P.S. Free & New AIGP dumps are available on Google Drive shared by ExamPrepAway: https://drive.google.com/open?id=1jpLyDmOuNxAc_zwAU2Uh8DU1VigmZhr5

It is our company that can provide you with special and individual service which includes our AIGP preparation quiz and good after-sale services. Our experts will check whether there is an update on the question bank every day, so you needn't worry about the accuracy of study materials. If there is an update system, we will send them to the customer automatically. As is known to all, our AIGP simulating materials are high pass-rate in this field, that's why we are so famous. If you are still hesitating, our AIGP exam questions should be wise choice for you.

Our PDF version of AIGP training materials is legible to read and remember, and support printing request. Software version of AIGP practice materials supports simulation test system, and give times of setup has no restriction. Remember this version support Windows system users only. App online version of AIGP Exam Questions is suitable to all kinds of equipment or digital devices and supportive to offline exercise on the condition that you practice it without mobile data.

AIGP IAPP Certified Artificial Intelligence Governance Professional Web-Based Practice Exam

If you are one of them buying our AIGP exam prep will help you pass the exam successfully and easily. Our IAPP guide torrent provides free download and tryout before the purchase and our purchase procedures are safe. Our AIGP exam torrent carries no viruses. We provide free update and online customer service which works on the line whole day. Our study materials provide varied versions for you to choose and the learning costs you little time and energy. You can use our AIGP Exam Prep immediately after you purchase them, we will send our product within 5-10 minutes to you.

IAPP Certified Artificial Intelligence Governance Professional Sample Questions (Q32-Q37):

NEW QUESTION # 32

All of the following are required for high-risk AI systems under the EU AI Act EXCEPT?

- A. Retaining system-generated logs for at least six months.
- B. Conducting a conformity assessment.
- C. Publishing a detailed report on the training data used.
- D. Conducting post-market monitoring.

Answer: C

Explanation:

The EU AI Act imposes several mandatory obligations on high-risk AI systems, but publishing a detailed report on training

data is not one of them.

From the AI Governance in Practice Report 2024:

"It mandates drawing up technical documentation for high-risk AI systems, and requires high-risk AI systems to come with instructions for use that disclose various information, including characteristics, capabilities and performance limitations." (p. 34)
"To make high-risk AI systems more traceable, it also requires AI systems to be able to automatically allow for the maintenance of logs throughout the AI life cycle."

"Conducting post-market monitoring" and "conformity assessments" are explicit requirements for high-risk systems. (p. 34-35)
However, publishing detailed training data is typically required only for general-purpose AI systems with systemic risk, not standard high-risk AI systems.

* A. Log retention
B. Post-market monitoring, and
C. Conformity assessments are all required under the EU AI Act for high-risk systems.

NEW QUESTION # 33

Scenario:

A financial services company is planning a new AI project to assess creditworthiness. The AI team is mapping out what tasks should be completed during the planning phase of the AI lifecycle.

The planning phase of the AI lifecycle includes all of the following EXCEPT:

- A. Context in which the model will operate
- B. **Choice of the architecture**
- C. Definition of underlying assumptions
- D. Approach to governance

Answer: B

Explanation:

The correct answer is C. The choice of architecture (e.g., neural networks vs. decision trees) is typically part of the design and development phase, not the initial planning.

From the AIGP Body of Knowledge - AI Lifecycle Module:

"Planning involves scoping, context definition, stakeholder identification, governance planning, and assumptions-not yet model selection." Confirmed in the ILT Participant Guide:

"Design decisions such as architecture or algorithm type come after planning-usually during development based on technical feasibility and data availability."

NEW QUESTION # 34

Which of the following is an obligation of an importer of high-risk AI systems under the EU AI Act?

- A. Provide technical documentation.
- B. Affix the CE marking.
- C. **Verify the Declaration of Conformity.**
- D. Conduct a data protection impact assessment.

Answer: C

Explanation:

Importers of high-risk AI systems into the EU have specific responsibilities under the EU AI Act. They are not the parties responsible for affixing the CE marking or providing technical documentation-but they must verify that these have been done by the provider.

From the AI Governance in Practice Report 2025:

"Importers must verify that the appropriate conformity assessment has been carried out, the technical documentation is available, and the CE marking has been affixed." (p. 34-35) Thus:

- * A. Provide technical documentation- done by the provider.
- * B. Affix the CE marking- provider's responsibility.
- * C. Verify the Declaration of Conformity- importer obligation.
- * D. Conduct a DPIA- relevant under data protection laws, not required under the EU AI Act for importers.

NEW QUESTION # 35

Scenario:

A public sector agency is reviewing proposed AI use cases for improving services. It wants to prioritize implementations that deliver value but minimize unintended negative consequences.

When evaluating which AI use cases to implement, an organization should consider all of the following EXCEPT:

- A. Equitable access to the AI tool
- **B. Related TEVV (test, evaluate, verify, validate) and system metrics**
- C. Potential positive and negative impacts of the system
- D. The users and their expectations

Answer: B

Explanation:

The correct answer is A. While TEVV is important in later lifecycle phases, it is not the primary consideration when evaluating and prioritizing use cases.

From the AIGP Body of Knowledge - Use Case Assessment Module:

"Use case evaluation focuses on value, impact, fairness, and accessibility-technical testing considerations come later." ILT Guide confirms:

"Organizations should first assess whether the AI system provides equitable outcomes and aligns with stakeholder expectations. TEVV is part of implementation, not initial prioritization." Thus, A is not a top-level consideration during use case selection.

NEW QUESTION # 36

A company that deploys AI but is not currently a provider or developer intends to develop and market its own AI system. Which obligation would then be likely to apply?

- A. Developing a reporting plan for any observed algorithmic discrimination or harms to individuals' rights and freedoms.
- B. Implementing a risk management framework.
- **C. Developing documentation on the system, the potential risks and the safeguards applied.**
- D. Conducting an impact assessment including a post-deployment monitoring plan.

Answer: C

Explanation:

Once a company moves from being a deployer to also acting as a provider or developer, it assumes new obligations under regulations like the EU AI Act. One of the core requirements for providers is to produce and maintain technical documentation, including descriptions of the model, associated risks, and mitigation strategies.

From the AI Governance in Practice Report 2024:

"Providers of high-risk AI systems must draw up technical documentation demonstrating the system's conformity with the requirements... including potential risks and safeguards applied." (p. 34)

"This documentation must be available before placing the system on the market." (p. 35)

NEW QUESTION # 37

.....

Our company according to the situation reform on conception, question types, designers training and so on. Our latest AIGP exam torrent was designed by many experts and professors. You will have the chance to learn about the demo for if you decide to use our AIGP quiz prep. We can sure that it is very significant for you to be aware of the different text types and how best to approach them by demo. At the same time, our AIGP Quiz torrent has summarized some features and rules of the cloze test to help customers successfully pass their exams. More importantly, you have the opportunity to get the demo of our latest AIGP exam torrent for free, yes, you read that right, and our demo is free. So why still hesitate?
