what is essential for exam syllabus, our experts made great contributions to them. All CIS-HAM Practice Engine is highly interrelated with the exam. You will figure out this is great opportunity for you.

ServiceNow Certified Implementation Specialist - Hardware Asset Management Sample Questions (Q87-Q92):

NEW QUESTION # 87

What original costs are involved in purchasing an asset and putting it into use? (Choose three.)

- A. Spare parts
- B. Storage
- C. Maintenance
- D. Lease
- E. Delivery

Answer: A,C,D

NEW QUESTION # 88

What is the process of restructuring data to maintain consistency?

- A. Service Mapping
- B. Normalization
- C. Integration
- D. Discovery

Answer: B

Explanation:

Normalization is the process of restructuring data to maintain consistency, accuracy, and completeness across different sources and systems. Normalization helps to eliminate data duplication, conflicts, and errors, and to ensure that the data conforms to predefined standards and rules. Normalization is especially important for hardware asset management, as it enables users to have a clear and unified view of their hardware models, manufacturers, product names, device types, and other attributes. ServiceNow Hardware Asset Management provides a feature called Hardware Model Normalization, which allows users to normalize the details of their hardware and consumable models using predefined or custom rules, data sources, and schedules. Hardware Model Normalization can be accessed from the Hardware Asset Management application menu in the ServiceNow platform1. NEW QUESTION # 89

What plugin helps alleviate inconsistencies in company names?

- A. Extended CMDB
- B. Contract Management
- C. Data Certification
- D. Normalization Data Services

Answer: D

Explanation:

The plugin that helps alleviate inconsistencies in company names is the Normalization Data Services plugin, which is part of the ServiceNow IT Asset Management suite1.

The Normalization Data Services plugin provides a set of features and capabilities that enable you to standardize and normalize data across various tables and fields in ServiceNow, such as manufacturer names, model names, software names, and company names12.

The Normalization Data Services plugin uses a combination of rules, dictionaries, and algorithms to identify and correct data inconsistencies, such as spelling errors, abbreviations, synonyms, and duplicates12.

The Normalization Data Services plugin can help you improve the quality and accuracy of your data, reduce manual efforts and errors, and enhance reporting and analysis12. Reference:

2: Normalization Data Services - ServiceNow

NEW QUESTION # 90

What are the two primary benefits of deploying asset tasks during the retirement of an asset? (Choose two.)

- A. Increases speed of updates
- B. Reduces process cost
- C. Reduces field agent training
- D. Reduces manual intervention
- E. Increases data accuracy

Answer: D,E

Explanation:

Deploying asset tasks during the retirement of an asset means using the ServiceNow Enterprise Asset Workflow Automation feature, which automates the end-of-life procedures for assets that are no longer needed or functional.

This feature allows you to flag assets as retired pending disposal, triggering a workflow that verifies the asset condition, determines the disposal method, and saves the disposal certificates1.

The two primary benefits of deploying asset tasks during the retirement of an asset are:

Reduces manual intervention: By automating the retirement process, you can eliminate the need for manual data entry, human errors, and delays. You can also ensure compliance with policies and regulations by following a standardized procedure12.

Increases speed of updates: By using the ServiceNow Agent mobile app, you can scan asset tags and barcodes, update asset status and inventory, and complete asset tasks on the go. This can increase the speed and accuracy of asset updates and reduce the risk of data loss or duplication13. Reference:

1: Enterprise Asset Workflow Automation - ServiceNow

2: Asset and CI management - Product Documentation: San Diego - ServiceNow

3: Enterprise Asset Management - ServiceNow

NEW QUESTION # 91

To access the full spectrum of asset management functionality, which inactive plugins should be installed?

(Choose five.)

- A. Hardware Asset Management
- B. Data Certification
- C. Service Mapping
- D. Cost Management
- E. Procurement
- F. Discovery
- G. Managed Documents

Answer: A,B,D,E,G
