PL-200 100% Accuracy | Sample PL-200 Questions

Free4Dump wants to win the trust of Microsoft PL-200 exam candidates at any cost. To achieve this objective Free4Dump is offering some top features with PL-200 exam practice questions. These prominent features hold high demand and are specifically designed for quick and complete Microsoft Power Platform Functional Consultant (PL-200) exam questions preparation.

Target Audience for Microsoft PL-200 Exam

This certification test is designed for those professionals who are responsible for building apps. The intended candidates for this exam should be able to engage the subject matter stakeholders and experts, perform research, translate requirements, and configure Power Platform solutions as well as apps. These individuals possess the skills needed for creating custom visualizations, application enhancements, system integrations, and custom user experiences and data conversions. In addition, the applicants should be able to perform design created by or in collaboration with the architects and in alliance with the existing standards, branding, and artifacts developed by the user experience designers.

Microsoft Power Platform Functional Consultant Sample Questions (Q287-

Q292):

NEW QUESTION # 287

A company creates a bot by using Power Virtual Agents.

The company requires the bot to transfer callers to an agent if the bot is unable to recognize a customer's request.

You need to configure the bot for the unrecognized information from the customer.

Which feature should you use?

- A. Fallback workstream
- **B. Fallback topic**
- C. Fallback queue
- D. Fallback entity
- E. Fallback skill

Answer: B

Explanation:

A Fallback topic is a type of topic in Power Virtual Agents that is used when the bot is unable to understand the customer's request. When a Fallback topic is triggered, it takes over the conversation and presents the customer with a set of options or a message that allows them to get the help they need. This can include options such as requesting to speak with an agent, providing feedback, or getting more information about the bot's capabilities. Fallback topic can be configured to automatically transfer the customer to an agent.

NEW QUESTION # 288

You are a Dynamics 365 for Customer Service developer.

You must trigger a mobile notification whenever a specific hashtag is posted from Twitter. The notification will send email to the company's social media teams distribution list.

You need to create a connection to the Twitter service and build a solution.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Answer:

Explanation:

□ Explanation

NEW QUESTION # 289

You are a Dynamics 365 Customer Service developer.

A salesperson creates a chart.

You need to ensure that the chart is available to all users on the team.

Which actions should the salesperson perform? To answer, drag the appropriate actions to the correct users. Each action may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

□ 1 - Export the user chart for import as a user chart.

□ 2 - Share the chart with the team.

NEW QUESTION # 290

You create a Power Automate flow as part of a managed solution. The flow alerts users when files are uploaded to a SharePoint location.

Files are uploaded to SharePoint at a much higher rate than expected. Users report that they receive too many notifications about uploaded files.

You need to stop the flow and correct the issue.

What should you do? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Graphical user interface, text, application Description automatically generated
