

# Valid New CDCP Test Blueprint & The Best Materials Provider PDFBraindumps to help you pass CDCP: Certified Data Centre Professional (CDCP)

**NEW QUESTION # 35**

Which type of Humidifier suspends quartz lamps over an open pool of water?

- A. Ultrasonic Humidifier
- B. Steam Canister Humidifier
- C. Infrared Humidifiers
- D. Water Canister Humidifier

**Answer: C**

**NEW QUESTION # 36**

To be well-prepared, you require trustworthy and reliable PracticeVCE practice material. You also require accurate PracticeVCE study material to polish your capabilities and improve your chances of passing the Exin-CDCP Certification Exam. PracticeVCE facilitates your study with updated EXIN Exin-CDCP exam dumps.

**Knowledge Exin-CDCP Points:**

*Reliable Reliable Exin-CDCP Test Cost Supply you Verified Knowledge Points for Exin-CDCP: Certified Data Centre Professional to Prepare easily*

P.S. Free & New CDCP dumps are available on Google Drive shared by PDFBraindumps: <https://drive.google.com/open?id=1MiNQ8vTarqbLXe8tcDWX7IOgW821K0sU>

We provide you with free update for 365 days for CDCP study guide after purchasing, and the update version will be sent to your email automatically, you just need to check your email for the update version. In addition, we have a professional team to compile and review CDCP exam materials, therefore the quality can be guaranteed, and you can use them at ease. CDCP Exam Materials cover most of the knowledge points for the exam, and you can master the major knowledge points for the exam as well as improve your professional ability in the process of learning.

## EXIN CDCP Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> <li>• Designing a Scalable Network Infrastructure: It covers ANSI</li> <li>• TIA-942 cabling hierarchy, network redundancy, structured Cabling System, and planning considerations.</li> </ul>

Topic 2	<ul style="list-style-type: none"> <li>• <b>Cooling Infrastructure:</b> The topic focuses on liquid immersion cooling, supplemental cooling options, sensible and latent heat definitions, and temperature and humidity recommendations.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>• <b>Equipment Racks:</b> It discusses power rail</li> <li>• strip options, security considerations, and rack standards, properties and selection criteria.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>• <b>Raised Floor</b></li> <li>• <b>Suspended Ceiling:</b> The topic discusses applicable standards, signal reference grid, and disability act and regulations.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>• <b>Power Infrastructure:</b> It focuses ATS and STS systems, redundancy levels and techniques, static and dynamic UPS systems, battery types, thermo-graphics, and renewable energy factor (REF).</li> </ul>
Topic 6	<ul style="list-style-type: none"> <li>• <b>Auxiliary Systems:</b> The topic covers water leak detection systems, data centre monitoring requirements, EMS, BMS and DCIM.</li> </ul>
Topic 7	<ul style="list-style-type: none"> <li>• <b>Data Centre Location, Building and Construction:</b> It focuses on appropriate sites and components of an effective data centre and supporting facilities setup.</li> </ul>
Topic 8	<ul style="list-style-type: none"> <li>• <b>Water Supply:</b> This topic is all about water supply techniques and application areas.</li> </ul>
Topic 9	<ul style="list-style-type: none"> <li>• <b>Physical Security and Safety:</b> Sub-topics are about physical security considerations and physical safety considerations.</li> </ul>

## CDCP Latest Exam Discount - High CDCP Quality

Your eligibility of getting a high standard of career situation will be improved if you can pass the exam, and our CDCP practice materials are your most reliable ways to get it. You can feel assertive about your exam with our 100 guaranteed professional CDCP practice materials, let along various opportunities like getting promotion, being respected by surrounding people on your profession's perspective. All those beneficial outcomes come from your decision of our CDCP practice materials. We are willing to be your side offering whatever you need compared to other exam materials that malfunctioning in the market.

## EXIN Certified Data Centre Professional (CDCP) Sample Questions (Q19-Q24):

### NEW QUESTION # 19

Which one of the following is a device that uses circulating chilled water to remove heat?

- **A. Computer Room Air Handling Unit (CRAH)**
- B. Computer Room Air System Unit (CRAS)
- C. Computer Room Air Suspension Unit (CRAS)
- D. Computer Room Air Suppression Unit (CRAS)

**Answer: A**

Explanation:

A computer room air handling unit (CRAH) is a device that uses circulating chilled water to remove heat from the data center environment. A CRAH consists of a fan, a coil, and a filter. The fan draws the warm air from the data center and passes it through the coil, where the heat is transferred to the chilled water. The chilled water is supplied by a chiller or a cooling tower, and the cooled air is returned to the data center. A CRAH is different from a computer room air conditioning unit (CRAC), which uses a refrigerant instead of chilled water to cool the air.

### NEW QUESTION # 20

Where should exit/emergency signs be located?

- A. At each door
- **B. At every escape door and pathways leading to doors (arrows)**
- C. In the Computer room only
- D. Depends on the policy of the data centre

**Answer: B**

Explanation:

According to the EPI Data Centre Operations Standard (DCOS), exit/emergency signs should be located at every escape door and pathways leading to doors (arrows) to ensure a safe and quick evacuation in case of an emergency<sup>1</sup>. This is also consistent with the best practices for data centre emergency preparedness and response, which recommend having a clear and visible signage system for emergency exits<sup>23</sup>.

### NEW QUESTION # 21

What is the purpose of a service corridor?

- A. It provides a safe, vented and secure area where standby generators can operate safely.
- B. To create a secure and conditioned environment where media can be stored in a controlled manner.
- **C. It provides a secure area where supporting facilities can be serviced and monitored on a 24x7 basis without disturbing the computer room.**
- D. It is a generic name for pathways leading to other rooms that contains facility supporting equipment like the UPS room, battery room, generator room etc.

**Answer: C**

Explanation:

A service corridor is a dedicated space within or adjacent to a data centre that allows access to the supporting facilities, such as power, cooling, fire suppression, security, and cabling systems, without interfering with the computer room operations. A service corridor helps to isolate the noise, vibration, heat, and dust generated by the supporting facilities from the sensitive equipment in the computer room. A service corridor also enhances the safety and efficiency of the maintenance and monitoring activities, as well as the flexibility and scalability of the data centre design.

### NEW QUESTION # 22

Does shielded twisted pair network cabling provide protection against EMF from power cables?

- A. No, the shielding for twisted pair network cabling is for physical protection against vandalism and accidental cutting of the cable.
- B. Yes, but only if the power cable is placed in a tre-foil cable arrangement.
- **C. No, the shielding is designed for alien cross-talk between network cables, it provides no or little protection against low frequency EMF.**
- D. Yes, as the shielding for twisted pair network cabling is specifically design for low frequency EMF protection.

**Answer: C**

Explanation:

Shielded twisted pair cables (STP) are Ethernet cables that feature additional protection against electromagnetic interference from external sources, such as radio waves, microwaves, or other network cables.

This is achieved by wrapping each pair of wires with a conductive shield, usually made of foil or braided wire, and then enclosing the entire cable with another shield layer. However, this shielding is not effective against low frequency electromagnetic fields (EMF) from power cables, which can induce currents and voltages in the network cables and cause signal distortion or data loss. Low frequency EMF can only be reduced by increasing the distance between the power and network cables, or by using a tre-foil cable

arrangement, which is a special configuration of three power cables twisted together to cancel out the magnetic fields they generate. ### NEW QUESTION # 23

Which design consideration should be implemented with an Inergen-based fire suppression system?

- A. Install the gas containers (tanks) close to the data centre.
- **B. Pressure relief valves are required in the room that needs protection.**
- C. Install protective covers around the nozzles to avoid accidental gas dumps.
- D. To use Inergen only for fires which are not related to electrical power.

**Answer: B**

Explanation:

A design consideration that should be implemented with an Inergen-based fire suppression system is to install pressure relief valves in the room that needs protection. Inergen is a clean agent fire suppression system that uses a mixture of inert gases (nitrogen, argon, and carbon dioxide) to displace the oxygen in the room and extinguish the fire. However, when Inergen is released into the room, it creates a sudden increase in pressure, which can damage the walls, doors, windows, and ceilings of the room. To prevent this, pressure relief valves are required to vent the excess pressure to the outside and maintain a safe pressure level inside the room. Pressure relief valves should be designed and installed in accordance with the relevant standards and codes, such as NFPA 2001 and ISO 14520.

### NEW QUESTION # 24

.....

If you are a college student, you can learn and use online resources through the student learning platform over the CDCP study materials. And for an office worker, the CDCP study engine is designed to their different learning arrangement as well, such extensive audience greatly improved the core competitiveness of our CDCP practice quiz, which is according to their aptitude, on-demand, maximum to provide users with better suited to their specific circumstances.
