Answer: B

NEW QUESTION # 51

Which essential capabilities are needed to effectively support subscriptions and recurring revenue models in the Quote-to-Cash process?

Note: There are 2 correct answers to this question.

- A. Automated proposal generation for potential customers.
- B. Real-time inventory tracking and management.
- **C. Automated payment collection and handling of receivables.**
- **D. Flexible creation of bundled offerings with varied pricing plans.**

Answer: C,D

Explanation:

Comprehensive and Detailed 150 to 250 words of Explanation From Positioning SAP Business Suite via SAP Financial Management Solutions documents:

As companies transition from traditional one-time product sales to "As-a-Service" models, the Quote-to-Cash (Q2C) process must evolve to handle significantly higher complexity. Two essential capabilities for this transition are flexible creation of bundled offerings and automated payment collection.

The ability to create bundled offerings is critical because subscription models often involve a mix of physical goods, digital services, and professional maintenance, all with varied pricing plans (e.g., flat fees, usage-based, or tiered pricing). SAP S/4HANA enables the "Monetize" capability, allowing businesses to configure these complex bundles quickly to meet market demand.

Furthermore, because subscription models generate a high volume of frequent, lower-value transactions, automated payment collection and handling of receivables is vital. Manual processing of thousands of monthly subscription payments is impossible at scale. SAP's Q2C solutions automate the entire lifecycle- from recurring billing and credit card processing to the reconciliation of payments and the management of

"dunning" (collection) processes for failed payments. This automation ensures high cash flow predictability and reduces the administrative overhead associated with managing a large-scale recurring revenue stream.

While inventory tracking (A) and proposal generation (C) are relevant to general commerce, they are not the specific "Subscription-enabling" capabilities emphasized in the SAP Financial Management Q2C framework.

NEW QUESTION # 52

Which SAP modules integrate with SAP Financials for end-to-end financial management?

- A. SAP Procurement
- B. SAP Treasury and Risk Management
- C. SAP Controlling (CO)
- D. SAP CRM

Answer: B,C

NEW QUESTION # 53
