PL-400 Pass Guide - PL-400 Exam Answers

Preparing for the PL-400 exam can be a daunting task, but with real PL-400 exam questions, it can be a lot easier. The importance of actual Microsoft Power Platform Developer (PL-400) questions cannot be overemphasized. PL-400 Real Questions are crucial for passing the PL-400 exam. When candidates have access to the updated Microsoft PL-400 practice test questions, they are better prepared to succeed.

Microsoft Power Platform Developer Sample Questions (Q113-Q118):

NEW QUESTION # 113

The communication department for a company plans to add a publicly accessible survey page to the company's public website. You must add the new survey page to the company's public website and capture data from the page to a Common Data Service environment.

Explicit user credentials must not be required to write survey data to Common Data Service.

You need to implement authentication.

Which authentication mechanism should you implement?

- A. Microsoft 365
- B. OAuth2.0
- C. X.509 certificate
- D. Claims-based

Answer: B

Explanation:

OAuth is the preferred means to authenticate because it provides access to both the OData RESTful web services (Web API and OData global Discovery service) as well as to the SOAP web services (Organization service and Discovery service).

OAuth is also required to support:

Azure Active Directory configurations for conditional access, such as Two-factor Authentication (2FA) Use of client secrets to enable server-to-server authentication scenarios.

Cross-Origin Resource Sharing (CORS) to connect a Single-page Application (SPA) Incorrect Answers:

A: Using Microsoft 365 authentication does not require that you register your applications as OAuth does. You must simply provide a User Principal Name (UPN) and password for a valid user.

<https://docs.microsoft.com/en-us/powerapps/developer/data-platform/authentication>

NEW QUESTION # 114

You need to design functionality to process background check results.

What should you implement? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

☐

Answer:

Explanation:

☐

NEW QUESTION # 115

Five high schools test a custom app from AppSource. They provide feedback that the Course credit entity should include additional fields that cover information shared by the schools.

You do not have access to each high school organization.

Each high school administrator must be able to apply the updates to the Course credit entity.

You need to deliver a custom program that creates the additional fields.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

☐

Answer:

Explanation:

☐

Explanation:

☐ Step 1: Call the login logic.
 Step 2: Retrieve the Course credit entity metadata by using RetrieveEntityRequest with EntityFilters = Attributes and LogicalName
 The RetrieveEntityRequest.EntityFilters property gets or sets a filter to control how much data for the entity is retrieved.
 Step 3: Define the AttributeMetaData for each new field.
 Step 4: Call the RetrieveAttributeRequest with LogicalName for each new field.
 The RetrieveAttributeRequest contains the data that is needed to retrieve attribute metadata.

NEW QUESTION # 116

You are creating a Power Apps connector between Dynamics 365 Sales and Slack You must generate a Slack notification whenever a new product is added to Dynamics 365 Sales. You must not be required to sign in directly into Dynamics 365 Sales to generate notifications. You created a Power Apps connector between Dynamics 365 Sales in Slack to enable this to happen. You need to configure the appropriate security for each scenario?
 Which security components should you configure?
 NOTE: Each correct selection is worth one point.

Answer:

Explanation:
☐ Explanation
☐

NEW QUESTION # 117

A company is creating a new system based on Common Data Service.
 You need to select the features that meet the company's requirements.
 Which options should you use? To answer, drag the appropriate options to the correct requirements. Each option may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
 NOTE: Each correct selection is worth one point.

Answer:

Explanation:
☐
