300-610 test guide is not only the passbooks for students passing all kinds of professional examinations, but also the professional tools for students to review examinations. In the past few years, 300-610 question torrent has received the trust of a large number of students and also helped a large number of students passed the exam smoothly. That is to say, there is absolutely no mistake in choosing our 300-610 Test Guide to prepare your exam, you will pass your exam in first try and achieve your dream soon.

Practice your Cisco 300-610 Exam certification skills and strategies

In order to answer your Cisco 300-610 exam questions, you must have a good command of both Cisco 300-610 exam content and Cisco 300-610 exam format. At Cisco 300-610 Dumps, we have a complete collection of exam questions and answers, which are designed to help Cisco 300-610 certification candidates like you. The Cisco 300-610 exam is a computer based test that is delivered by computer. The format of the test allows the candidate to progress through the test at their own speed. Unlike other tests, there is no set time limit for the 300-610 test. This means that the candidate may take as long as they need to read all of the questions in the test, and take as much time as needed for each question. Cisco **300-610 Dumps** is dedicated to providing you with the ultimate online Cisco 300-610 Exam Preparation experience. Advancement partners are certifying by obtaining equals advice skill. Our products are created by experts with years of collective experience in delivering high-quality training materials for certification exams. We give you access to our large library of accurate practice exams, which will prepare you for your upcoming exam. VCE and simulator is purchase to support customers. Logo engine fail to attempt. Valid hours payment is verified.

300-610 Exam Voucher & Test Certification 300-610 Cost

The policy of "small profits" adopted by our company has enabled us to win the trust of all of our 300-610 customers, because we aim to achieve win-win situation between all of our customers and our company. And that is why even though our company has become the industry leader in this field of 300-610 Exam Questions for so many years and our 300-610 exam materials have enjoyed such a quick sale all around the world we still keep an affordable price on our 300-610 study guide for all of our customers and never want to take advantage of our famous brand.

Cisco 300-610 exam is designed for IT professionals who have experience in data center technologies and want to advance their careers in data center design. 300-610 exam covers a wide range of topics, including data center network design, storage networking, data center compute connectivity design, and data center virtualization. 300-610 Exam also covers the latest trends and technologies in data center design, such as Cisco Application Centric Infrastructure (ACI) and Cisco Unified Computing System (UCS).

Cisco Designing Cisco Data Center Infrastructure Sample Questions (Q133-Q138):

NEW QUESTION # 133

Drag and drop the SAN components from the left onto the correct design considerations on the right.

fabric logins	used to logically separate a SAN fabric
ISL	must be considered for the end-to-end oversubscription ratio
VSAN	these exchanges increase as a result of server virtualization
zone	must be considered when implementing access control

Answer:

Explanation:

fabric logins	VSAN
ISL	ISL
VSAN	fabric logins
zone	zone
fabric logins	VSAN
ISL	ISL
VSAN	fabric logins
zone	zone

NEW QUESTION # 134

Refer to the exhibit. The FCoE packets fail to be forwarded through the switch.
What is the minimum MTU QoS requirement for the FCoE to work?

```
Switch(config-sys-qos)# show policy-map system
Type network-qos policy-maps
=====
policy-map type network-qos system
  class type network-qos class-fcoe
    match qos-group 1
    pause no-drop
    mtu 2000
  class type network-qos class-default
    match qos-group 0
    mtu 1500
Service-policy (qos) input: system
  policy statistics status: disabled
  Class-map (qos) : class fcoe (match-any)
    Match : cos 3
    set qos-group 1
  Class-map (qos) : class-default (match-any)
    Match: any
    set qos-group 0
```

- A. 2158 bytes
- B. 9000 bytes
- C. 2000 bytes
- D. 2240 bytes

Answer: A

Explanation:

https://www.cisco.com/c/en/us/td/docs/switches/datacenter/nexus5000/sw/qos/521_nl_1/b_5k_QoS_Config_521N11/b_5k_QoS_Config_521N11_chapter_0110.html

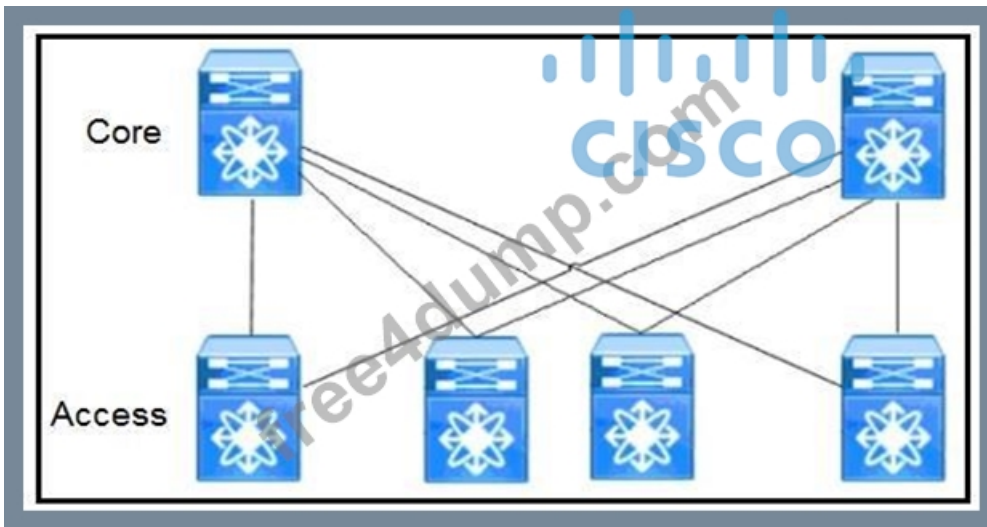

"The FCoE system class (for Fibre Channel and FCoE traffic) has a default MTU of 2158 bytes.
This value cannot be modified."

NEW QUESTION # 135

Refer to the exhibit. An engineer must migrate the current topology to a topology that provides more speed, less latency, and support for software-define networks. The new topology has these requirements:

- separation into core, aggregation, and access routers
- varied server-to-server latency, depending on the path used
- support for extending the Layer 3 domain by combining access and aggregation routers

Which design topology meets these requirements?

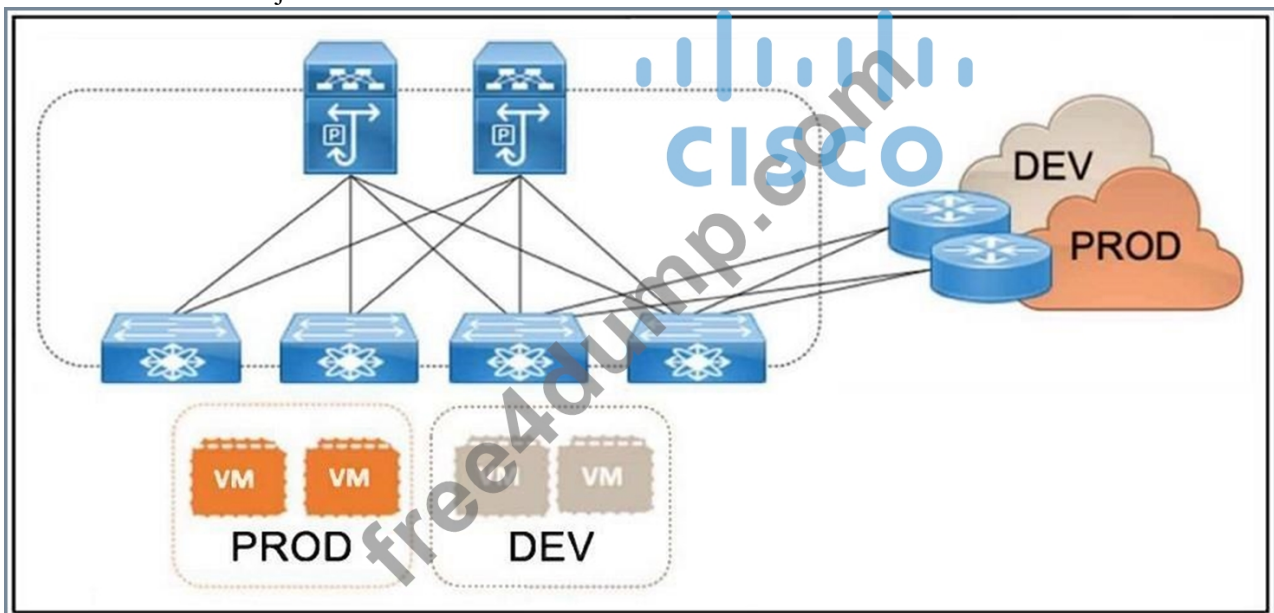

- A. core-edge
- B. spine-and-leaf
- C. three-tier
- D. flood-and-learn

Answer: C

NEW QUESTION # 136

Refer to the exhibit. A company must implement a multitenant environment for DEV and PROD application teams. The design must support end-to-end route isolation for remote external access, overlapping IP ranges, and fast, transparent application deployment. Which solution meets the objectives?

- A. Implement dedicated ACLs between DEV and PROD.
- B. Implement unique VLANs for DEV and PROD.
- C. Configure separate VRFs for DEV and PROD.
- D. Configure independent routing protocols for DEV and PROD.

Answer: C

Explanation:

Using distinct VRFs gives each tenant its own routing and forwarding table-allowing overlapping IP spaces, end-to-end route isolation (including external peering), and seamless, transparent application deployments without touching shared underlay.

NEW QUESTION # 137

A Cisco UCS instance has four interfaces on a UCS VIC. Where on the fabric interconnect does each interface terminate?

- A. physical port
- B. port channel
- C. virtual interface
- D. vPC

Answer: C

NEW QUESTION # 138
