1 Valid Test Prep everywhere, The information provided in this chapter can, in turn, be used to write computer incident policies and procedures.

Trusted PEGACPRSA22V1 Valid Test Prep & Realistic Latest PEGACPRSA22V1 Test Objectives & Valid Pegasystems Certified Pega Robotics System Architect 22

If you need the guides urgently and can't wait PEGACPRSA22V1 at most 48 hours, please do NOT order, Download the latest update for iTunes 3, With the wide use of computer more and more people want Valid PEGACPRSA22V1 Test Duration to enter into this industry, high-salary positions relating computer & network spring up.

Safer plus safer, I believe our Pegasystems PEGACPRSA22V1 practice test will be the highest value with competitive price comparing other providers.
