You can prepare using these no-cost updates in accordance with the most recent test content changes provided by the Microsoft Dynamics 365: Finance and Operations Apps Developer (MB-500) exam dumps.

## Microsoft Dynamics 365: Finance and Operations Apps Developer Sample Questions (Q178-Q183):

### NEW QUESTION # 178

You are creating a new class and adding methods to the class.

You need to control extensibility capabilities of some of the methods in the class.

Which attribute should you use? To answer, drag the appropriate attributes to the correct requirements. Each attribute may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Attributes	Requirement	Attribute
<input type="checkbox"/> [Hookable(true)]	Extenders must be able to subscribe to pre- and post-event handlers.	<input type="text"/>
<input type="checkbox"/> [Wrappable(false)]	Extenders must not be able to use chain of command (CoC) to wrap a specific method.	<input type="text"/>
<input type="checkbox"/> [Replaceable]	Extenders must be able to wrap the method but must not be required to call next in the chain of command (CoC).	<input type="text"/>
<input type="checkbox"/> [Hookable(false)]		

Answer:

Explanation:

The screenshot shows a requirement: "Extenders must be able to subscribe to pre- and post-event handlers." Below it are two more requirements: "Extenders must not be able to use chain of command (CoC) to wrap a specific method." and "Extenders must be able to wrap the method but must not be required to call next in the chain of command (CoC)." To the left, under "Attributes", there are three buttons: [Hookable(true)], [Wrappable(false)], and [Replaceable]. To the right, under "Attribute", there are three buttons: [Hookable(true)], [Wrappable(false)], and [Replaceable].

Explanation:

The screenshot shows a requirement: "Extenders must be able to subscribe to pre- and post-event handlers." Below it are two more requirements: "Extenders must not be able to use chain of command (CoC) to wrap a specific method." and "Extenders must be able to wrap the method but must not be required to call next in the chain of command (CoC)." To the left, under "Attributes", there are three buttons: [Hookable(true)], [Wrappable(false)], and [Replaceable]. To the right, under "Attribute", there are three buttons: [Hookable(true)], [Wrappable(false)], and [Replaceable].

### NEW QUESTION # 179

A company uses Dynamics 365 finance.

The company wants to create test cases by using the SysTest framework.

You need to select the appropriate TestTransactionMode option for each requirement. Which options should you use? To answer, drag the appropriate options to the correct requirements. Each option may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

The screenshot shows three requirements: "Roll back and delete only insert statements.", "Roll back transactions by using SQL save points.", and "Roll back transactions by using SQL save points." To the left, under "Options", there are four buttons: AutoRollback, LegacyRollback, LegacyRollbackWithUpdateTracing, and None. To the right, under "Option", there are two empty input fields.

Answer:

Explanation:

The screenshot shows the same requirements and options as the previous screenshot. The "AutoRollback" and "LegacyRollback" options are selected for the first requirement. The "LegacyRollbackWithUpdateTracing" option is selected for the second requirement. The "None" option is selected for the third requirement.

### NEW QUESTION # 180

You have the following code:

```
public void CompareValues ()
{
    Date myDate = str2date('01/08/1901', 123);
    boolean result1, result2, result3;
    result1 = (myDate + 1 == str2date('02/08/1901', 123));
    result2 = (int2str(real2int(myDate)) + 1 == str2date('02/08/1901', 123));
}
```

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Statement	Yes	No
The value of result1 = true	<input type="radio"/>	<input type="radio"/>
The value of result2 = true	<input type="radio"/>	<input type="radio"/>

**Answer:**

Explanation:

Statement	Yes	No
The value of result1 = true	<input checked="" type="radio"/>	<input type="radio"/>
The value of result2 = true	<input type="radio"/>	<input checked="" type="radio"/>

Explanation:

Statement	Yes	No
The value of result1 = true	<input checked="" type="radio"/>	<input type="radio"/>
The value of result2 = true	<input type="radio"/>	<input checked="" type="radio"/>

Box 1: Yes

Add 1 to a date adds one day.

Box 2: No

You cannot do a real2int conversion on a Date.

### NEW QUESTION # 181

A company requires a change to one of the base Microsoft SQL Server Reporting Services (SSRS) reports. The report must include a new field that automatically filters the report based on the user who opens the report.

You need to add the new field as specified.

What should you do? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Requirement	Action
Add the new field to the report.	<input type="checkbox"/> Duplicate the existing report in an extension model. <input type="checkbox"/> Extend the existing report in an extension model. <input type="checkbox"/> Customize the existing report.
Automatically filter based on the user.	<input type="checkbox"/> Use the Controller class. <input type="checkbox"/> Use the ReportDataProvider class.

**Answer:**

Explanation:

**Requirement**  
 Add the new field to the report.

**Action**

- Duplicate the existing report in an extension model.
- Extend the existing report in an extension model.**
- Customize the existing report.

Automatically filter based on the user.

Use the Controller class.

**Use the ReportDataProvider class.**

**NEW QUESTION # 182**

You need to configure security for the CashDisc form.

What changes should you make? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Account	Action
Accounts Payable Manager	<ul style="list-style-type: none"> <li>Duplicate the role and modify the existing privilege entry point access.</li> <li>Create a new duty and privilege and add both to the role.</li> <li>Run the security tool and validate access for the role.</li> </ul>
Accounts Payable Clerk	<ul style="list-style-type: none"> <li>Create a new role for the AP clerk and restrict delete access for the CashDisc form.</li> <li>Create a new duty and add the existing privilege and add duty to the role.</li> </ul>

**Answer:**

Explanation:

Account	Action
Accounts Payable Manager	<ul style="list-style-type: none"> <li><b>Duplicate the role and modify the existing privilege entry point access.</b></li> <li>Create a new duty and privilege and add both to the role.</li> <li>Run the security tool and validate access for the role.</li> </ul>
Accounts Payable Clerk	<ul style="list-style-type: none"> <li><b>Create a new role for the AP clerk and restrict delete access for the CashDisc form.</b></li> <li>Create a new duty and add the existing privilege and add duty to the role.</li> </ul>

**NEW QUESTION # 183**

.....

If you want to buy Microsoft MB-500 exam information, ITExamDownload will provide the best service and the best quality products. Our exam questions have been authorized by the manufacturers and third-party. And has a large number of IT industry

professionals and technology experts, based on customer demand, according to the the outline developed a range of products to meet customer needs. Microsoft MB-500 Exam Certification with the highest standards of professional and technical information, as the knowledge of experts and scholars to study and research purposes. All of the products we provide have a part of the free trial before you buy to ensure that you fit with this set of data.
