NEW QUESTION # 306

Which of the following is MOST useful when developing a business case for security initiatives?

- A. Vendor management
- B. Request for proposals
- **C. Cost/benefit analysis**
- D. Budget forecasts

Answer: C

Explanation:

cost/benefit analysis evaluates the financial and operational advantages of a security initiative against its costs, helping build a strong business case.

* Foundation for Business Cases:

* Provides clarity on the financial return, operational improvements, and risk reductions offered by the initiative.

* Key Elements:

* Quantitative: Monetary costs and potential savings from risk mitigation.

* Qualitative: Non-financial benefits like improved reputation or compliance.

* Decision Support:

* Enables stakeholders to understand the trade-offs, ROI, and overall value, making it a cornerstone for justifying investments.

* Additional Factors:

* Budget forecasts, vendor proposals, and management considerations complement but do not replace a cost/benefit analysis.

* Strategic Justification: Outlines the importance of cost/benefit analysis in presenting security initiatives to decision-makers.

* Resource Allocation: Helps prioritize projects with maximum return and risk reduction.

NEW QUESTION # 307

An access point (AP) is discovered using Wireless Equivalent Protocol (WEP). The ciphertext sent by the AP is encrypted with the
