Salesforce Certified Experience Cloud Consultant Sample Questions (Q151-Q156):

NEW QUESTION # 151

Which two statements regarding data categories are true?
Choose 2 answers

- A. Child roles cannot see more data categories than their parent role. If the parent role's visibility changes, the child role's category visibility is reset to its parent's category visibility.
- B. Translated articles will not follow the master article data category. Therefore, translated articles can be assigned to a different data category.
- C. When a category is made visible to a user through custom settings or is made visible by default, its child and parent categories are not included.
- D. Customer Portal users and partner portal users inherit data category visibility settings of the role assigned to their account (owner) managers by default.

Answer: A,D

NEW QUESTION # 152

Ursa Major Solar (UMS) is using the Customer Account Portal template where both customers and employees can log in to view information about the company. UMS would like the Home page to showcase internal resources at the top for its employees, and would like self-help resources to be available for logged-in customers. UMS wants to exclude employee resources from the layout of the Home page when customers are logged in.

Which functionality should UMS utilize to showcase the Home page in different ways?

- A. Case Feeds
- B. Developer Console
- C. Page Variations
- D. Sharing Sets

Answer: C

Explanation:

This option allows UMS to showcase the Home page in different ways for its employees and customers. Page variations are different versions of a page with different layouts, components, and content. UMS can create page variations for the Home page and use audience targeting to display different variations to different audiences based on user attributes, such as profile or user type3

NEW QUESTION # 153

Get Cloudy Consulting is implementing an equity management solution for one of its financial clients. The solution will enable the external independent financial researchers to collaborate with internal portfolio control staff in a private Chatter group.

What should the Experience Cloud consultant recommend to meet the requirements for both personas?

- A. Create a portal for external researchers and give internal staff access to the main org.
- B. Create a portal for external researchers and create an app for internal staff.
- C. Create a portal for external researchers and give internal staff access to the portal.
- D. Give external researchers and internal staff access to the main org.

Answer: A

NEW QUESTION # 154

Universal Containers has recently launched a site for its retailers. Retailers able to collaborate with other retailers around topic; however, retail managers aren't able to see records owned by their peers and subordinates.

What should be done to resolve the issue?

- A. Retail managers need to be given super User access.
- B. Retail managers needs to be put in the execute role in the Role Hierarchy
- C. A Sharing Set needs to be created.
- D. A sharing Rule needs t be created.

Answer: C

NEW QUESTION # 155

Northern Trail Outfitters (NTO) is evaluating Experience Cloud for creating an onboarding app for new hires.

Which two things should NTO consider when creating the onboarding app? Calculator Choose 2 answers

- A. Employee apps are only available in Unlimited Edition.
- B. Chatter posts related to a record will be available in the employee app as well as the main org.
- C. Not all Chatter posts inside Chatter groups within the employee app will be available in the main org.
- D. Experience Cloud cannot be used for employee apps.

Answer: B,C

Explanation:

Experience Cloud can be used for employee apps, such as an onboarding app for new hires. However, there are some considerations when creating an employee app, such as:

* Not all Chatter posts inside Chatter groups within the employee app will be available in the main org.

Only posts in public groups or groups that are shared with the main org will be visible in both places.

* Chatter posts related to a record will be available in the employee app as well as the main org.

However, users need to have access to the record in both places to see the posts.
