BTW, DOWNLOAD part of Free4Torrent CWDP-305 dumps from Cloud Storage: [https://drive.google.com/open?id=1chh\\_23VnBXwV8coaKhmKA\\_XP5cO-lKhr](https://drive.google.com/open?id=1chh_23VnBXwV8coaKhmKA_XP5cO-lKhr)

Your performance and exam skills will be improved with our CWDP-305 practice test software. The software provides you with a range of CWDP-305 exam dumps, all of which are based on past CWNP CWDP-305 certification. Either way, the CWDP-305 Practice Exam software will provide you with feedback on your performance. The Certified Wireless Design Professional (CWDP-305) practice test software also includes a built-in timer and score tracker so students can monitor their progress.

This offline software works only on Windows computers and laptops. Free4Torrent also offers up to 1 year of free updates, if for instance, the sections of real Certified Wireless Design Professional examination changes after your purchase of the CWDP-305 practice test material. So just download actual CWDP-305 Exam Questions and start your journey today. It ensures that you would qualify for the CWNP CWDP-305 certification exam on the maiden strive with brilliant grades.

## CWNP CWDP-305 Test Dumps Free - Test CWDP-305 Testking

Our CWDP-305 practice materials have picked out all knowledge points for you, which helps you get rid of many problems. In addition, time is money in modern society. It is important achieve all things efficiently. So our CWDP-305 study guide just needs less time input, which can suit all people's demands. In the meantime, all knowledge points of our CWDP-305 Preparation questions have been adapted and compiled carefully to ensure that you absolutely can understand it quickly.

## CWNP CWDP-305 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>• Design the WLAN: This section of the exam measures the skills of a WLAN Design Engineer and covers the process of selecting configurations, architecture types, and wireless components to meet business and technical requirements. It includes using design software, selecting access points and antennas, and applying methodologies such as predictive or measured design. Candidates must demonstrate the ability to produce effective documentation and configure features like QoS, roaming security, and network services for different types of client devices and applications.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>• Define Specifications for the WLAN: This section of the exam measures the skills of a Wireless Network Planner and focuses on gathering business and technical requirements needed for designing wireless LANs. It includes understanding user needs, regulatory and safety constraints, and environmental factors. Candidates are expected to identify critical elements such as coverage, capacity, security, and device compatibility, and to analyse existing infrastructure and documentation to ensure a successful design strategy.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>• Deploy the WLAN: This section of the exam measures the skills of a WLAN Implementation Specialist and involves overseeing the deployment phase of wireless networks. It focuses on understanding deployment procedures for various WLAN architectures, configuring supporting infrastructure, and verifying proper installation. The section also addresses physical installation checks, documentation handover, and quality assurance practices during ongoing installations.</li></ul>
Topic 4	<ul style="list-style-type: none"><li>• Validate and Optimize the WLAN: This section of the exam measures the skills of a WLAN Optimization Specialist and assesses the ability to test, validate, and fine-tune wireless networks post-deployment. Key tasks include RF validation surveys, performance testing, troubleshooting connectivity and security issues, and applying appropriate physical or RF adjustments. It also involves client testing and final project handover, including documentation, knowledge transfer, and meetings to ensure long-term WLAN success.</li></ul>

## CWNP Certified Wireless Design Professional Sample Questions (Q152-Q157):

### NEW QUESTION # 152

A controller-based WLAN infrastructure has its controller on a different subnet than its access points (APs). What device must be used to enable communication between the controller and the APs?

- A. Wireless bridge
- B. PoE Layer 2 switch
- C. Router
- D. NTP server

**Answer: C**

### NEW QUESTION # 153

ABC Company has a WLAN controller with 10 controller-based APs; the Voice SSID is configured for centralized data forwarding. Each AP is connected to an access port on a layer-2 Ethernet switch. Each layer-2 switch is uplinked to a single layer-3 core Ethernet switch. The WLAN controller is connected directly to the layer-3 core Ethernet switch. Layer-3 tunnels are created between all controller-based APs and the WLAN controller. A voice server is connected to the layer-3 Ethernet switch. When a voice-enabled QoS STA sends an IP data packet to a voice server in this scenario, the DSCP value carried in the STA's IP data packet gets mapped to what and by which device?

- A. The DSCP value is mapped to an IEEE 802.1p (802.1D-2004) UP value by the access point.
- B. The DSCP value is mapped to the DSCP value in the encapsulating IP header by the layer-3 switch.
- C. The DSCP value is mapped to an IEEE 802.1Q VLAN tag by the access point.
- D. The DSCP value is mapped to an IEEE 802.1Q priority tag value by the WLAN controller.

**Answer: D**

**NEW QUESTION # 154**

What advantage provided by 802.11n and 802.11ac is not usable in 1X1:1 low-end client devices?

- A. Channel bonding
- B. MCS data rates
- C. Maximal Ratio Combining
- D. Mandatory data rates

**Answer: C**

**NEW QUESTION # 155**

A company wants to connect its headquarters to its remote office that is 13 kilometers away using a wireless bridge. What requirement must not be forgotten by their Wireless Engineer when considering the Fresnel Zone?

- A. Antenna gain
- B. Earth bulge
- C. Receive sensitivity
- D. FSPL

**Answer: B**

**NEW QUESTION # 156**

When using a predictive design tool, you have selected access points (APs) with an antenna gain of 3 dBi and set the transmit power to 25 mW. What is the EIRP (Effective Isotropic Radiated Power) of the APs in this design?

- A. 11 dBm
- B. 6.25 mW
- C. 125 mW
- D. 17 dBm

**Answer: D**

**NEW QUESTION # 157**

.....

The immediate downloading feature of our CWDP-305 Certification guide is an eminent advantage of our products. Once the pay is done, our customers will receive an e-mail from our company. There is a linkage given by our e-mail, and people can begin their study right away after they have registered in. Our CWDP-305 exam braindumps are available for downloading without any other disturbing requirements as long as you have paid successfully, which is increasingly important to an examinee as he or she has limited time for personal study. Therefore, our Certified Wireless Design Professional guide torrent is attributive to high-efficient learning.
