SAP Certified Associate - Security Administrator Sample Questions (Q35-Q40):

NEW QUESTION # 35

When segregating the duties for user and role maintenance, which of the following should be part of a decentralized treble control strategy for a production system? Note: There are 3 correct answers to this question.

- A. One decentralized role administrator
- B. One user administrator per production system
- C. One user administrator per application area in the production system
- D. One authorization profile administrator
- E. One authorization data administrator

Answer: A,B,C

NEW QUESTION # 36

What are some of the rules for SAP-developed roles in SAP S/4HANA Cloud Public Edition? Note: There are 3 correct answers to this question.

- A. Authorization defaults define role authorizations.
- B. Manual role authorizations are supported in custom catalogs.
- C. Role maintenance reads applications from a catalog.
- D. Role maintenance reads applications from role menus.
- E. Catalogs are assigned to role menus.

Answer: A,C,E

NEW QUESTION # 37

In the administration console of the Cloud Identity Services, which authentication providers are available? Note: There are 2 correct answers to this question.

- A. Successfactors
- B. Fieldglass
- C. Ariba

- D. Concur

Answer: A,C

Explanation:

The administration console of SAP Cloud Identity Services supports integration with specific authentication providers to enable secure user authentication. SAP SuccessFactors and SAP Ariba are available as authentication providers, allowing seamless single sign-on (SSO) and identity management for users accessing these SAP solutions. These providers are integrated to leverage their identity data for authentication within the SAP ecosystem, enhancing security and user experience. In contrast, SAP Concur and SAP Fieldglass are not supported as authentication providers in the Cloud Identity Services administration console, as they primarily focus on expense management and workforce management, respectively, and do not serve as identity providers in this context.

NEW QUESTION # 38

Which archiving objects are relevant for archiving change documents for user master records? Note: There are 2 correct answers to this question.

- A. US_AUTH
- B. US_PROF
- C. US_USER
- D. US_PASS

Answer: A,C

NEW QUESTION # 39

If you want to evaluate catalog menu entries and authorization default values of IWSG and IWSV applications, which SUIM reports would you use? Note: There are 2 correct answers to this question.

- A. By Transaction Assignment in Menu
- B. Search Applications in Roles
- C. By Authorization Object
- D. Search Startable Applications in Roles

Answer: C,D

Explanation:

To evaluate catalog menu entries and authorization default values for IWSG (SAP Gateway Service Groups Metadata) and IWSV (SAP Gateway Business Suite Enablement-Service) applications, the SUIM (System User Information System) reports "Search Startable Applications in Roles" and "By Authorization Object" are used. The "Search Startable Applications in Roles" report identifies roles that include startable applications, such as IWSG and IWSV, by analyzing menu entries in PFCG roles, providing insight into which applications users can access. The "By Authorization Object" report allows administrators to review authorization objects, including those associated with IWSG and IWSV, and their default values, ensuring that the correct permissions are assigned. These reports are critical for auditing and maintaining secure access to SAP Fiori and Gateway applications. The "Search Applications in Roles" report is less specific, and "By Transaction Assignment in Menu" focuses on transaction codes, not IWSG/IWSV applications, making them unsuitable for this purpose. These tools enhance transparency and control over application access in SAP systems.

NEW QUESTION # 40

.....

In order to serve you better, we have offline and online chat service stuff, and any questions about C-SEC-2405 training materials, you can consult us directly or you can send your questions to us by email. In addition, C-SEC-2405 exam dumps of us will offer you free demo, and you can have a try before purchasing. Free demo will help you to have a deeper understanding of what you are going to buy.
