## 2026 Newest 100% Free 1Z0-1163-1 – 100% Free Reliable Exam Cram | Reliable 1Z0-1163-1 Braindumps Questions

The 1Z0-1163-1 study questions included in the different versions of the PDF, Software and APP online which are all complete and cover up the entire syllabus of the exam. And every detail of these three versions are perfect for you to practice and prepare for

the exam. If you want to have a try before you pay for the 1Z0-1163-1 Exam Braindumps, you can free download the demos which contain a small part of questions from the 1Z0-1163-1 practice materials. And you can test the functions as well.

## Oracle Fusion Cloud Applications SCM Foundations Associate - Rel 1 Sample Questions (Q19-Q24):

### NEW QUESTION # 19

Which feature in Oracle Fusion Cloud SCM provides real-time order promising based on supply and demand constraints?

- A. Cost Accounting.
- B. Manufacturing Execution.
- C. Supplier Portal.
- **D. Global Order Promising.**

**Answer: D**

Explanation:

Global Order Promising (A) provides real-time order promising by analyzing supply (inventory, production) and demand (orders, forecasts) constraints across the enterprise. For instance, if a customer requests 100 units and only 80 are available with a 2-day production lead time, GOP promises delivery in 2 days. Option B (Supplier Portal) supports collaboration, not promising. Option C (Manufacturing Execution) tracks production, not order commitments. Option D (Cost Accounting) handles financials. GOP enhances customer trust and planning accuracy by delivering feasible, data-driven promises.

### NEW QUESTION # 20

What is the primary purpose of the Production Order to Cost Update OMBP in Oracle Fusion Cloud SCM?

- A. It automates the production process without human supervision.
- **B. It provides accurate cost calculations for better decision-making.**
- C. It enhances customer relationship management.
- D. It ensures immediate financial benefits through real-time cost updates.

**Answer: B**

Explanation:

The Production Order to Cost Update OMBP (D) in Oracle Fusion Cloud SCM focuses on providing accurate cost calculations by capturing and updating costs associated with production orders-materials, labor, and overhead-enabling better decision-making. For instance, if producing 100 units costs \$1,000 (e.g., \$500 materials, \$300 labor, \$200 overhead), this process ensures the total is reflected accurately, allowing managers to adjust pricing or reduce costs. Option A is misleading-while cost updates occur, the primary purpose is accuracy, not immediate financial gains, which are an outcome. Option B is incorrect-customer relationship management is unrelated to production costing. Option C overstates automation; human oversight is still required, and the focus is on cost, not process automation. Accurate cost data supports profitability analysis, budgeting, and strategic planning, making it a critical link between manufacturing and financial management.

### NEW QUESTION # 21

Which feature in Oracle Fusion Cloud SCM ensures that supply planning recommendations reflect the latest supplier information?

- A. Implementing manual verification of supplier information.
- B. Increasing reorder points in inventory management.
- C. Using separate forecasting models for procurement and supply chain planning.
- **D. Real-time Supplier Collaboration.**

**Answer: D**

Explanation:

Real-time Supplier Collaboration (C) in Oracle Fusion Cloud SCM ensures supply planning reflects the latest supplier information by integrating live data-e.g., lead times, inventory availability-via tools like the Supplier Portal. If a supplier updates a lead time from 5 to 7 days, planning adjusts instantly. Option A (increasing reorder points) is a static fix, not real-time. Option B (manual verification) contradicts automation goals. Option D (separate models) fragments planning, reducing accuracy. For example, real-time updates might prevent a stockout by rescheduling a delayed shipment, enhancing agility and precision in supply plans.

### NEW QUESTION # 22

What is a key benefit of Supplier Qualification Management in Oracle Fusion Cloud SCM?

- A. It eliminates supplier performance reviews.
- **B. It assesses and approves suppliers based on compliance and performance criteria.**
- C. It only tracks supplier payments.

**Answer: B**

Explanation:

Supplier Qualification Management in Oracle Fusion Cloud SCM evaluates and approves suppliers based on predefined compliance and performance criteria, ensuring reliable partnerships. Option A is incorrect as it focuses on payments, not qualification. Option C is wrong-performance reviews are integral to the process. This benefit mitigates risks and ensures quality suppliers.

### NEW QUESTION # 23

What is the function of Cost Rollup in Oracle Fusion Cloud SCM?

- A. It tracks only direct labor expenses, excluding materials.
- **B. It calculates the total cost of a product by aggregating material, labor, and overhead expenses.**
- C. It ensures material costs remain unchanged over time.

**Answer: B**

Explanation:

Cost Rollup in Oracle Fusion Cloud SCM aggregates all cost components-material, labor, and overhead-to calculate the total cost of a product. This process rolls up costs from raw materials through production stages, providing a comprehensive view for pricing and profitability analysis. For example, producing a widget might involve \$5 in materials, \$3 in labor, and \$2 in overhead; Cost Rollup totals this to \$10 per unit. Option B is incorrect because it excludes materials and overhead, which are integral to the process. Option C is false-Cost Rollup reflects current costs, not fixed values, adapting to fluctuations like material price changes. This function supports accurate financial reporting, cost control, and strategic decision-making by revealing true production costs.

### NEW QUESTION # 24

.....

When they will be giving their final examination to get Oracle 1Z0-1163-1 certification they don't struggle much and do it easily. The results of the customizable 1Z0-1163-1 exam dumps can then be used to identify areas of strength and weakness and to create a personalized study plan that focuses on improving in the areas that need the most work. Taking 1Z0-1163-1 Practice Tests regularly could help individuals build their confidence, reduce test anxiety, and improve their overall performance.
