To meet the needs of users, and to keep up with the trend of the examination outline, our products will provide customers with latest version of our products. Our company's experts are daily testing our H19-301_V3.0 study guide for timely updates. So we solemnly promise the users, our products make every effort to provide our users with the latest learning materials. As long as the users choose to purchase our H19-301_V3.0 Exam Dumps, there is no doubt that he will enjoy the advantages of the most powerful update. Most importantly, these continuously updated systems are completely free to users. As long as our H19-301_V3.0 learning material updated, users will receive the most recent information from our H19-301_V3.0 learning materials. So, buy our products immediately!

Huawei H19-301_V3.0 certification exam is specifically designed for professionals who aspire to work in IP network sales and solutions. It covers various topics such as Cloud Computing, Big Data, Network Security, and Wireless Technology. H19-301_V3.0 Exam is a vendor-neutral certification that is recognized worldwide and is available to all the professionals who meet the eligibility criteria.

H19-301_V3.0 Latest Exam Vce & Vce H19-301_V3.0 Exam

In case the clients encounter the tricky issues we will ask our professional to provide the long-distance assistance on H19-301_V3.0 exam questions. Please take it easy and don't worry that our customer service staff will be offline because our customer service staff works for the whole day and the whole year. And the clients can enjoy our considerate and pleasant service and like our H19-301_V3.0 Study Materials. Then the expert team processes them elaborately and compiles them into the test bank. Our system will timely and periodically send the latest update of the H19-301_V3.0 exam practice guide to our clients.

Huawei H19-301_V3.0 (HCSA-Presales-IP Network Certification V3.0) Exam is a certification test that measures an individual's knowledge and skills in the field of IP network presales. H19-301_V3.0 exam is designed to test the candidate's understanding of the Huawei IP network products and solutions, as well as their ability to design and implement solutions for customers. HCSA-Presales-IP Network Certification V3.0 certification demonstrates the individual's ability to understand the customers' requirements and provide effective solutions.

Huawei HCSA-Presales-IP Network Certification V3.0 Sample Questions (Q53-Q58):

NEW QUESTION # 53

Which of the following statements is FALSE about RR in Huawei's SD-WAN solution?

- A. It distributes VPN routes and tunnel information between CPEs based on VPN topology policies.
- B. It can be deployed independently or co-deployed with the CPE at a site.

- C. It can be deployed on a physical AR router or software AR1000V vCPE.
- **D. It can implement communication between SD-WAN networks and legacy MPLS networks.**

Answer: D

Explanation:

Understanding the Role of RR (Route Reflector):

In Huawei's SD-WAN solution, the Route Reflector (RR) plays a critical role in distributing routing information and ensuring efficient communication between CPEs (Customer Premises Equipment).

Analysis of Each Statement:

Option A: This is FALSE. The RR in Huawei's SD-WAN solution does not directly implement communication between SD-WAN networks and legacy MPLS networks. Instead, it focuses on distributing VPN routes and tunnel information within the SD-WAN overlay network. Communication with legacy MPLS networks typically requires additional integration mechanisms.

Option B: This is correct. The RR can be deployed on a physical AR router or as a virtualized instance (AR1000V vCPE).

Option C: This is correct. The RR can be deployed independently or co-located with a CPE at a site, depending on the network design.

Option D: This is correct. The RR distributes VPN routes and tunnel information between CPEs based on predefined VPN topology policies.

Conclusion: The FALSE statement is Option A.

NEW QUESTION # 54

The following APs that support PoEOUT include ()

- **A. AP4050DN-E**
- **B. AP2050DN-E**
- **C. AP4050DN-HD**
- D. AP4030TN

Answer: A,B,C

NEW QUESTION # 55

In order to simplify Huawei many access switches network configuration, we need to use dedicated stack ports or stack cards with iStack technology to support.

- A. FALSE
- **B. TRUE**

Answer: B

NEW QUESTION # 56

SRv6 can traverse all types of private lines for traffic optimization. Huawei NetEngine AR821 E can support SRv6.

- A. FALSE
- **B. TRUE**

Answer: B

Explanation:

* Understanding SRv6 Capabilities:

* SRv6 (Segment Routing over IPv6) is a next-generation networking technology that enables flexible traffic engineering and seamless traversal across different types of private lines.

* Huawei NetEngine AR821 E Support for SRv6:

* The NetEngine AR821 E router supports SRv6, making it suitable for SD-WAN and WAN deployments where traffic optimization and path control are critical.

* Conclusion: The statement is TRUE because SRv6 can traverse all types of private lines, and the NetEngine AR821 E supports
