DOWNLOAD the newest Exam4Free Associate-Cloud-Engineer PDF dumps from Cloud Storage for free:  
[https://drive.google.com/open?id=1OwW6HToBps7sbNFJnsi0N9\\_7BLxiQaQm](https://drive.google.com/open?id=1OwW6HToBps7sbNFJnsi0N9_7BLxiQaQm)

You have the option to change the topic and set the time according to the actual Google Associate Cloud Engineer Exam (Associate-Cloud-Engineer) exam. The Google Associate Cloud Engineer Exam (Associate-Cloud-Engineer) practice questions give you a feeling of a real exam which boost confidence. Practice under real Google Associate Cloud Engineer Exam (Associate-Cloud-Engineer) exam situations is an excellent way to learn more about the complexity of the Google Associate Cloud Engineer Exam (Associate-Cloud-Engineer) exam dumps.

Successful completion of the Google Associate-Cloud-Engineer Exam demonstrates that an individual has the knowledge and skills necessary to deploy and manage applications on GCP. Associate-Cloud-Engineer exam covers a wide range of topics, including creating GCP projects, deploying applications, networking, storage, compute, and security. Candidates who pass the exam will be able to demonstrate their proficiency in using GCP services to design and deploy highly available, scalable, and secure applications. Google Associate Cloud Engineer Exam certification is highly valued in the industry and can open up new job opportunities for individuals seeking to advance their careers in cloud computing.

## Exam Details

The Google Associate Cloud Engineer exam has the duration of 2 hours. Within this allocated time, the test takers will be required to answer around 50 questions. All the items are delivered as in the multiple-select and multiple-choice formats. The candidates can choose the preferred method of exam delivery. They can take an online proctored test from their homes or offices. Alternatively, they can sit for the exam at one of the authorized testing centers. To find a center located near you, use the search on the official website. The exam is available in three languages, including English, Japanese, and Spanish. To register for the test, each student needs to pay the fee of \$125 (plus possible taxes depending on his/her location).

## Associate-Cloud-Engineer Valid Exam Topics - New Associate-Cloud-Engineer Test Question

Exam4Free is responsible for our Associate-Cloud-Engineer study materials. Every exam product of Exam4Free have sold to customer will enjoy considerate after-sales service. If you have problems about our Associate-Cloud-Engineer study materials such as installation, operation and so on, we will quickly reply to you after our online workers have received your emails. We are not afraid of troubles. We warmly welcome to your questions and suggestions on the Associate-Cloud-Engineer Exam Questions. We sincerely hope we can help you solve your problem and help you pass the Associate-Cloud-Engineer exam.

## Google Associate Cloud Engineer Exam Sample Questions (Q12-Q17):

### NEW QUESTION # 12

You have an application server running on Compute Engine in the europe-west1-d zone. You need to ensure high availability and replicate the server to the europe-west2-c zone using the fewest steps possible. What should you do?

- A. Use "gcloud compute instances move" with parameter "--destination-zone europe-west2-c" to move the instance to the new zone.
- B. Create a snapshot from the disk. Create a disk from the snapshot in the europe-west2-c zone. Create a new VM with that disk.
- C. Create a snapshot from the disk. Create a disk from the snapshot in the europe-west1-d zone and then move the disk to europe-west2-c. Create a new VM with that disk.
- D. Use "gcloud" to copy the disk to the europe-west2-c zone. Create a new VM with that disk.

**Answer: B**

Explanation:

A is correct because this makes sure the VM gets replicated in the new zone.

B is not correct because this takes more steps than A.

C is not correct because this will generate an error, because gcloud cannot copy disks.

D is not correct because the original VM will be moved, not replicated.

### NEW QUESTION # 13

Your management has asked an external auditor to review all the resources in a specific project. The security team has enabled the Organization Policy called Domain Restricted Sharing on the organization node by specifying only your Cloud Identity domain. You want the auditor to only be able to view, but not modify, the resources in that project. What should you do?

- A. Create a temporary account for the auditor in Cloud Identity, and give that account the Viewer role on the project.
- B. Ask the auditor for their Google account, and give them the Security Reviewer role on the project.
- C. Ask the auditor for their Google account, and give them the Viewer role on the project.
- D. Create a temporary account for the auditor in Cloud Identity, and give that account the Security Reviewer role on the project.

**Answer: A**

### NEW QUESTION # 14

You will have several applications running on different Compute Engine instances in the same project. You want to specify at a more granular level the service account each instance uses when calling Google Cloud APIs. What should you do?

- A. After starting the instances, use gcloud compute instances update to specify a Service Account for each instance
- B. When creating the instances, specify a Service Account for each instance
- C. When creating the instances, assign the name of each Service Account as instance metadata
- D. After starting the instances, use gcloud compute instances update to assign the name of the relevant Service Account as instance metadata

**Answer: A**

### NEW QUESTION # 15

Your VMs are running in a subnet that has a subnet mask of 255.255.255.240. The current subnet has no more free IP addresses and you require an additional 10 IP addresses for new VMs. The existing and new VMs should all be able to reach each other without additional routes.

What should you do?

- A. Use gcloud to expand the IP range of the current subnet.
- B. Create a new subnet with the same starting IP but a wider range to overwrite the current subnet.
- C. Create a new project. Use Shared VPC to share the current network with the new project.
- D. Delete the subnet, and recreate it using a wider range of IP addresses.

**Answer: A**

Explanation:

<https://cloud.google.com/sdk/gcloud/reference/compute/networks/subnets/expand-ip-range>

### NEW QUESTION # 16

You have a Compute Engine instance hosting a production application. You want to receive an email if the instance consumes more than 90% of its CPU resources for more than 15 minutes. You want to use Google services. What should you do?

- A. 1. Create a Stackdriver Workspace, and associate your GCP project with it.  
2. Write a script that monitors the CPU usage and sends it as a custom metric to Stackdriver.  
3. Create an uptime check for the instance in Stackdriver.
- B. 1. Create a Stackdriver Workspace, and associate your Google Cloud Platform (GCP) project with it.  
2. Create an Alerting Policy in Stackdriver that uses the threshold as a trigger condition.  
3. Configure your email address in the notification channel.
- C. 1. In Stackdriver Logging, create a logs-based metric to extract the CPU usage by using this regular expression: CPU Usage: ([0-9] {1,3})%  
2. In Stackdriver Monitoring, create an Alerting Policy based on this metric.  
3. Configure your email address in the notification channel.
- D. 1. Create a consumer Gmail account.  
2. Write a script that monitors the CPU usage.  
3. When the CPU usage exceeds the threshold, have that script send an email using the Gmail account and smtp.gmail.com on port 25 as SMTP server.

**Answer: C**

### NEW QUESTION # 17

.....

After the user has purchased our Associate-Cloud-Engineer learning materials, we will discover in the course of use that our product design is extremely scientific and reasonable. Details determine success or failure, so our every detail is strictly controlled. For example, our learning material's Windows Software page is clearly, our Associate-Cloud-Engineer Learning material interface is simple and beautiful. There are no additional ads to disturb the user to use the Associate-Cloud-Engineer learning material. Once you have submitted your practice time, Associate-Cloud-Engineer learning Material system will automatically complete your operation.
