

# 1Z0-1195-25 Reliable Exam Prep & 1Z0-1195-25 Valid Torrent

BONUS!!! Download part of Exam-Killer 1Z0-1195-25 dumps for free: [https://drive.google.com/open?id=1VBtCE4rTe2bO3jRVff4bh\\_gRUht\\_Etxo](https://drive.google.com/open?id=1VBtCE4rTe2bO3jRVff4bh_gRUht_Etxo)

You only need 20-30 hours to practice our software materials and then you can attend the exam. It costs you little time and energy. The 1Z0-1195-25 exam questions are easy to be mastered and simplified the content of important information. The Oracle Data Platform 2025 Foundations Associate test guide conveys more important information with amount of answers and questions, thus the learning for the examinee is easy and highly efficient. The language which is easy to be understood and simple, 1Z0-1195-25 Exam Questions are suitable for any learners no matter he or she is a student or the person who have worked for many years with profound experiences. So it is convenient for the learners to master the 1Z0-1195-25 guide torrent and pass the exam in a short time. The amount of the examinee is large.

If you are still afraid of trying our 1Z0-1195-25 exam quiz, you will never have a chance to grow. Opportunities are always for those who prepare themselves well. The only way to harvest wealth is challenging all the time. Our 1Z0-1195-25 practice materials are waiting for you. Cheer up for yourself. There is nothing that you will lose for our demos of the 1Z0-1195-25 study materials are totally free to download.

## 1Z0-1195-25 Valid Torrent | 1Z0-1195-25 Free Practice Exams

We will refund your money if you fail to pass the exam if you buy 1Z0-1195-25 exam dumps from us, and no other questions will be

asked. We are famous for high pass rate, with the pass rate is 98.75%, we can ensure you that you pass the exam and get the corresponding certificate successfully. In addition, 1Z0-1195-25 Exam Dumps of us will offer you free update for 365 days, and our system will send the latest version of 1Z0-1195-25 exam braindumps to your email automatically. We also have online service stuff, and if you have any questions just contact us.

## Oracle 1Z0-1195-25 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> <li>Exadata and DBCS: This section tests the knowledge of Exadata Specialists and Database Administrators in understanding Exadata deployment options, lifecycle management tasks such as patching and backup, and the features of Oracle Base Database Service (DOracle NoSQL Database ServiceBCS).</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>MySQL and NoSQL: This section measures the skills of Database Developers and Data Engineers in working with Oracle MySQL HeatWave Database Service. It focuses on their features and uses cases for modern application development.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>Upgrades and Migrations: This section tests the knowledge of Migration Specialists and Cloud Architects in planning cloud migrations. It includes various migration strategies to OCI, as well as upgrade options for transitioning existing databases to newer versions or cloud environments.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>Converged Database: This section evaluates the expertise of Multi-Model Database Specialists and Application Developers in using Oracle's converged database for multi-model use cases. It covers JSON, graph, and spatial data capabilities within the Oracle Database.</li> </ul>

## Oracle Data Platform 2025 Foundations Associate Sample Questions (Q51-Q56):

### NEW QUESTION # 51

What is the FINAL release supporting the non-CDB architecture?

- A. Oracle Database 19c
- B. Oracle Database 21c
- C. Oracle Database 23c
- D. Oracle Database 18c

**Answer: A**

Explanation:

The final release supporting the "non-CDB (non-Container Database)" architecture is "Oracle Database 19c" (B). Oracle deprecated the non-CDB architecture starting with 20c (never fully released) and mandated the multitenant architecture (CDB with PDBs) from 21c onward. 19c, as a long-term support release, was the last to support non-CDB databases, with Oracle recommending migration to multitenant in subsequent versions like 23c. Oracle's documentation confirms 19c as the end of non-CDB support.

### NEW QUESTION # 52

What are two important reasons to upgrade and patch?

- A. Validation of application
- B. Support Compliance
- C. Restructure the database
- D. Security

**Answer: B,D**

Explanation:

Two important reasons to upgrade and patch are "Support Compliance" (A), ensuring the database remains under Oracle's support policy with access to updates, and "Security" (C), applying patches to mitigate vulnerabilities and protect data. "Validation of

application" (B) is a byproduct, not a primary reason, and "Restructure the database" (D) is unrelated to patching. Oracle's maintenance guides emphasize compliance and security as key drivers.

### NEW QUESTION # 53

What self-service tools are available with the Autonomous Database?

- A. Oracle Machine Learning
- B. Encryption only in Object Storage
- C. Business Objects
- D. Low-Code App Dev, APEX

**Answer: A,D**

Explanation:

The "Autonomous Database" offers self-service tools like "Oracle Machine Learning" (B), enabling users to build ML models directly in the database, and "Low-Code App Dev, APEX" (C), allowing rapid application development via Oracle APEX. "Business Objects" (A) is a third-party BI tool, not native to ADB, and "Encryption only in Object Storage" (D) is a feature, not a tool, and inaccurate (encryption is broader). Oracle's documentation highlights OML and APEX as key self-service capabilities.

### NEW QUESTION # 54

Which command for the MySQL Data Service will resume OCPU billing?

- A. Backup
- B. Start
- C. Stop
- D. Restart

**Answer: B**

Explanation:

For the "MySQL Database Service," the "Start" command (A) resumes OCPU billing, as it activates the database instance, incurring compute costs. "Stop" (B) halts billing by suspending the instance, "Restart" (C) is a stop-then-start sequence, and "Backup" (D) affects storage, not OCPU billing. Oracle's MySQL Service documentation ties billing to the Start command.

### NEW QUESTION # 55

Oracle Cloud and Microsoft Azure have an interconnect for workloads across cloud. Which two are also benefits this partnership and interconnect provide?

- A. Connection to other multicloud environments
- B. Low Latency
- C. Unified identity and access management
- D. Upgrade compliance

**Answer: B,C**

Explanation:

The Oracle Cloud and Microsoft Azure interconnect offers "Low Latency" (B), achieved through a high-speed, private connection between OCI and Azure data centers, reducing delays for cross-cloud workloads. It also provides "Unified identity and access management" (C), integrating Oracle IAM with Azure Active Directory for seamless user authentication. "Upgrade compliance" (A) is vague and not a documented benefit, while "Connection to other multicloud environments" (D) is not specific to this partnership. Oracle's multicloud documentation highlights latency and identity integration as key advantages.

### NEW QUESTION # 56

.....

Now, the test syllabus of the 1Z0-1195-25 exam is changing every year. More and more people choose to prepare the exam to
