## Development-Lifecycle-and-Deployment-Architect최신 덤프데모 다운로드 최신버전 시험대비자료

Fast2test는 많은 IT인사들이Salesforce인증시험에 참가하고 완벽한Development-Lifecycle-and-Deployment-Architect인증 시험자료로 응시하여 안전하게Salesforce Development-Lifecycle-and-Deployment-Architect인증시험자격증 취득하게 하는 사이트입니다. Pass4Tes의 자료들은 모두 우리의 전문가들이 연구와 노력 하에 만들어진 것이며.그들은 자기만의 지식과 몇 년간의 연구 경험으로 퍼펙트하게 만들었습니다.우리 덤프들은 품질은 보장하며 갱신 또한 아주 빠릅니다.우리의 덤프는 모두 실제시험과 유사하거나 혹은 같은 문제들을 암송합니다.Fast2test는 100% 한번에 꼭 고난의도인Salesforce인증Development-Lifecycle-and-Deployment-Architect시험을 패스하여 여러분의 사업에 많은 도움

을 드리겠습니다.

## 최신 Salesforce Developer Development-Lifecycle-and-Deployment-Architect 무료 샘플문제 (Q37-Q42):

### 질문 # 37

Universal Containers CUC) has been on the org development model with scratch orgs are already enabled, but they haven't been taking advantage of the scratch orgs.

Now UC is ready to move to the package development model.

What step must be done by an administrator?

- A. In setup, switch the Enable Dev Hub to Enabled, then switch the Enable Source Tracking for Scratch Orgs to Enabled.
- **B. In setup, switch both the Enable Dev Hub and Enable 2nd-Generation Managed Packages to Enabled.**
- C. In setup, switch the Enable Unlocked Packages to Enabled, keep the Enable Second-Generation Managed Packages as disabled.
- D. In setup, switch the Enable Unlocked Packages and Second-Generation Managed Packages to Enabled.

**정답: B**

**설명:**

To move to the package development model, the administrator must enable both the Dev Hub and the Second- Generation Managed Packages in setup. The Dev Hub is the main org where the administrator can create and manage scratch orgs and packages. The Second-Generation Managed Packages are the new format of packages that support modular development and versioning. The Unlocked Packages are a type of second- generation packages that are not tied to a namespace and can be installed and customized in any org. The Source Tracking for Scratch Orgs is a feature that allows the administrator to track the changes made in a scratch org and push or pull them to or from a source repository.

### 질문 # 38

Universal Containers is starting a Center of Excellence (COE). Which two user groups should an Architect recommend to join the COE?

- A. Inside Sales Users.
- B. Call Center Agents
- **C. Executive Sponsors.**
- **D. Program Team**

**정답: C,D**

**설명:**

Program team and executive sponsors are two user groups that an architect should recommend to join the COE. A program team is a group of people who are responsible for managing and delivering the Salesforce projects and initiatives. They can provide the COE with the technical expertise, best practices, and project management skills. An executive sponsor is a senior leader who supports and advocates for the Salesforce program. They can provide the COE with the strategic direction, business alignment, and funding support.

### 질문 # 39

Universal Containers (UC) just started configuration and customization of its Salesforce organization. The architect suggested the definition of an application lifecycle management (ALM) process.

What are three benefits of following an ALM process?

Choose 3 answers

- **A. Avoiding defects from being deployed to production.**
- **B. Releasing new features on a consistent schedule.**
- C. Training new users after each minor and major release.
- D. Defining metrics for application development project success.
- **E. Preventing existing working functionality from stopping**

**정답: A,B,E**

설명:

Explanation

Following an ALM process can help avoid defects from being deployed to production, by ensuring that the code is tested and validated in different environments before reaching the end users. It can also help release new features on a consistent schedule, by establishing a clear roadmap and timeline for the development and deployment phases. Moreover, it can help prevent existing working functionality from stopping, by implementing backup and rollback strategies, as well as monitoring and troubleshooting tools. Training new users after each minor and major release is not a benefit of ALM, but rather a best practice for user adoption and change management. Defining metrics for application development project success is not a benefit of ALM, but rather a part of the project management and evaluation process.

#### 질문 # 40

All AppExchange products are subject to Salesforce security reviews.

What is the most common reason that the prospect AppExchange products fail the security review?

- A. SOQL injection
- B. Cross-site scripting
- C. CRUD/FLS (field level security)
- D. Session hacking

정답: C

#### 질문 # 41

Universal Containers CUC) is using Salesforce Performance Edition. They are planning to host weekly training sessions for the next four weeks. Each training will be five days long and a new set of trainees will attend every week. UC wants to train these users on samples of production data and delete all the data generated during the training session at the end of the week.

What optimal option should a technical architect recommend?

- A. Refresh a Developer Pro sandbox every weekend and include an appropriate sandbox template.
- B. Refresh a Developer Pro sandbox every weekend and load data needed using data loader.
- C. Refresh a Partial Copy sandbox every weekend and load data needed using data loader.
- D. Refresh a Partial Copy sandbox every weekend and include an appropriate sandbox template.

정답: D

설명:

Explanation

Refreshing a Partial Copy sandbox every weekend and including an appropriate sandbox template will allow UC to train the users on samples of production data and delete all the data generated during the training session at the end of the week. Loading data using data loader is not necessary if the sandbox template includes the relevant data. Developer Pro sandboxes have limited storage and may not be able to accommodate the data needed for the training.

#### 질문 # 42

.....

인재가 넘치는 IT업계에서 자기의 자리를 지켜나가려면 학력보다 능력이 더욱 중요합니다. 고객님의 능력을 증명해주는 수단은 국제적으로 승인받은 IT인증자격증이 아니겠습니까? Salesforce인증 Development-Lifecycle-and-Deployment-Architect시험이 어렵다고 하여 두려워 하지 마세요. IT자격증을 취득하려는 분들의 결에는 Fast2test가 있습니다. Fast2test의 Salesforce인증 Development-Lifecycle-and-Deployment-Architect시험준비를 하시고 시험패스하여 자격증을 취득하세요. 국제승인 자격증이라 고객님의 경쟁력을 업그레이드 시켜드립니다.
