

# Fantastic Sample 3V0-24.25 Questions Answers & Free PDF 3V0-24.25 Reliable Learning Materials & Top VMware Advanced VMware Cloud Foundation 9.0 vSphere Kubernetes Service

## Food Safety Questions and Answers Questions and Answers 2023

1. Which is TRUE regarding food safety training?  
a. The ideal length for a training session is one to two hours.  
b. Training records should be used to document training.  
c. Employees only require food safety knowledge that is specific to their tasks.  
d. Further training is unnecessary if employees received training upon being hired. - answer B

What are the three categories of contamination to food safety?  
a. Biological, Chemical, Environmental  
b. Biological, Chemical, Physical  
c. Biological, Practical, Poisons  
d. Infectious, Chemical, Hazardous - answer B

Which food would most likely cause a foodborne illness?  
a. Grape juice  
b. Diced tomatoes  
c. Whole wheat flour  
d. Powdered milk - answer B

Cross-contamination would likely occur if...  
a. Carrots are undercooked  
b. Meat is left out at room temperature  
c. Employees fail to wash their hands returning from the restroom  
d. Cutting boards are not washed, rinsed and sanitized between use - answer D

A foodhandler scratches a cut and continues to prepare a sandwich. This is an example of  
a. Time-Temperature Abuse  
b. Poor Personal Hygiene  
c. Cross Contamination  
d. Acceptable Safe Food Practices. - answer B

Left over chili is left sitting out to cool on the counter, this is an example of?  
a. Time-Temperature Abuse  
b. Cross Contamination  
c. Poor Personal Hygiene  
d. Poor Cleaning and Sanitizing - answer A

A foodhandler sprays cleaner on a prep table next to ready-to-eat tuna salad; this is an example of  
a. Time-Temperature Abuse

If you search reliable exam collection materials on the internet and find us, actually you have found the best products for your 3V0-24.25 certification exams. We are famous for the high pass rate of our 3V0-24.25 exam materials, that's why many old customers trust us and choose us directly before they have 3V0-24.25 Exams to attend. Before purchasing we can provide free PDF demo for your downloading so that you can know our product quality deeper and you can purchase 3V0-24.25 study guide clearly not only replying on your imagination.

You will have good command knowledge with the help of our 3V0-24.25 study materials. The certificate is of great value in the job market. Our 3V0-24.25 learning prep can exactly match your requirements and help you pass 3V0-24.25 exams and obtain certificates. As you can see, our products are very popular in the market. Time and tides wait for no people. Take your satisfied 3V0-24.25 Actual Test guide and start your new learning journey. After learning our 3V0-24.25 learning materials, you will benefit a lot. Being brave to try new things, you will gain meaningful knowledge.

**VMware 3V0-24.25 Reliable Learning Materials | 3V0-24.25 Reliable Test**

## Vce

Our 3V0-24.25 practice test software contains multiple learning tools that will help you pass the Advanced VMware Cloud Foundation 9.0 vSphere Kubernetes Service in the first attempt. We provide actual 3V0-24.25 questions pdf dumps also for quick practice. Our 3V0-24.25 vce products are easy to use, and you can simply turn things around by going through all the Advanced VMware Cloud Foundation 9.0 vSphere Kubernetes Service exam material to ensure your success in the exam. Our 3V0-24.25 Pdf Dumps will help you prepare for the Advanced VMware Cloud Foundation 9.0 vSphere Kubernetes Service even when you are at work.

## VMware Advanced VMware Cloud Foundation 9.0 vSphere Kubernetes Service Sample Questions (Q16-Q21):

### NEW QUESTION # 16

A VI Administrator needs to configure a Supervisor Cluster to download the latest supported Tanzu Kubernetes releases automatically from VMware over the internet.

Review the configuration steps:

1. Navigate to vSphere Client > Content Libraries.
2. Click Create New Content Library.
3. Name: Tanzu-Kubernetes-Lib.

Which specific settings must be applied in the subsequent configuration screens to meet the requirement?

- A. Select Subscribed content library and provide the official VMware TKG subscription URL.
- B. Select Subscribed content library and choose the option "Enable publishing".
- C. Select Local content library and enable "Optimize for syncing".
- D. Select Local content library and manually upload the OVA's downloaded from Customer Connect.

**Answer: A**

### NEW QUESTION # 17

A VKS Administrator needs to configure a TKG cluster to support taking snapshots of persistent volumes backed by vSAN.

Review the following VolumeSnapshotClass manifest being prepared:

```
apiVersion: snapshot.storage.k8s.io/v1
```

```
kind: VolumeSnapshotClass
```

```
metadata:
```

```
name: csi-vsphere-snapclass
```

```
driver: csi.vsphere.vmware.com
```

```
deletionPolicy: Delete
```

Which additional step is required to ensure this class is usable by developers in the default namespace?

- A. No additional steps are required; VolumeSnapshotClass is a cluster-scoped resource, making it available to all namespaces once applied.
- B. The class must be assigned to the vSphere Namespace in the vSphere Client.
- C. The vSphere CSI driver must be manually installed via Helm.
- D. A RoleBinding must be created to grant the default ServiceAccount use access to this class.

**Answer: A**

### NEW QUESTION # 18

A Security Architect requires a Private Image Registry (Harbor) to be deployed as a Supervisor Service in a highly secure, air-gapped environment.

Requirements:

1. The Harbor service must use a custom TLS certificate signed by the internal Corporate CA (corp-ca.pem), not a self-signed one.
2. All TKG clusters in the environment must automatically trust this registry.

Review the deployment strategy:

- Step 1: Upload the Harbor Service Definition to vCenter.
- Step 2: Create a vSphere Namespace shared-services.
- Step 3: Enable the Harbor service on shared-services.

Which additional configuration steps are necessary to satisfy the security requirements? (Select all that apply.)

- A. The TKG clusters must be manually patched with the CA certificate after deployment using SSH.
- **B. During the Harbor Service installation wizard, upload the server.crt (signed by Corp CA) and server.key in the "Certificate" section.**
- **C. Ensure the TkgServiceConfiguration (or global Supervisor Trust settings) includes the corp-ca.pem in the trust.additionalTrustedCAs list. This ensures all future TKG clusters provisioned by this Supervisor will have the CA injected into their nodes and can pull images from the Harbor registry without x509 errors.**
- D. The Harbor service cannot use custom certificates; it only supports self-signed.
- E. No certificate configuration is needed; vCenter's VMCA will automatically sign the Harbor certificate, which is trusted by default.

**Answer: B,C**

#### NEW QUESTION # 19

A Cloud Architect is designing a storage strategy for a Zonal Supervisor deployment across 3 Availability Zones (Zone-1, Zone-2, Zone-3) to support a highly available Kafka cluster.

Requirements:

1. Kafka brokers will be distributed across all 3 zones.
2. Each broker needs a persistent volume for data.
3. If a pod in Zone-1 fails and is rescheduled to Zone-1 (same zone), it must re-attach to its data.
4. If Zone-1 fails completely, the architecture does NOT require the data from Zone-1 to be accessible in Zone-2 (Kafka handles app-level replication).
5. Storage management must be automated via Kubernetes.

Which storage policy design best meets these requirements while minimizing cross-zone latency and cost? (Select all that apply.)

- **A. Configure the Kafka StatefulSet to use the zonal-storage class. When a pod is scheduled to a node in Zone-1, the CSI driver (via delayed binding) will automatically provision the volume on the datastore in Zone-1 to satisfy the topology constraint.**
- B. Create three distinct vSphere Storage Policies (e.g., local-zone-1, local-zone-2, local-zone-3), each tagged to use only the local datastores within its respective zone.
- **C. Use a Topology-Aware Storage Class. This can be achieved by using a single Storage Policy (e.g., zonal-storage) that is compatible with storage in all zones, and relying on the WaitForFirstConsumer volume binding mode.**
- D. Use a vSAN Stretched Cluster policy that replicates data synchronously across all zones.
- E. Assign all three zonal policies to the kafka-namespace.

**Answer: A,C**

#### NEW QUESTION # 20

A Cloud Administrator is architecting a vSphere with Tanzu environment. They must decide on the appropriate Load Balancer topology to support a requirement for fully isolated network segments for different tenants (Namespaces), ensuring no shared routing infrastructure between tenants.

Review the following available Load Balancer integration options:

A: HAProxy with Frontend Network topology

B: NSX Advanced Load Balancer (Avi) with Default Gateway topology

C: NSX Load Balancer (integrated)

D: HAProxy with Basic topology

Which of these options satisfy the requirement for tenant network isolation? (Select all that apply.)

- A. Option D
- **B. Option B**
- C. Option A
- **D. Option C**

**Answer: B,D**

#### NEW QUESTION # 21

.....

Everybody wants success, but not everyone has a strong mind to persevere in study. If you feel unsatisfied with your present status, our 3V0-24.25 actual exam can help you out. Our 3V0-24.25 exam questions always boast a pass rate as high as 99%. Using our study materials can also save your time in the exam preparation. If you choose our 3V0-24.25 Test Engine, you are going to get the certification easily. Just make your choice and purchase our 3V0-24.25 study materials and start your study right now! Knowledge, achievement and happiness are waiting for you!
