Valid CCFA-200b Test Answers | Valid Braindumps CCFA-200b Pdf

Our CCFA-200b Exam Braindumps have a broad market in most countries we have due to the high quality of the CCFA-200b exam dumps. The feedback of the customers is quite good since the pass rate is high, it helps them a lot. Some customers even promote our product to their friends or even colleges after they pass it. We offer free update for one year, it will help you to change your practicing ways in accordance with the dynamics of the exam.

CrowdStrike CCFA-200b Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Host Management and Setup: This domain addresses filtering and organizing hosts, disabling detections and understanding their effects, managing Reduced Functionality Mode situations, locating inactive sensors and their retention, and utilizing relevant management reports.
Topic 2	<ul style="list-style-type: none">• Group Creation: This domain covers assigning endpoints to appropriate groups for policy application and following best practices for managing host group structures.
Topic 3	<ul style="list-style-type: none">• Sensor Deployment: This domain focuses on verifying installation prerequisites, applying default policies and best practices, uninstalling sensors, and troubleshooting sensor issues across supported operating systems.

- Workflows: This domain focuses on configuring automated workflows that execute predefined actions when specific triggers or conditions are met.

CrowdStrike Falcon Administrator Sample Questions (Q175-Q180):

NEW QUESTION # 175

What is the purpose of the "Auto - Latest" setting in a sensor update policy?

- A. This setting automatically assigns new hosts that come online to this policy
- B. This setting automatically assigns the latest Indicator of Attack (IOA) profiles and Next-Gen Antivirus (NGAV) machine learning to the selected endpoints ensuring the highest level of security
- C. This setting overrides any user confirmation/interaction and applies the selected policy
- D. This setting will cause all assigned hosts to be updated to the most current version as soon as it becomes available

Answer: D

NEW QUESTION # 176

By default, how many days without successful communication must pass before a host no longer appears in the Falcon console?

- A. 0
- B. 1
- C. The exact number of days is set by your data retention period
- D. 2

Answer: A

NEW QUESTION # 177

When a host belongs to more than one host group, how is sensor update precedence determined?

- A. The highest precedence policy from the most important group is applied to the host
- B. Sensors of hosts that belong to more than one group must be manually updated
- C. Groups have no impact on sensor update policies
- D. All of the host's groups are examined in aggregate and the policy with highest precedence is applied to the host

Answer: D

Explanation:

The option that describes how sensor update precedence is determined when a host belongs to more than one host group is that all of the host's groups are examined in aggregate and the policy with highest precedence is applied to the host. A Sensor Update policy is a policy that controls how and when the Falcon sensor is updated on a host. You can create and assign custom Sensor Update policies to different hosts or groups in your environment. Each Sensor Update policy has a precedence value, which determines its priority over other policies. The higher the precedence value, the higher the priority. If a host belongs to more than one host group, each with a different Sensor Update policy assigned, then all of the host's groups are examined in aggregate and the policy with highest precedence among them is applied to the host.

NEW QUESTION # 178

What is the goal of a Network Containment Policy?

- A. Limit the impact of a compromised host on the network
- B. Partition a network for privacy
- C. Gain more visibility into network activities
- D. Increase the aggressiveness of the assigned prevention policy

Answer: A

Explanation:

The goal of a Network Containment Policy is to limit the impact of a compromised host on the network. This policy allows users to isolate a host from the network, while still allowing it to communicate with the Falcon Cloud and other essential services. This can help prevent further damage or data exfiltration from a compromised host. The other options are either incorrect or not related to the policy.

NEW QUESTION # 179

The Logon Activities Report includes all of the following information for a particular user EXCEPT _____.

- A. all hosts the user logged into
- B. the logon type (e.g. interactive, service)
- C. the account type for the user (e.g. Domain Administrator, Local User)
- D. the last time the user's password was set

Answer: A

Explanation:

Checked in console, it returns only the last machine where the user logged on, so it will not return all the machines that the user was logged on in the desired search.

NEW QUESTION # 180

.....

The CrowdStrike wants to win the trust of CrowdStrike CCFA-200b exam candidates at any cost. To do this the CrowdStrike is offering some important features with CrowdStrike CCFA-200b exam. These CCFA-200b Exam Questions features are valid, updated, and real CrowdStrike CCFA-200b exam questions, availability of CrowdStrike CCFA-200b exam questions in three different formats.
