

# H13-624\_V5.5 Test Questions Pdf - Latest H13-624\_V5.5 Training

DOWNLOAD the newest Braindumpsqa H13-624\_V5.5 PDF dumps from Cloud Storage for free: <https://drive.google.com/open?id=1cmWQemx1D-wNnJBR9OVXgoFSXEhFI3PJ>

Huawei H13-624\_V5.5 Exam provided by Braindumpsqa is of the highest quality, and it enables participants to pass the exam on their first try. For successful preparation, it is essential to have good Huawei H13-624\_V5.5 exam dumps and to prepare questions that may come up in the exam. Braindumpsqa helps candidates overcome all the difficulties they may encounter in their exam preparation. To ensure the candidates' satisfaction, Braindumpsqa has a support team that is available 24/7 to assist with a wide range of issues.

## Huawei H13-624\_V5.5 Exam Syllabus Topics:

| Section                                      | Objectives                                                                                                                                                                                                       |
|----------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Huawei OceanStor Storage Systems             | <ul style="list-style-type: none"><li>- Storage management and configuration</li><li>- OceanStor product architecture and components</li><li>- LUN and storage pool management</li></ul>                         |
| Storage Networking Technologies              | <ul style="list-style-type: none"><li>- Multipathing and high availability</li><li>- Fibre Channel SAN configuration</li><li>- iSCSI SAN deployment</li></ul>                                                    |
| Data Protection and Backup                   | <ul style="list-style-type: none"><li>- Remote replication technologies</li><li>- Snapshots and clones</li><li>- Backup and recovery strategies</li></ul>                                                        |
| Storage Security and Maintenance             | <ul style="list-style-type: none"><li>- Access control and authentication</li><li>- System maintenance and troubleshooting</li></ul>                                                                             |
| Storage Performance and Optimization         | <ul style="list-style-type: none"><li>- QoS configuration</li><li>- Performance monitoring and analysis</li><li>- Capacity planning</li></ul>                                                                    |
| Storage System Architecture and Fundamentals | <ul style="list-style-type: none"><li>- RAID principles and implementation</li><li>- Storage hardware architecture (controllers, disks, cache)</li><li>- Storage protocols overview (SAN, NAS, IP SAN)</li></ul> |

## Latest H13-624\_V5.5 Training - New H13-624\_V5.5 Test Materials

Our H13-624\_V5.5 valid study guide is edited by out IT professional experts and focus on providing you with the most updated study material for all of you. You will pass your H13-624\_V5.5 actual test in your first attempt. With the help of Huawei H13-624\_V5.5 Current Exam Content, you will be more confident and positive to face your coming test. After you get your H13-624\_V5.5 certification, you will be getting close to your dream.

### Huawei HCIP-Storage V5.5 Sample Questions (Q228-Q233):

#### NEW QUESTION # 228

The deduplication and compression features of Huawei converged storage systems are widely used in actual production scenarios, especially in virtual desktop infrastructure (VDI) and database scenarios. Which of the following statements is false about data deduplication and compression?

- **A. In the adaptive deduplication and compression process, if the system detects that the fingerprints are different of the bytes are different after byte-by-byte comparison, the system compresses the data blocks.**
- B. During similarity-based deduplication in the background, the background analyzes the similarity- based deduplication opportunity table and performs similarity-based deduplication on data blocks with the same Similar Fingerprint (SFP).
- C. Backup storage supports deduplication and compression of file systems. For LUNs, only deduplication is supported.
- D. During inline deduplication, the system checks whether the fingerprint exists in the fingerprint library. If yes, the system determines that the block is an old block.

**Answer: A**

Explanation:

In adaptive deduplication and compression, if fingerprints or byte-by-byte comparisons differ, the system does not compress the data blocks. Compression occurs only when data blocks are identified as duplicates or suitable for compression.

#### NEW QUESTION # 229

A government customer has purchased two Huawei flash storage devices and deployed them in different data centers for running remote replication services. When a primary/secondary switchover is performed for the remote replication pair, the primary and secondary sites record the data changes. When the secondary site becomes the primary site following the primary/secondary switchover, all data will be synchronized between the primary and secondary sites.

- **A. FALSE**
- B. TRUE

**Answer: A**

Explanation:

This question addresses the behavior of remote replication during a primary/secondary switchover in Huawei flash storage systems, such as OceanStor Dorado. The \*HCIP-Storage V5.5 Training Material (Module 4: Storage Design and Implementation)\* explains: "During a primary/secondary switchover in remote replication, the secondary site becomes the primary site and starts accepting write I/Os. The original primary site, if available, becomes the secondary site. Data changes are tracked incrementally, but full synchronization does not occur automatically after the switchover unless explicitly configured or triggered by a fault recovery process." The question's statement that "all data will be synchronized" implies an automatic full synchronization, which is not the default behavior. Instead, only incremental changes are synchronized when replication resumes, making the statement false.

Reference:

HCIP-Storage V5.5 Training Material, Module 4: Storage Design and Implementation, Section 4.3: Remote Replication and Switchover Mechanisms\*, Huawei Technologies Co., Ltd.

#### NEW QUESTION # 230

Before configuring services for Huawei flash storage, you need to Initialize the system. Which statement about the initialization is false?

- A. You must change the IP addresses of the management network port and maintenance network port using the command-line interface (CLI) before applying for and activating a license.
- B. When the TCP+SSL/TLS protocols are used for Syslog alarm notification, you need to set the certificate verification mode to improve the security of storage system logs.
- C. During security configuration management, read-only users have only the access permission to the storage device, that is, they can only perform query operations.
- D. During the wizard-based initialization, you need to configure basic information, such as device information, device time, and licenses.

**Answer: A**

#### NEW QUESTION # 231

Single-choice Which of the following is the incorrect feature description of Oceanstor 9000 InfoStamaper?

- A. InfoStamaper feature provides snapshots based on file level
- B. Oceanstor 9000 InfoStamaper adopts ROW technology
- C. The metadata of Oceanstor 9000 uses mirroring for redundancy, and COW technology is used for the metadata.
- D. The advantage of using ROW is that it has less impact on system performance.

**Answer: A**

#### NEW QUESTION # 232

The backup management system includes backup management software and backup management server. Which of the following items can be managed? (multiple choice)

- A. Backup strategy
- B. Backup network
- C. Write data to backup media
- D. Read data from the backup client

**Answer: A,C,D**

#### NEW QUESTION # 233

.....

If you purchase our H13-624\_V5.5 preparation questions, it will be very easy for you to easily and efficiently find the exam focus. More importantly, if you take our products into consideration, our H13-624\_V5.5 study materials will bring a good academic outcome for you. At the same time, we believe that our H13-624\_V5.5 training quiz will be very useful for you to have high quality learning time during your learning process.
