Note: There are 2 correct answers to this question.

- A. If there are NO valid conditions, the system can propose the price from the last purchase order, if available.
- B. The system always proposes the price slotec al purchasing organization level, if available
- C. The system always proposes the valid plan'-specific if available.
- D. The system always proposes the price from the last purchase order. If availabe.

Answer: A,D

Explanation:
Explanation
To determine a price from the info record, the system uses the following logic:
The system always proposes the valid plant-specific price, if available. This means that if there is an info record for the material and supplier combination at plant level, the system will use the price from that info record.
If there are no valid conditions, the system can propose the price from the last purchase order, if available. This means that if there is no info record or no valid price in the info record, the system will use the price from the most recent purchase order for the same material and supplier combination.
