If you choose our FCP_FCT_AD-7.4 study torrent, you can make the most of your free time, without using up all your time preparing for your exam. We believe that using our FCP_FCT_AD-7.4 exam prep will help customers make good use of their fragmentation time to study and improve their efficiency of learning. It will be easier for you to pass your exam and get your certification in a short time. If you decide to use our FCP_FCT_AD-7.4 Test Torrent, we are assured that we recognize the importance of protecting your privacy and safeguarding the confidentiality of the information you provide to us. We hope you will use our FCP_FCT_AD-7.4 exam prep with a happy mood, and you don't need to worry about your information will be leaked out.

Fortinet FCP_FCT_AD-7.4 Exam Syllabus Topics:

Topic	Details
Topic 1	FortiClient provisioning and deployment: This section focuses on deploying FortiClient to endpoint devices, creating and assigning endpoint profiles, and implementing endpoint security features to enforce protection and compliance.
Topic 2	Zero trust and Security Fabric integration: This domain explains how to integrate EMS with the Fortinet Security Fabric, configure quarantine for compromised endpoints, and implement zero trust network access to control and secure endpoint connectivity.
Topic 3	FortiClient EMS design and deployment: This domain covers the architecture, core components, and deployment modes of FortiClient EMS. It also includes installing and configuring the server to ensure proper setup and initial system operation.
Topic 4	Troubleshooting: This section covers analyzing logs and diagnostic information to identify issues with EMS and endpoints, and resolving common deployment, connectivity, and configuration problems.

Dumps Files**

Maybe you severely need a proper guide for your FCP_FCT_AD-7.4 exam test. Do not seek with aimless any more. Our Fortinet FCP_FCT_AD-7.4 exam guide will clear your confusion and help you out the difficulties. We offer the FCP_FCT_AD-7.4 original questions with verified answers. Our FCP_FCT_AD-7.4 PC test engine benefits you in your actual test. It has been tested and verified malware-free software, which ensure the safety installation. Besides, FCP_FCT_AD-7.4 PC test engine possess the characteristic of score comparison and improvement check. The customizable and intelligent FCP_FCT_AD-7.4 study material can help you pass your exam at your first attempt.

Fortinet FCP - FortiClient EMS 7.4 Administrator Sample Questions (Q52-Q57):

NEW QUESTION # 52

Refer to the exhibit, which shows multiple endpoint policies on FortiClient EMS.

Which policy is applied to the endpoint in the AD group trainingAD?

Name	Assigned Groups	Profile	Policy Components	Priority	Enabled
Sales	All Groups trainingAD training lab	PROFILE Training OFF-FABRIC Default	On-Fabric On-Fabric	1	☐
Training	trainingAD training lab	PROFILE Training OFF-FABRIC Default	On-Fabric On-Fabric	2	☒
Default		PROFILE Training OFF-FABRIC Default	On-Fabric On-Fabric	3	☐

- A. The Training policy
- B. The Default policy because it has the highest priority
- C. The sales policy
- D. Both the Sales and Training policies because their priority is higher than the Default policy

Answer: A

Explanation:

Observation of Endpoint Policies:

The exhibit shows multiple endpoint policies with their assigned groups, priority levels, and enabled status.

Evaluating Policy Assignment:

The Training policy is specifically assigned to the "trainingAD.training.lab" group, with a higher priority than the Default policy.

Conclusion:

The correct policy applied to the endpoint in the AD group "trainingAD" is the Training policy (A).

NEW QUESTION # 53

When site categories are disabled in FortiClient web filter, which feature can be used to protect the endpoint from malicious web access?

- A. Block malicious websites on antivirus
- B. FortiSandbox URL list
- C. Real-time protection list
- D. Web exclusion list

Answer: D

Explanation:

Web Filter Functionality:

When site categories are disabled in the FortiClient web filter, the endpoint still requires protection from malicious web access.

Alternative Protection Features:

The web exclusion list can be used to manage and block specific URLs that are known to be malicious, providing a way to control and secure web access even without site categories being enabled.

Conclusion:

The correct feature that can be used to protect the endpoint in this scenario is the web exclusion list (D).

NEW QUESTION # 54

Refer to the exhibit. You provide a webserver hosting service. An endpoint downloads a test file, testfile.txt, that gets blocked by FortiClient.

Which configuration can you use to make the file accessible on the endpoint?

- A. Exclude testfile.txt from the malware protection profile.
- B. Restore access to file directly using FortiClient.
- C. Allow the webserver URL in the exclusion list in the web filter profile.
- D. Add the file to the allowlist in quarantine management on FortiClient EMS.

Answer: D

Explanation:

To allow a specific file that was blocked by FortiClient, the administrator can add it to the allowlist in FortiClient EMS quarantine management. This permits the endpoint to access the file without triggering malware protection.

NEW QUESTION # 55

Refer to the exhibit, which shows FortiClient EMS deployment, profiles.

Deployments						+ Add	Change Priority
Name	Assigned Groups	Deployment Package	Scheduled Upgrade Time	Priority	Enabled		
Deployment-1	All Groups	First-Time-Installation		1	☐		
Deployment-2	All Groups trainingAD.training.lab	To-Upgrade		2	☒		

When an administrator creates a deployment profile on FortiClient EMS, which statement about the deployment profile is true?

- A. Deployment-2 will upgrade FortiClient on both the AD group and workgroup.
- B. Deployment-1 will install FortiClient on new AO group endpoints.
- C. Deployment-1 will upgrade FortiClient only on the workgroup.
- D. Deployment-2 will install FortiClient on both the AD group and workgroup.

Answer: A

Explanation:

* Deployment Profiles Analysis:

* Deployment-1 has the "First-Time-Installation" package and is assigned to "All Groups" with a priority of 1 but is not enabled.

* Deployment-2 has the "To-Upgrade" package, is assigned to both "All Groups" and "trainingAD.training.lab," with a priority of 2 and is enabled.

* Evaluating Deployment-2:

* Deployment-2 will upgrade FortiClient on both "All Groups" and "trainingAD.training.lab" since it is enabled and assigned to these groups. This includes both AD (Active Directory) groups and workgroups.

* Conclusion:

* Since Deployment-2 is set to upgrade FortiClient on all the assigned groups and workgroups, the correct answer is A.

References:

FortiClient EMS deployment and profile documentation from the study guides.

NEW QUESTION # 56

Exhibit.

Based on the logs shown in the exhibit, why did FortiClient EMS fail to install FortiClient on the endpoint?

- A. The remote registry service is not running.
- B. The FortiClient antivirus service is not running.
- **C. The task scheduler service is not running.**
- D. The Windows installer service is not running.

Answer: C

Explanation:

<https://community.fortinet.com/t5/FortiClient/Technical-Note-FortiClient-fails-to-install-from-FortiClient-EMS/ta-p/193680> The deployment service error message may be caused by any of the following. Try eliminating them all, one at a time.

1. Wrong username or password in the EMS profile
2. Endpoint is unreachable over the network
3. Task Scheduler service is not running
4. Remote Registry service is not running
5. Windows firewall is blocking connection

NEW QUESTION # 57

.....

Thousands of people are interested in earning the FCP - FortiClient EMS 7.4 Administrator (FCP_FCT_AD-7.4) certification exam because it comes with multiple career benefits. DumpTorrent have designed a product that contains the FCP_FCT_AD-7.4 latest questions. These Fortinet FCP_FCT_AD-7.4 Exam Dumps are ideal for applicants who have a short time and want to clear the FCP - FortiClient EMS 7.4 Administrator (FCP_FCT_AD-7.4) exam for the betterment of their future.
