Oracle 1Z0-1042-25 exam dumps are important because they show you where you stand. After learning everything related to the Oracle Cloud Infrastructure 2025 Application Integration Professional (1Z0-1042-25) certification, it is the right time to take a self-test and check whether you can clear the Oracle Cloud Infrastructure 2025 Application Integration Professional (1Z0-1042-25) certification exam or not. People who score well on the Oracle Cloud Infrastructure 2025 Application Integration Professional (1Z0-1042-25) practice questions are ready to give the final Oracle Cloud Infrastructure 2025 Application Integration Professional (1Z0-1042-25) exam. On the other hand, those who do not score well can again try reading all the Oracle Cloud Infrastructure 2025 Application Integration Professional (1Z0-1042-25) dumps questions and then give the 1Z0-1042-25 exam.

Oracle 1Z0-1042-25 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Creating Orchestrated Integrations: This section tests the knowledge of Orchestration Developers and Business Process Analysts in managing orchestrated integrations within OIC. It includes using lookups, data mappers, and custom JavaScript libraries, configuring orchestration flow actions, implementing file handling options, and leveraging the fault-handling framework to manage errors effectively.
Topic 2	<ul style="list-style-type: none">Testing, Monitoring, and Troubleshooting Integrations: This section assesses the abilities of Support Engineers and Integration Administrators in managing integration lifecycles. It includes activating and deactivating integrations, testing REST-triggered integrations, importing and exporting integrations, as well as monitoring and troubleshooting integration instances to ensure smooth operations.

Topic 3	<ul style="list-style-type: none"> Getting Started with OIC Integrations: This section of the exam measures the skills of Integration Specialists and Cloud Engineers in understanding the foundational components of Oracle Integration Cloud (OIC). It covers key integration concepts, how integrations work, and web services fundamentals such as WSDL, SOAP, REST, and JSON. The focus is on building a strong understanding of OIC's integration capabilities.
Topic 4	<ul style="list-style-type: none"> Creating Scheduled Integrations: This domain measures the skills of Automation Engineers and Cloud Administrators in defining integration schedules and converting scheduled integrations to app-driven ones. It also includes using scheduled parameters to automate workflows efficiently.
Topic 5	<ul style="list-style-type: none"> Using OIC Connections & Adapters: This section evaluates the expertise of Integration Developers and Solution Architects in creating and configuring OIC connections. It includes setting up trigger and invoke connections, understanding the role of the Connectivity Agent, and effectively using adapters to connect cloud and on-premises applications seamlessly.

Useful 1Z0-1042-25 Actual Test Pdf bring you Well-Prepared 1Z0-1042-25 Reliable Test Bootcamp for Oracle Oracle Cloud Infrastructure 2025 Application Integration Professional

The pass rate of the 1Z0-1042-25 training materials is 99%, we pass guarantee, and if you can't pass, money guarantee for your failure, that is money will return to your account. You just need to send the participation and the failure scanned, money will be returned. We can ensure that your money will be returned, either the certification or the money back. Besides the 1Z0-1042-25 Training Materials include the question and answers with high-quality, you will get enough practice.

Oracle Cloud Infrastructure 2025 Application Integration Professional Sample Questions (Q59-Q64):

NEW QUESTION # 59

You can group one or more Oracle Integration Cloud (OIC) integrations into a single structure called a package. Which statement is NOT true about OIC packages?

- A. You can import packages directly from the Oracle Marketplace.
- B. Packages enable you to easily import and export a group of integrations to and from OIC.
- C. Integrations do not need to be part of a package.
- D. Packages cannot be locked to deny other users access to your integrations.**
- E. New packages can be created by clicking the Create button on the Packages page in the OIC console.
- F. All packages must include at least one integration.

Answer: D

Explanation:

Packages cannot be locked to prevent other users from accessing the integrations within them, unlike projects that can be locked.

NEW QUESTION # 60

As an Oracle Integration Cloud (OIC) specialist, you are tasked with implementing a scheduled integration between two enterprise applications. The client requires that the integration be run every weekday at 3:00 PM to synchronize data between the systems. Which advanced scheduling configuration expression will you use?

- A. "FREQ=DAILY;BYDAY!=SA,SU;BYHOUR=15"
- B. "FREQ=WEEKLY;BYDAY=MO-FR;BYHOUR=15"
- C. "FREQ=DAILY;BYDAY=MO-FR;BYHOUR=15"**
- D. "FREQ=WEEKLY;BYDAY=MO,TU,WE,TH,FR;BYHOUR=15"

Answer: C

Explanation:

This expression specifies a daily frequency with a restriction to weekdays (Monday through Friday) at 3:00 PM, which matches the requirement.

NEW QUESTION # 61

Which set of operations are supported by the Oracle Integration Cloud (OIC) File Adapter?

- A. Read, write, list, download
- B. Read, write, list
- C. Read, write, list, download, move
- D. Read, write
- E. **Read, write, list, download, move, delete**

Answer: E

Explanation:

Comprehensive and Detailed Explanation:

File Adapter operations:

D:True-supports read, write, list, download, move, delete.

NEW QUESTION # 62

GlobalTech Corporation uses Oracle Integration (OIC) to synchronize data between their CRM and ERP systems. They currently have a schedule pattern integration that runs nightly at 3 AM. With the implementation of a new CRM system that supports real-time data synchronization, GlobalTech wants to update their ERP system immediately after any data changes in the CRM. To achieve this, they wish to convert the schedule integration to an application pattern integration, allowing the CRM system to explicitly call the integration upon data changes. When implementing this conversion, which of these considerations is NOT valid?

- A. During conversion, you must choose an existing REST Adapter trigger connection resource.
- B. You cannot convert a scheduled integration to a REST Adapter-triggered integration with multiple verbs.
- C. You cannot convert a scheduled integration with assignments that have the fault data type.
- D. **After conversion, existing scheduled parameters will be automatically converted to integration properties.**

Answer: D

Explanation:

Comprehensive and Detailed Explanation:

Conversion Considerations:

A:False-no auto-conversion of parameters.

NEW QUESTION # 63

A company has been using Oracle Integration Cloud (OIC) to integrate its business applications, such as Oracle HCM Cloud, Oracle ERP Cloud, and Salesforce. However, they are planning to migrate some of their integration workloads from their current OIC instance to a new instance in a different region to comply with data sovereignty regulations. Which statement is true regarding the exporting and importing of integrations?

- A. You can export an integration either as a separate file (IAR) or bundled in a package (PAR) and it will still contain the connection resources.
- B. To change an integration identifier or version, you can manually edit the exported integration (IAR) file before importing it into another instance.
- C. **You cannot import an integration if it already exists with the same identifier and version.**
- D. You can import a package containing activated integrations.

Answer: C

Explanation:

Comprehensive and Detailed Explanation:

Migration involves exporting and importing:

Option A: False-manually editing IAR files is not supported; identifiers and versions are managed within OIC.

Option B:True-OIC prevents importing an integration if an identical identifier and version exist in the target instance to avoid conflicts.

Option C: Partially true-IAR or PAR files include connection metadata, but not sensitive data (e.g., credentials), and "still contain" is vague; B is clearer.

Option D: False-imported integrations (even in packages) are inactive by default and require activation post-import.

B ensures uniqueness and integrity during migration.

NEW QUESTION # 64

Our 1Z0-1042-25 practice materials enjoy great popularity in this line. We provide our 1Z0-1042-25 practice materials on the superior quality and being confident that they will help you expand your horizon of knowledge of the exam. They are time-tested practice materials, so they are classic. As well as our after-sales services. We can offer further help related with our 1Z0-1042-25 practice materials which win us high admiration. By devoting in this area so many years, we are omnipotent to solve the problems about the 1Z0-1042-25 practice exam with stalwart confidence. Providing services 24/7 with patient and enthusiastic staff, they are willing to make your process more convenient.
