Key HCL Software Academy HCL-DOM-AADM-12 Concepts, HCL-DOM-AADM-12 Certification Questions

If you want to avoid being eliminated by machine, you must constantly improve your ability in all aspects. The emergence of HCL-DOM-AADM-12 dumps torrent provides you with a very good chance to improve yourself. On the one hand, our HCL-DOM-AADM-12 quiz torrent can help you obtain professional certificates with high quality in any industry without any difficulty. On the other hand, HCL-DOM-AADM-12 Exam Guide can give you the opportunity to become a senior manager of the company, so that you no longer engage in simple and repetitive work, and you will never face the threat of layoffs.

HCL Software Academy HCLSoftware Certified Associate Administrator Exam - Notes/Domino 12 Sample Questions (Q36-Q41):

NEW QUESTION # 36

What is a distinguishing feature of a mail-only registration in Domino?

- A. It bypasses mail policy enforcement
- B. It creates only the vault document
- C. It excludes the creation of a Notes ID
- D. It requires multiple server certifiers

Answer: C

Explanation:

A mail-only registration is used for users who will not be using the HCL Notes client and instead access their mail via internet protocols like POP3, IMAP, or HTTP. Because these users do not require Notes- specific authentication or encryption, the registration process excludes the creation of a Notes ID file . This simplifies the registration process for users who only need access

to their Domino mailboxes through standard web browsers or third-party email clients.

NEW QUESTION # 37

In a hierarchical name like \$CN=Server1/OU=Boston/O=HCL\$ the component "OU" stands for

- A. Organization Unit
- **B. Organizational Unit**
- C. Office Unit
- D. Operating Unit

Answer: B

Explanation:

HCL Domino utilizes a hierarchical naming structure to ensure every entity (user or server) has a unique name. In this structure, OU stands for Organizational Unit . OUs are typically used to represent departments, physical locations, or branches within the broader Organization (O), allowing for granular administrative control and security delegation.

NEW QUESTION # 38

Which two types of configuration documents are created or modified during Domino server setup? (Choose two)

- **A. Configuration Settings document**
- **B. Server document**
- C. Person document
- D. Database ACL document

Answer: A,B

Explanation:

During the initial configuration of a Domino server, the setup utility prepares the Domino Directory by creating or modifying core documents. These include the Server document , which identifies the server and its specific network/security settings , and the Configuration Settings document , which is used to manage settings for tasks like mail routing and MIME across one or more servers in the domain.

NEW QUESTION # 39

Where are effective policies for a user listed and applied in Domino?

- A. In the certlog.nsf database
- B. In the notes.ini file
- **C. In the Person document's Policies tab**
- D. In the Configuration Settings document

Answer: C

Explanation:

To verify which policies are currently governing a specific user, an administrator checks the Policies tab within that user's Person document in the Domino Directory. This tab displays the "Effective Policy," which is the result of all Organizational and Explicit policies assigned to that individual. This is the definitive location to see which administrative rules are being pushed to the user's client and mail file.

NEW QUESTION # 40

What security feature helps prevent unauthorized use of a user's Notes client on a shared machine?

- A. Smart Upgrade tracking
- B. Replication formula restrictions
- C. Server access control
- D. Lock ID after x minutes of inactivity

Answer: D

Explanation:

In environments where multiple users might share a single physical workstation, protecting the active session is critical. The Lock ID after x minutes of inactivity feature is a security setting (often enforced via a Desktop Policy) that automatically challenges the user for their password or locks the Notes interface after a specified period of idle time. This ensures that if a user walks away from their desk without logging out, another person cannot access their mail or encrypted data using the active Notes ID.

NEW QUESTION # 41

.....

If you buy our HCL-DOM-AADM-12 study materials, then you can enjoy free updates for one year. After you start learning, I hope you can set a fixed time to check emails. If the content of the HCL-DOM-AADM-12 practice guide or system is updated, we will send updated information to your e-mail address.
